

Commission Regulation (EU) 2016/631 of 14 April 2016 establishing a network code on requirements for grid connection of generators (Text with EEA relevance)

TITLE I  
GENERAL PROVISIONS

Article 1	Subject matter
Article 2	Definitions
Article 3	Scope of application
Article 4	Application to existing power-generating modules
Article 5	Determination of significance
Article 6	Application to power-generating modules, pump-storage power-generating modules, combined heat and power facilities, and industrial sites
Article 7	Regulatory aspects
Article 8	Multiple TSOs
Article 9	Recovery of costs
Article 10	Public consultation
Article 11	Stakeholder involvement
Article 12	Confidentiality obligations

TITLE II  
REQUIREMENTS

CHAPTER 1

General requirements

Article 13	General requirements for type A power-generating modules
Article 14	General requirements for type B power-generating modules
Article 15	General requirements for type C power-generating modules
Article 16	General requirements for type D power-generating modules

CHAPTER 2

Requirements for synchronous power-generating modules

Article 17	Requirements for type B synchronous power-generating modules
Article 18	Requirements for type C synchronous power-generating modules
Article 19	Requirements for type D synchronous power-generating modules

CHAPTER 3

Requirements for power park modules

Article 20	Requirements for type B power park modules
------------	--

*Status: Point in time view as at 31/12/2020.*

*Changes to legislation: There are outstanding changes not yet made to Commission Regulation (EU) 2016/631. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

---

- Article 21 Requirements for type C power park modules  
Article 22 Requirements for type D power park modules

#### CHAPTER 4

##### Requirements for offshore power park modules

- Article 23 General provisions  
Article 24 Frequency stability requirements applicable to AC-connected offshore power park modules  
Article 25 Voltage stability requirements applicable to AC-connected offshore power park modules  
Article 26 Robustness requirements applicable to AC-connected offshore power park modules  
Article 27 System restoration requirements applicable to AC-connected offshore power park modules  
Article 28 General system management requirements applicable to AC-connected offshore power park modules

#### TITLE III

#### OPERATIONAL NOTIFICATION PROCEDURE FOR CONNECTION

#### CHAPTER 1

##### Connection of new power-generating modules

- Article 29 General provisions  
Article 30 Operational notification of type A power-generating modules  
Article 31 Operational notification of type B, C and D power-generating modules  
Article 32 Procedure for type B and C power-generating modules  
Article 33 Procedure for type D power-generating modules  
Article 34 Energisation operational notification for type D power-generating modules  
Article 35 Interim operational notification for type D power-generating modules  
Article 36 Final operational notification for type D power-generating modules  
Article 37 Limited operational notification for type D power-generating modules

#### CHAPTER 2

##### Cost-benefit analysis

- Article 38 Identification of costs and benefits of application of requirements to existing power-generating modules  
Article 39 Principles of cost-benefit analysis

*Status: Point in time view as at 31/12/2020.*

*Changes to legislation: There are outstanding changes not yet made to Commission Regulation (EU) 2016/631. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

---

## TITLE IV

### COMPLIANCE

#### CHAPTER 1

##### Compliance monitoring

- Article 40 Responsibility of the power-generating facility owner
- Article 41 Tasks of the relevant system operator
- Article 42 Common provisions for compliance testing
- Article 43 Common provisions on compliance simulation

#### CHAPTER 2

##### Compliance testing for synchronous power-generating modules

- Article 44 Compliance tests for type B synchronous power-generating modules
- Article 45 Compliance tests for type C synchronous power-generating modules
- Article 46 Compliance tests for type D synchronous power-generating modules

#### CHAPTER 3

##### Compliance testing for power park modules

- Article 47 Compliance tests for type B power park modules
- Article 48 Compliance tests for type C power park modules
- Article 49 Compliance tests for type D power park modules

#### CHAPTER 4

##### Compliance testing for offshore power park modules

- Article 50 Compliance tests for offshore power park modules

#### CHAPTER 5

##### Compliance simulations for synchronous power-generating modules

- Article 51 Compliance simulations for type B synchronous power-generating modules
- Article 52 Compliance simulations for type C synchronous power-generating modules
- Article 53 Compliance simulations for type D synchronous power-generating modules

*Status: Point in time view as at 31/12/2020.*

*Changes to legislation: There are outstanding changes not yet made to Commission Regulation (EU) 2016/631. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

---

## CHAPTER 6

### Compliance simulations for power park modules

- Article 54 Compliance simulations for type B power park modules
- Article 55 Compliance simulations for type C power park modules
- Article 56 Compliance simulations for type D power park modules

## CHAPTER 7

### Compliance simulations for offshore power park modules

- Article 57 Compliance simulations applicable to offshore power park modules

## CHAPTER 8

### Non-binding guidance and monitoring of implementation

- Article 58 Non-binding guidance on implementation
- Article 59 Monitoring

## TITLE V

### DEROGATIONS

- Article 60 Power to grant derogations
- Article 61 General provisions
- Article 62 Request for a derogation by a power-generating facility owner
- Article 63 Request for a derogation by a relevant system operator or relevant TSO
- Article 64 Register of derogations from the requirements of this Regulation
- Article 65 Monitoring of derogations

## TITLE VI

### TRANSITIONAL ARRANGEMENTS FOR EMERGING TECHNOLOGIES

- Article 66 Emerging technologies
- Article 67 Establishment of thresholds for classification as emerging technologies
- Article 68 Application for classification as an emerging technology
- Article 69 Assessment and approval of requests for classification as an emerging technology
- Article 70 Withdrawal of classification as an emerging technology

## TITLE VII

### FINAL PROVISIONS

- Article 71 Amendment of contracts and general terms and conditions

**Status:** Point in time view as at 31/12/2020.

**Changes to legislation:** There are outstanding changes not yet made to Commission Regulation (EU) 2016/631. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

---

Article 72      Entry into force  
                    Signature

---

**Status:** Point in time view as at 31/12/2020.

**Changes to legislation:** There are outstanding changes not yet made to Commission Regulation (EU) 2016/631. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

---

- (1) [OJ L 211, 14.8.2009, p. 15.](#)
- (2) Directive 2009/72/EC of the European Parliament and of the Council of 13 July 2009 concerning common rules for the internal market in electricity and repealing Directive 2003/54/EC ([OJ L 211, 14.8.2009, p. 55](#)).

**Status:**

Point in time view as at 31/12/2020.

**Changes to legislation:**

There are outstanding changes not yet made to Commission Regulation (EU) 2016/631. Any changes that have already been made to the legislation appear in the content and are referenced with annotations.
