

Council Regulation (EU) 2017/127 of 20 January 2017 fixing for 2017 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in Union waters and, for Union fishing vessels, in certain non-Union waters

COUNCIL REGULATION (EU) 2017/127

of 20 January 2017

fixing for 2017 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in Union waters and, for Union fishing vessels, in certain non-Union waters

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(3) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) Article 43(3) of the Treaty provides that the Council, on a proposal from the Commission, is to adopt measures on the fixing and allocation of fishing opportunities.
- (2) Regulation (EU) No 1380/2013 of the European Parliament and of the Council⁽¹⁾ requires that conservation measures be adopted taking into account available scientific, technical and economic advice, including, where relevant, reports drawn up by the Scientific, Technical and Economic Committee for Fisheries (STECF) and other advisory bodies, as well as in the light of any advice received from Advisory Councils.
- (3) It is incumbent upon the Council to adopt measures on the fixing and allocation of fishing opportunities, including certain conditions functionally linked thereto, as appropriate. In accordance with Article 16(4) of Regulation (EU) No 1380/2013, fishing opportunities should be fixed in accordance with the objectives of the Common Fisheries Policy established in Article 2(2) of that Regulation. In accordance with Article 16(1) of that Regulation, fishing opportunities should be allocated to Member States in such a way as to ensure relative stability of fishing activities of each Member State for each fish stock or fishery.
- (4) The total allowable catch (TACs) should therefore be established, in line with Regulation (EU) No 1380/2013, on the basis of available scientific advice, taking into account biological and socioeconomic aspects whilst ensuring fair treatment between fishing sectors, as well as in the light of the opinions expressed during the consultation of stakeholders, in particular at the meetings of the Advisory Councils.
- (5) The landing obligation referred to in Article 15 of Regulation (EU) No 1380/2013 is introduced on a fishery-by-fishery basis. In the region covered by this Regulation, when a fishery falls under the landing obligation, all species in that fishery subject to catch limits should be landed. From 1 January 2017, the landing obligation applies to the species that define the fisheries. Article 16(2) of Regulation (EU) No 1380/2013

Status: Point in time view as at 31/01/2020.

Changes to legislation: *There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

provides that, when the landing obligation in respect of a fish stock is introduced, fishing opportunities are to be fixed taking into account the change from fixing fishing opportunities that reflect landings to fixing fishing opportunities that reflect catches. On the basis of the joint recommendations submitted by the Member States and in accordance with Article 15 of Regulation (EU) No 1380/2013 the Commission adopted a number of delegated Regulations laying down specific discard plans applicable on a temporary basis for a maximum period of three years, in preparation for the full implementation of the landing obligation.

- (6) The fishing opportunities for stocks of species falling under the landing obligation from 1 January 2017 should compensate for former discards and be based on scientific information and advice. In order to ensure fair compensation for the fish that has been previously discarded and that will have to be landed from 1 January 2017, a top-up should be calculated according to the following methodology: the new landings figure should be calculated by subtracting from the International Council for the Exploration of the Sea (ICES) figure of total catches the amounts that will continue to be discarded during the operation of the landing obligation; subsequently a top-up applied to the TAC figure should be proportional to the change between the new calculated landings figure and the previous ICES landings figure.
- (7) Council Regulation (EC) No 1342/2008⁽²⁾ has been amended by Regulation (EU) 2016/2094 of the European Parliament and of the Council⁽⁹⁾, deleting Chapter III of Regulation (EC) No 1342/2008. For this reason, and in line with Commission Delegated Regulation (EU) 2016/2250⁽⁴⁾, as of 1 January 2017 the landing obligation of cod will apply to catches of cod in ICES subarea IV, ICES division IIIa and Union waters of ICES division IIa, in accordance with the Articles 1 and 3 of, and the Annex to, the Commission Delegated Regulation. For this reason, fishing opportunities for the cod stock should be fixed in accordance with Article 16(2) of Regulation (EU) No 1380/2013, taking into account the amounts of fish that were discarded in the past and that now will have to be landed.
- (8) According to scientific advice, sea bass (*Dicentrarchus labrax*) in the Celtic Sea, Channel, Irish Sea and southern North Sea (ICES divisions IVb, IVc and VIIa, VIId–VIIh) remains in a perilous state and the stock continues to decline. The conservation measures to prohibit fishing for sea bass should therefore be maintained in ICES divisions VIIa, VIIb, VIIc, VIIg, VIIj and VIIk, with the exception of the waters within 12 nautical miles of the baseline under the sovereignty of the United Kingdom. Spawning aggregations of sea bass should be protected with commercial catches restricted further in 2017. On the basis of social and economic impacts limited fisheries using hooks and lines should be permitted, while providing for a closure to protect spawning aggregations. Additionally, due to incidental and unavoidable by-catches of sea bass by vessels using demersal trawls and seines, such by-catches should be limited to 3 % of the weight of the total catch of marine organisms on board with a maximum of 400 kilograms per month. For the same reasons, for fixed gillnets by-catches should be limited to 250 kilograms per month. Catches of recreational fishermen from the Northern stock and, for precautionary reasons, from the stock in the Bay of Biscay should be restricted by a daily limit.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (9) For some years, certain TACs for stocks of elasmobranchs (skates, sharks, rays) have been set at zero, with a linked provision establishing an obligation to immediately release accidental catches. The reason for this specific treatment is that the conservation status of those stocks is poor and, because of their high survival rates, discards will not raise fishing mortality rates for them, but are deemed as beneficial for the conservation of these species. As of 1 January 2015, however, catches of those species in pelagic fisheries have to be landed, unless they are covered by any of the derogations from the landing obligation foreseen in Article 15 of Regulation (EU) No 1380/2013. Article 15(4)(a) of that Regulation allows such derogations for species in respect of which fishing is prohibited and which are identified as such in a Union legal act adopted in the area of the Common Fisheries Policy. Therefore, it is appropriate to prohibit the fishing of those species in the areas concerned.
- (10) Pursuant to Article 16(4) of Regulation (EU) No 1380/2013, for stocks subject to specific multiannual plans the TACs should be established in accordance with the rules laid down in those plans. Consequently, the TACs for stocks of sole in the Western Channel, of plaice and sole in the North Sea and of bluefin tuna in the Eastern Atlantic and the Mediterranean should be established in accordance with the rules laid down in Council Regulations (EC) No 509/2007⁽⁵⁾, (EC) No 676/2007⁽⁶⁾ and (EC) No 302/2009⁽⁷⁾. The objective for the Southern hake stock as set out in Council Regulation (EC) No 2166/2005⁽⁸⁾ is to rebuild the biomass of the stocks concerned to within safe biological limits, while staying in line with the scientific data. In accordance with scientific advice, in the absence of definitive data on a target spawning stock biomass and while taking into account changes in safe biological limits, it is appropriate, in order to contribute to the achievement of the objectives of the Common Fisheries Policy as defined in Regulation (EU) No 1380/2013, to fix the TAC on the basis of maximum sustainable yield advice, as provided by ICES.
- (11) As regards the stock of pollack in subareas IX and X and Union waters of CECAF 34.1.1, which was previously identified as whiting, it is appropriate to allocate to Portugal, additionally, fishing opportunities not exceeding 98 tonnes. The whiting TAC in those areas should be discontinued.
- (12) As a result of the recent benchmark exercise, as regards the stock of herring to the west of Scotland, ICES has provided advice for the combined herring stocks in Divisions VIa, VIIb and VIIc (West of Scotland, West of Ireland). The advice covers two separate TACs (for VIaS, VIIb and VIIc on the one hand, and for Vb, VIb and VIaN on the other). According to ICES, a rebuilding plan has to be developed for these stocks. Since, according to scientific advice, the management plan for the northern stock⁽⁹⁾ cannot be applied to the combined stocks and it is not possible to set separate fishing opportunities for these two stocks, a limited TAC is established to permit a commercially operated scientific sampling programme.
- (13) For stocks for which there is no sufficient or reliable data in order to provide size estimates, management measures and TAC levels should follow the precautionary approach to fisheries management as defined in Article 4(1)(8) of Regulation (EU) No

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- 1380/2013, while taking into account stock-specific factors, including, in particular, available information on stock trends and mixed fisheries considerations.
- (14) Council Regulation (EC) No 847/96⁽¹⁰⁾ introduced additional conditions for year-to-year management of TACs including, under Articles 3 and 4 of that Regulation, flexibility provisions for precautionary and analytical TACs. Under Article 2 of that Regulation, when fixing the TACs, the Council is to decide to which stocks Articles 3 or 4 of that Regulation shall not apply, in particular on the basis of the biological status of the stocks. More recently, the year-to-year flexibility mechanism was introduced by Article 15(9) of Regulation (EU) No 1380/2013 for all stocks that are subject to the landing obligation. Therefore, in order to avoid excessive flexibility that would undermine the principle of rational and responsible exploitation of marine biological resources, hinder the achievement of the objectives of the CFP and deteriorate the biological status of the stocks, it should be established that Articles 3 and 4 of Regulation (EC) No 847/96 apply to analytical TACs only where the year-to-year flexibility provided for in Article 15(9) of Regulation (EU) No 1380/2013 is not used.
- (15) Where a TAC relating to a stock is allocated to one Member State only, it is appropriate to empower that Member State in accordance with Article 2(1) of the Treaty to determine the level of such TAC. Provisions should be made to ensure that, when fixing that TAC level, the Member State concerned acts in a manner fully consistent with the principles and rules of the Common Fisheries Policy.
- (16) It is necessary to establish the fishing effort ceilings for 2017 in accordance with Article 5 of Regulation (EC) No 509/2007, Article 9 of Regulation (EC) No 676/2007, and Articles 5 and 9 of Regulation (EC) No 302/2009.
- (17) In order to guarantee full use of fishing opportunities, it is appropriate to allow for the implementation of a flexible arrangement between some of the TAC areas where the same biological stock is concerned. It is thus appropriate in particular to allow a limited inter-area flexibility for haddock from area Vb and VIa to area IIa and IV.
- (18) For certain species, such as certain species of sharks, even a limited fishing activity could result in a serious risk to their conservation. Fishing opportunities for such species should therefore be fully restricted through a general prohibition on fishing those species.
- (19) At the 11th Conference of the Parties of the Convention on the Conservation of Migratory Species of Wild Animals, held in Quito from 3 to 9 November 2014, a number of species were added to the lists of protected species in Appendices I and II of the Convention, with effect from 8 February 2015. Therefore, it is appropriate to provide for the protection of those species with respect to Union fishing vessels fishing in all waters and non-Union fishing vessels fishing in Union waters.
- (20) The use of fishing opportunities available to Union fishing vessels set out in this Regulation is subject to Council Regulation (EC) No 1224/2009⁽¹¹⁾, and in particular to Articles 33 and 34 of that Regulation, concerning the recording of catches and fishing effort and the notification of data on the exhaustion of fishing opportunities. It

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

is therefore necessary to specify the codes to be used by Member States when sending data to the Commission relating to landings of stocks subject to this Regulation.

- (21) It is appropriate, following advice from the ICES, to maintain a specific system to manage sandeel and associated by-catches in Union waters of ICES divisions IIa and IIIa and ICES subarea IV. Given that the ICES scientific advice is expected to become available only in February 2017, it is appropriate to set the TAC and quotas for this stock provisionally at zero until such advice is released.
- (22) In accordance with the procedure provided for in the agreements or protocols on fisheries relations with Norway⁽¹²⁾ and the Faroe Islands⁽¹³⁾, the Union has held consultations on fishing rights with those partners. In accordance with the procedure provided for in the agreement and protocol on fisheries relations with Greenland⁽¹⁴⁾, the Joint Committee has established the level of fishing opportunities available for the Union in Greenland waters in 2017. It is therefore necessary to include these fishing opportunities in this Regulation.
- (23) At its Annual Meeting in 2016, North-East Atlantic Fisheries Commission (NEAFC) adopted conservation measures on the two redfish stocks in the Irminger Sea. These measures should be implemented in the law of the Union.
- (24) At its Annual Meeting in 2016, the International Commission for the Conservation of Atlantic Tunas (ICCAT) adopted an extension of the TAC and quotas for North and South Atlantic albacore and North and South Atlantic swordfish and an extension of the TAC for yellowfin tuna. Furthermore, it also set a catch limit for North Atlantic blue shark, East Atlantic and West Atlantic sailfish, it set a TAC for Mediterranean swordfish and confirmed for 2017 TACs and quotas previously established for bluefin tuna and bigeye tuna. Concerning blue and white marlins, ICCAT confirmed for 2017 the TACs previously established and accepted the proposed payback plan proposed by the EU due to the overharvest by Spain in 2014 and 2015. As it is already the case for the stock of bluefin tuna, it is appropriate that catches in recreational fisheries of all other ICCAT stocks should be subject to the catch limits as adopted by that organisation. Furthermore, Union fishing vessels of at least 20 metre length fishing for bigeye tuna in the ICCAT Convention Area should be subject to the capacity limitations adopted by ICCAT in the ICCAT Recommendation 15-01. All these measures should be implemented in the law of the Union.
- (25) At its 35th Annual Meeting in 2016, the Parties to the Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR) adopted catch limits for both target and by-catch species for 2016/2017 and 2017/2018. The uptake of such quota during 2016 should be considered when setting fishing opportunities for the year 2017.
- (26) At its Annual Meeting in 2016, the Indian Ocean Tuna Commission (IOTC) adopted catch limits for yellowfin tuna (*Thunnus albacares*). It also adopted a measure reducing the use of Fish Aggregating Devices (FADs) and limiting the use of supply vessels. As the activities of supply vessels and the use of FADs are an integral part of the fishing effort exerted by the purse seine fleet, the measure should be implemented in the law of the Union.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (27) The Annual Meeting of the South Pacific Regional Fisheries Management Organisation (SPRFMO) will be held on 18-22 January 2017. It is appropriate that current measures in the SPRFMO Convention Area are provisionally maintained until such Annual Meeting is held. However, the stock of jack mackerel should not be targeted before a TAC is set as a result of that Annual Meeting.
- (28) The Inter American Tropical Tuna Commission (IATTC) failed to conclude its 90th Annual Meeting during 2016 and an Extraordinary Meeting will take place on 7-10 February 2017. It is appropriate that the current measures for yellowfin tuna, bigeye tuna and skipjack tuna in the IATTC Convention Area are provisionally maintained until the Extraordinary Meeting is held.
- (29) At its Annual Meeting in 2016, the South East Atlantic Fisheries Organisation (SEAFO) adopted a conservation measure for biennial TACs for Patagonian toothfish, deep sea red crab, alfonsinos and pelagic armourhead. A biennial TAC for orange roughy in Division B1 was also adopted, while the TAC for those species in the remainder of the SEAFO Convention Area was limited to one year. The currently applicable measures on allocation of fishing opportunities adopted by SEAFO should be implemented in the law of the Union.
- (30) At its 13th Annual Meeting, the Western and Central Pacific Fisheries Commission (WCPFC) confirmed the conservation and management measures in place. Those measures should continue to be implemented in the law of the Union.
- (31) At its 38th Annual Meeting in 2016, the Northwest Atlantic Fisheries Organisation (NAFO) adopted a number of fishing opportunities for 2017 of certain stocks in Subareas 1-4 of the NAFO Convention Area. Those measures should be implemented in the law of the Union.
- (32) At its 40th Annual Meeting in 2016, the General Fisheries Commission for the Mediterranean (GFCM) adopted catch and effort limits for certain small pelagic stocks for the years 2017 and 2018 in the geographical subareas 17 and 18 (Adriatic Sea) of the GFCM Agreement Area. Those measures should be implemented in the law of the Union. The maximum catch limits established in Annex IL are fixed exclusively for one year and without prejudice to any other measures adopted in the future and any possible allocation scheme between Member States.
- (33) Taking into account the particularities of the Slovenian fleet, their marginal impact on the stocks of small pelagic species it is appropriate to preserve the existing fishing patterns and to ensure access of the Slovenian fleet to a minimum quantity of small pelagic species.
- (34) Certain international measures which create or restrict fishing opportunities for the Union are adopted by the relevant Regional Fisheries Management Organisations (RFMOs) at the end of the year and become applicable before the entry into force of this Regulation. It is therefore necessary for the provisions that implement such measures in the law of the Union to apply retroactively. In particular, since the fishing season in CCAMLR Convention Area runs from 1 December to 30 November, and thus certain fishing opportunities or prohibitions in the CCAMLR Convention Area are laid down

Status: Point in time view as at 31/01/2020.

Changes to legislation: *There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

for a period of time starting from 1 December 2016, it is appropriate that the relevant provisions of this Regulation apply from that date. Such retroactive application does not prejudice the principle of legitimate expectations as CCAMLR members are forbidden to fish in the CCAMLR Convention Area without authorisation.

- (35) As regards the fishing opportunities for snow crab around the area of Svalbard, the Treaty of Paris of 1920 grants an equal and non-discriminatory access to resources for all parties to that Treaty, including with respect to fishing. The Union's view of this access as regards fishing for snow crab on the continental shelf around Svalbard has been set out in a *note verbale* to Norway dated 25 October 2016, in respect of a Norwegian regulation of the fishing for snow crab on its continental shelf, which in the Union's view disregards the specific provisions of the Treaty of Paris and in particular those laid down in Articles 2 and 3 thereof. In order to ensure that the exploitation of snow crab within the area of Svalbard is made consistent with such non-discriminatory management rules as may be set out by Norway, which enjoys sovereignty and jurisdiction in the area within the limits of the said Treaty, it is appropriate to fix the number of vessels that are authorised to conduct such fishery. The allocation of such fishing opportunities among Member States is limited to 2017. It is recalled that primary responsibility for ensuring compliance with applicable law lies with the flag Member States.
- (36) In accordance with the declaration by the Union addressed to the Bolivarian Republic of Venezuela on the granting of fishing opportunities in EU waters to fishing vessels flying the flag of Bolivarian Republic of Venezuela in the exclusive economic zone off the coast of French Guiana⁽¹⁵⁾, it is necessary to fix the fishing opportunities for snapper available to Venezuela in Union waters.
- (37) Given that certain provisions are to be applied on a continuous basis, and in order to avoid legal uncertainty during the period between the end of 2017 and the date of entry into force of the Regulation fixing the fishing opportunities for 2018, it is appropriate that the provisions concerning prohibitions and closed seasons continue to apply at the beginning of 2018, until the entry into force of the Regulation fixing the fishing opportunities for 2018.
- (38) In order to ensure uniform conditions for granting an individual Member State an authorisation to benefit from the system of managing its fishing effort allocations in accordance with a kilowatt days system, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council⁽¹⁶⁾.
- (39) In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission relating to the granting of additional days at sea for permanent cessation of fishing activities and for enhanced scientific observer coverage as well as to establish the formats of spreadsheet for the collection and transmission of information concerning transfer of days at sea between fishing vessels flying the flag of a Member State.
- (40) In order to avoid the interruption of fishing activities and to ensure the livelihood of the fishermen of the Union, this Regulation should apply from 1 January 2017, except

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

for the provisions concerning fishing effort limits, which should apply from 1 February 2017, and certain provisions in particular regions, which should have a specific date of application. For reasons of urgency, this Regulation should enter into force immediately after its publication.

- (41) Fishing opportunities should be used in full compliance with the applicable law of the Union,

HAS ADOPTED THIS REGULATION:

TITLE I **U.K.**

GENERAL PROVISIONS

Article 1 **U.K.**

Subject matter

1 This Regulation fixes the fishing opportunities available in Union waters and, to Union fishing vessels, in certain non-Union waters for certain fish stocks and groups of fish stocks.

- 2 The fishing opportunities referred to in paragraph 1 include:
- a catch limits for the year 2017 and, where specified in this Regulation, for the year 2018;
 - b fishing effort limits for the period from 1 February 2017 to 31 January 2018, except where other periods are established for effort limits in Articles 25 and 26 and Annex IIE;
 - c fishing opportunities for the period from 1 December 2016 to 30 November 2017 for certain stocks in the CCAMLR Convention Area;
 - d fishing opportunities for certain stocks in the IATTC Convention Area set out in Article 27 for the periods in 2017 and 2018 specified in that provision.

Article 2 **U.K.**

Scope

1 This Regulation shall apply to the following vessels:

- a Union fishing vessels;
- b third-country vessels in Union waters.

2 This Regulation shall also apply to recreational fisheries where they are expressly referred to in the relevant provisions.

Article 3 **U.K.**

Definitions

For the purposes of this Regulation, the definitions referred to in Article 4 of Regulation (EU) No 1380/2013 apply. In addition, the following definitions shall apply:

- (a) ‘third-country vessel’ means a fishing vessel flying the flag of, and registered in, a third country;

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (b) ‘recreational fisheries’ means non-commercial fishing activities exploiting marine biological resources such as for recreation, tourism or sport;
- (c) ‘international waters’ means waters falling outside the sovereignty or jurisdiction of any State;
- (d) ‘total allowable catch’ (TAC) means:
 - (i) in fisheries subject to the landing obligation referred to in Article 15 of Regulation (EU) No 1380/2013, the quantity of fish that can be caught from each stock each year;
 - (ii) in all other fisheries, the quantity of fish that can be landed from each stock each year;
- (e) ‘quota’ means a proportion of the TAC allocated to the Union, a Member State or a third country;
- (f) ‘analytical assessments’ means quantitative evaluations of trends in a given stock, based on data about the stock's biology and exploitation, which scientific review has indicated to be of sufficient quality to provide scientific advice on options for future catches;
- (g) ‘mesh size’ means the mesh size of fishing nets as determined in accordance with Commission Regulation (EC) No 517/2008⁽¹⁷⁾;
- (h) ‘Union fishing fleet register’ means the register set up by the Commission in accordance with Article 24(3) of Regulation (EU) No 1380/2013;
- (i) ‘fishing logbook’ means the logbook referred to in Article 14 of Regulation (EC) No 1224/2009.

Article 4 U.K.

Fishing zones

For the purposes of this Regulation the following zone definitions shall apply:

- (a) ICES (International Council for the Exploration of the Sea) zones are the geographical areas specified in Annex III to Regulation (EC) No 218/2009⁽¹⁸⁾;
- (b) ‘Skagerrak’ means the geographical area bounded on the west by a line drawn from the Hanstholm lighthouse to the Lindesnes lighthouse and on the south by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast;
- (c) ‘Kattegat’ means the geographical area bounded on the north by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast and on the south by a line drawn from Hasenøre to Gnibens Spids, from Korshage to Spodsbjerg and from Gilbjerg Hoved to Kullen;
- (d) ‘Functional Unit 16 of ICES subarea VII’ means the geographical area bounded by rhumb lines sequentially joining the following positions:
 - 53° 30′ N 15° 00′ W,
 - 53° 30′ N 11° 00′ W,
 - 51° 30′ N 11° 00′ W,

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- 51° 30' N 13° 00' W,
 - 51° 00' N 13° 00' W,
 - 51° 00' N 15° 00' W,
 - 53° 30' N 15° 00' W;
- (e) 'Functional Unit 26 of ICES division IXa' means the geographical area bounded by rhumb lines sequentially joining the following positions:
- 43° 00' N 8° 00' W,
 - 43° 00' N 10° 00' W,
 - 42° 00' N 10° 00' W,
 - 42° 00' N 8° 00' W;
- (f) 'Functional Unit 27 of ICES division IXa' means the geographical area bounded by rhumb lines sequentially joining the following positions:
- 42° 00' N 8° 00' W,
 - 42° 00' N 10° 00' W,
 - 38° 30' N 10° 00' W,
 - 38° 30' N 9° 00' W,
 - 40° 00' N 9° 00' W,
 - 40° 00' N 8° 00' W;
- (g) 'Gulf of Cádiz' means the geographical area of ICES division IXa east of longitude 7° 23' 48" W;
- (h) CECAF (Committee for Eastern Central Atlantic Fisheries) areas are the geographical areas specified in Annex II to Regulation (EC) No 216/2009 of the European Parliament and of the Council⁽¹⁹⁾;
- (i) NAFO (Northwest Atlantic Fisheries Organisation) areas are the geographical areas specified in Annex III to Regulation (EC) No 217/2009 of the European Parliament and of the Council⁽²⁰⁾;
- (j) 'SEAFO (South East Atlantic Fisheries Organisation) Convention Area' is the geographical area defined in the Convention on the Conservation and Management of Fishery Resources in the South-East Atlantic Ocean⁽²¹⁾;
- (k) 'ICCAT (International Commission for the Conservation of Atlantic Tunas) Convention Area' is the geographical area defined in the International Convention for the Conservation of Atlantic Tunas⁽²²⁾;
- (l) 'CCAMLR (Commission for the Conservation of Antarctic Marine Living Resources) Convention Area' is the geographical area defined in point (a) of Article 2 of Council Regulation (EC) No 601/2004⁽²³⁾;
- (m) 'IATTC (Inter — American Tropical Tuna Commission) Convention Area' is the geographical area defined in the Convention for the Strengthening of the Inter-American Tropical Tuna Commission established by the 1949 Convention between the United States of America and the Republic of Costa Rica⁽²⁴⁾;
- (n) 'IOTC (Indian Ocean Tuna Commission) Area of Competence' is the geographical area defined in the Agreement for the establishment of the Indian Ocean Tuna Commission⁽²⁵⁾;

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (o) ‘SPRFMO (South Pacific Regional Fisheries Management Organisation) Convention Area’ is the high seas geographical area south of 10° N, north of the CCAMLR Convention Area, east of the SIOFA Convention Area as defined in the Southern Indian Ocean Fisheries Agreement⁽²⁶⁾, and west of the areas of fisheries jurisdictions of South American States;
- (p) ‘WCPFC (Western and Central Pacific Fisheries Commission) Convention Area’ is the geographical area defined in the Convention on the Conservation and Management of Highly Migratory Fish Stocks in the Western and Central Pacific Ocean⁽²⁷⁾;
- (q) ‘GFCM (General Fisheries Commission for the Mediterranean) geographical subareas’ are the areas defined in Annex I to Regulation (EU) No 1343/2011 of the European Parliament and of the Council⁽²⁸⁾.
- (r) ‘high seas of the Bering Sea’ is the geographical area of the high seas of the Bering Sea beyond 200 nautical miles from the baselines from which the breadth of the territorial sea of the coastal States of the Bering Sea is measured;
- (s) ‘overlap area between IATTC and WCPFC’ is the geographical area defined by the following limits:
 - longitude 150° W,
 - longitude 130° W,
 - latitude 4° S,
 - latitude 50° S.

TITLE II **U.K.**

FISHING OPPORTUNITIES FOR UNION FISHING VESSELS

CHAPTER I **U.K.**

General provisions

Article 5 **U.K.**

TACs and allocations

1 The TACs for Union fishing vessels in Union waters or certain non-Union waters and the allocation of such TACs among Member States, and the conditions functionally linked thereto, where appropriate, are set out in Annex I.

2 Union fishing vessels shall be authorised to make catches, within the TACs set out in Annex I, in waters falling within the fisheries jurisdiction of the Faroe Islands, Greenland and Norway, and the fishing zone around Jan Mayen, subject to the condition set out in Article 14 of, and Annex III to, this Regulation and in Council Regulation (EC) No 1006/2008⁽²⁹⁾ and its implementing provisions.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Article 6 **U.K.**

TACs to be determined by Member States

- 1 The TACs for certain fish stocks shall be determined by the Member State concerned. Those stocks are identified in Annex I.
- 2 The TACs to be determined by a Member State shall:
 - a be consistent with the principles and rules of the Common Fisheries Policy, in particular the principle of sustainable exploitation of the stock; and
 - b result:
 - (i) if analytical assessments are available, in the exploitation of the stock consistent with maximum sustainable yield from 2017 onwards, with as high a probability as possible;
 - (ii) if analytical assessments are unavailable or incomplete, in the exploitation of the stock consistent with the precautionary approach to fisheries management.
- 3 By 15 March 2017, each Member State concerned shall submit the following information to the Commission:
 - a the TACs adopted;
 - b the data collected and assessed by the Member State concerned on which the TACs adopted are based;
 - c details on how the TACs adopted comply with paragraph 2.

Article 7 **U.K.**

Conditions for landing catches and by-catches

- 1 Catches that are not subject to the landing obligation established in Article 15 of Regulation (EU) No 1380/2013 shall be retained on board or landed only if they:
 - a have been taken by vessels flying the flag of a Member State having a quota and that quota has not been exhausted; or
 - b consist of a share in a Union quota which has not been allocated by quota among Member States, and that Union quota has not been exhausted.
- 2 The stocks of non-target species within safe biological limits referred to in Article 15(8) of Regulation (EU) No 1380/2013 are identified in Annex I to this Regulation for the purposes of the derogation from the obligation to count catches against the relevant quotas provided for in that Article.

Article 8 **U.K.**

Fishing effort limits

For the periods referred to in Article 1(2)(b), the following fishing effort measures shall apply:

- (a) Annex IIA for the management of plaice and sole stocks in ICES subarea IV;

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (b) Annex IIB for the recovery of hake and Norway lobster in ICES divisions VIIIc and IXa, with the exception of the Gulf of Cádiz;
- (c) Annex IIC for the management of the sole stock in ICES division VIIe.

Article 9 **U.K.**

Measures on Sea bass fisheries

1 It shall be prohibited for Union fishing vessels to fish for sea bass in ICES divisions VIIb, VIIc, VIIj and VIIk, as well as in the waters of ICES divisions VIIa and VIIg that are more than 12 nautical miles from the baseline under the sovereignty of the United Kingdom. It shall be prohibited for Union fishing vessels to retain on board, tranship, relocate or land sea bass caught in that area.

2 It shall be prohibited for Union fishing vessels as well as for any commercial fisheries from shore to fish for sea bass and to retain on board, relocate, tranship or land sea bass caught in the following areas:

- a ICES divisions IVb, IVc, VIId, VIIe, VIIf and VIIh;
- b waters within 12 nautical miles from baseline under the sovereignty of the United Kingdom in ICES divisions VIIa and VIIg.

By derogation from the first subparagraph, the following measures shall apply regarding sea bass in the areas referred to in that subparagraph:

- a a Union fishing vessel deploying demersal trawls and seines⁽³⁰⁾ may retain on board unavoidable by-catches of sea bass that do not exceed 3 % of the weight of the total catches of marine organisms on board in any single day. The catches of sea bass retained on board by a Union fishing vessel on the basis of this derogation may not exceed 400 kilograms per month;
- b in January 2017 and from 1 April to 31 December 2017, Union fishing vessels using hooks and lines⁽³¹⁾, may fish for sea bass and retain on board, relocate, tranship or land sea bass caught in that area not exceeding 10 tonnes per vessel per year;
- c Union fishing vessels using fixed gillnets⁽³²⁾ may retain on board unavoidable by-catches of sea bass not exceeding 250 kilograms per month.

[^{F1}The above derogations shall apply to Union fishing vessels that have recorded catches of sea bass over the period from 1 July 2015 to 30 September 2016: in point (b) with recorded catches using hooks and lines, and in point (c) with recorded catches using fixed gillnets. In the case of a replacement of a Union fishing vessel, Member States may allow the derogation to apply to another fishing vessel provided that the number of Union fishing vessels subject to the derogation and their overall fishing capacity do not increase.]

3 The catch limits set in paragraph 2 shall not be transferable between vessels. Member States shall report to the Commission catches of sea bass per type of gear not later than 20 days after the end of each month.

4 From 1 January to 30 June 2017 in recreational fisheries in ICES divisions IVb, IVc, VIIa and from VIId to VIIh, only catch-and-release fishing for sea bass, including from shore, shall be allowed. During this period, it shall be prohibited to retain on board, relocate, tranship or land sea bass caught in that area.

5 In recreational fisheries, including from shore, not more than one specimen of sea bass may be retained per fisherman per day during the following periods and in the following areas:

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- a from 1 July to 31 December 2017 in ICES divisions IVb, IVc, VIIa and from VIId to VIIh;
 - b from 1 January to 31 December 2017 in ICES divisions VIIj and VIIk.
- 6 From 1 January to 31 December 2017 in recreational fisheries in ICES divisions VIIIA and VIIIB, a maximum of five fish per fisherman may be retained each day.

Textual Amendments

- F1** Substituted by [Council Regulation \(EU\) 2017/1398 of 25 July 2017 amending Regulation \(EU\) 2017/127 as regards certain fishing opportunities.](#)

Article 10 U.K.

Special provisions on allocations of fishing opportunities

1 The allocation of fishing opportunities among Member States as set out in this Regulation shall be without prejudice to:

- a exchanges made pursuant to Article 16(8) of Regulation (EU) No 1380/2013;
- b deductions and reallocations made pursuant to Article 37 of Regulation (EC) No 1224/2009;
- c reallocations made pursuant to Article 10(4) of Regulation (EC) No 1006/2008;
- d additional landings allowed under Article 3 of Regulation (EC) No 847/96 and Article 15(9) of Regulation (EU) No 1380/2013;
- e quantities withheld in accordance with Article 4 of Regulation (EC) No 847/96 and Article 15(9) of Regulation (EU) No 1380/2013;
- f deductions made pursuant to Articles 105, 106 and 107 of Regulation (EC) No 1224/2009;
- g quota transfers and exchanges pursuant to Article 15 of this Regulation.

2 Stocks which are subject to precautionary or analytical TACs are identified in Annex I to this Regulation for the purposes of the year-to-year management of TACs and quotas provided for in Regulation (EC) No 847/96.

3 Except where otherwise specified in Annex I to this Regulation, Article 3 of Regulation (EC) No 847/96 shall apply to stocks subject to a precautionary TAC and Article 3(2) and (3) and Article 4 of that Regulation shall apply to stocks subject to an analytical TAC.

4 Articles 3 and 4 of Regulation (EC) No 847/96 shall not apply where a Member State uses the year-to-year flexibility provided for in Article 15(9) of Regulation (EU) No 1380/2013.

Article 11 U.K.

Closed fishing seasons

1 It shall be prohibited to fish or retain on board any of the following species in the Porcupine Bank during the period from 1 May to 31 May 2017: cod, megrims, anglerfish, haddock, whiting, hake, Norway lobster, plaice, pollack, saithe, skates and rays, common sole, tusk, blue ling, ling and picked dogfish.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

For the purposes of this paragraph, the Porcupine Bank shall comprise the geographical area bounded by rhumb lines sequentially joining the following positions:

Point	Latitude	Longitude
1	52° 27' N	12° 19' W
2	52° 40' N	12° 30' W
3	52° 47' N	12° 39,600' W
4	52° 47' N	12° 56' W
5	52° 13.5' N	13° 53,830' W
6	51° 22' N	14° 24' W
7	51° 22' N	14° 03' W
8	52° 10' N	13° 25' W
9	52° 32' N	13° 07,500' W
10	52° 43' N	12° 55' W
11	52° 43' N	12° 43' W
12	52° 38,800' N	12° 37' W
13	52° 27' N	12° 23' W
14	52° 27' N	12° 19' W

By way of derogation from the first subparagraph, transit through the Porcupine Bank while carrying on board the species referred to in that paragraph, shall be permitted in accordance with Article 50(3), (4) and (5) of Regulation (EC) No 1224/2009.

2 Commercial fishing for sandeel with demersal trawl, seine or similar towed gears with a mesh size of less than 16 millimetres shall be prohibited in ICES divisions IIa, IIIa and ICES subarea IV from 1 January to 31 March 2017 and from 1 August to 31 December 2017.

The prohibition set out in the first subparagraph shall also apply to third-country vessels authorised to fish for sandeel and associated by-catches in Union waters of ICES subarea IV.

Article 12 U.K.

Prohibitions

1 It shall be prohibited for Union fishing vessels to fish for, to retain on board, to tranship or to land the following species:

- a starry ray (*Amblyraja radiata*) in Union waters of ICES divisions IIa, IIIa and VIIId and ICES subarea IV;
- b white shark (*Carcharodon carcharias*) in all waters;
- c leafscale gulper shark (*Centrophorus squamosus*) in Union waters of ICES division IIa and subarea IV and in Union and international waters of ICES subareas I and XIV;
- d Portuguese dogfish (*Centroscymnus coelolepis*) in Union waters of ICES division IIa and subarea IV and in Union and international waters of ICES subareas I and XIV;

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- e basking shark (*Cetorhinus maximus*) in all waters;
- f kitefin shark (*Dalatias licha*) in Union waters of ICES division IIa and subarea IV and in Union and international waters of ICES subareas I and XIV;
- g birdbeak dogfish (*Deania calcea*) in Union waters of ICES division IIa and subarea IV and in Union and international waters of ICES subareas I and XIV;
- h common skate (*Dipturus batis*) complex (*Dipturus* cf. *flossada* and *Dipturus* cf. *intermedia*) in Union waters of ICES division IIa and ICES subareas III, IV, VI, VII, VIII, IX and X;
- i great lanternshark (*Etmopterus princeps*) in Union waters of ICES division IIa and subarea IV and in Union and international waters of ICES subareas I and XIV;
- j smooth lanternshark (*Etmopterus pusillus*) in Union waters of ICES division IIa and subarea IV and in Union and international waters of ICES subareas I, V, VI, VII, VIII, XII and XIV;
- k tope shark (*Galeorhinus galeus*) when taken with longlines in Union waters of ICES division IIa and subarea IV and in Union and international waters of ICES subareas I, V, VI, VII, VIII, XII and XIV;
- l porbeagle (*Lamna nasus*) in all waters;
- m reef manta ray (*Manta alfredi*) in all waters;
- n giant manta ray (*Manta birostris*) in all waters;
- o the following species of Mobula rays in all waters:
 - (i) devil fish (*Mobula mobular*);
 - (ii) lesser Guinean devil ray (*Mobula rochebrunei*);
 - (iii) spinetail mobula (*Mobula japonica*);
 - (iv) smoothtail mobula (*Mobula thurstoni*);
 - (v) longhorned mobula (*Mobula eregoodootenkee*);
 - (vi) Munk's devil ray (*Mobula munkiana*);
 - (vii) Chilean devil ray (*Mobula tarapacana*);
 - (viii) shortfin devil ray (*Mobula kuhlii*);
 - (ix) lesser devil ray (*Mobula hypostoma*);
- p the following species of sawfish (*Pristidae*) in all waters:
 - (i) narrow sawfish (*Anoxypristis cuspidata*);
 - (ii) dwarf sawfish (*Pristis clavata*);
 - (iii) smalltooth sawfish (*Pristis pectinata*);
 - (iv) largetooth sawfish (*Pristis pristis*);
 - (v) green sawfish (*Pristis zijsron*);
- q thornback ray (*Raja clavata*) in Union waters of ICES division IIIa;
- r Norwegian skate (*Dipturus nidarosiensis*) in Union waters of ICES divisions VIa, VIb, VIIa, VIIb, VIIc, VIIf, VIIg, VIIh and VIIk;
- s undulate ray (*Raja undulata*) in Union waters of ICES subareas VI and X;
- t white skate (*Rostroraja alba*) in Union waters of ICES subareas VI, VII, VIII, IX and X;

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- u guitarfishes (*Rhinobatidae*) in Union waters of ICES subareas I, II, III, IV, V, VI, VII, VIII, IX, X and XII;
 - [^{F2}v] picked dogfish (*Squalus acanthias*) in Union waters of ICES subareas II, III, IV, V, VI, VII, VIII, IX and X, with the exception of avoidance programmes as set out in Annex IA;]
 - w angel shark (*Squatina squatina*) in Union waters.
- 2 When accidentally caught, species referred to in paragraph 1 shall not be harmed. Specimens shall be promptly released.

Textual Amendments

- F2** Substituted by [Council Regulation \(EU\) 2017/595 of 27 March 2017 amending Regulation \(EU\) 2017/127 as regards certain fishing opportunities.](#)

Article 13 **U.K.**

Data transmission

When, pursuant to Articles 33 and 34 of Regulation (EC) No 1224/2009, Member States submit to the Commission data relating to landings of quantities of stocks caught, they shall use the stock codes set out in Annex I to this Regulation.

CHAPTER II **U.K.**

Fishing authorisations in third-country waters

Article 14 **U.K.**

Fishing authorisations

- 1 The maximum number of fishing authorisations for Union fishing vessels fishing in waters of a third country is set out in Annex III.
- 2 Where one Member State transfers quota to another Member State ('swap') in the fishing areas set out in Annex III to this Regulation on the basis of Article 16(8) of Regulation (EU) No 1380/2013, the transfer shall include an appropriate transfer of fishing authorisations and shall be notified to the Commission. However, the total number of fishing authorisations for each fishing area, as set out in Annex III to this Regulation, shall not be exceeded.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

CHAPTER III **U.K.**

Fishing opportunities in waters of regional fisheries management organisations

Article 15 **U.K.**

Quota transfers and exchanges

1 Where, under the rules of a regional fisheries management organisation ('RFMO'), quota transfers or exchanges between the Contracting Parties to the RFMO are permitted, a Member State ('the Member State concerned') may discuss with a Contracting Party to the RFMO and, as appropriate, establish a possible outline of an intended quota transfer or exchange.

2 Upon notification to the Commission by the Member State concerned, the Commission may endorse the outline of the intended quota transfer or exchange that the Member State has discussed with the relevant Contracting Party to the RFMO. Thereupon, the Commission shall express, without undue delay, the consent to be bound by such quota transfer or exchange with the relevant Contracting Party to the RFMO. The Commission shall notify the secretariat of the RFMO of the agreed quota transfer or exchange in accordance with the rules of that organisation.

3 The Commission shall inform the Member States of the agreed quota transfer or exchange.

4 The fishing opportunities received from or transferred to the relevant Contracting Party to the RFMO under the quota transfer or exchange shall be deemed to be quotas allocated to, or deducted from, the allocation of the Member State concerned, as of the moment that the quota transfer or exchange takes effect in accordance with the terms of the agreement reached with the relevant Contracting Party to the RFMO or in accordance with the rules of the relevant RFMO, as appropriate. Such allocation shall not change the existing distribution key for the purpose of allocating fishing opportunities among Member States in accordance with the principle of relative stability of fishing activities.

5 This Article shall apply until 31 January 2018 for quota transfers from a RFMO Contracting Party to the Union and their subsequent allocation to Member States.

Section 1 **U.K.**

ICCAT Convention Area

Article 16 **U.K.**

Fishing, farming and fattening capacity limitations

1 The number of Union bait boats and trolling boats authorised to fish actively for bluefin tuna between 8 kg/75 cm and 30 kg/115 cm in the Eastern Atlantic shall be limited as set out in point 1 of Annex IV.

2 The number of Union coastal artisanal fishing vessels authorised to fish actively for bluefin tuna between 8 kg/75 cm and 30 kg/115 cm in the Mediterranean shall be limited as set out in point 2 of Annex IV.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

3 The number of Union fishing vessels fishing for bluefin tuna in the Adriatic Sea for farming purposes authorised to fish actively for bluefin tuna between 8 kg/75 cm and 30 kg/115 cm shall be limited as set out in point 3 of Annex IV.

4 The number and total capacity in gross tonnage of fishing vessels authorised to fish for, retain on board, tranship, transport, or land bluefin tuna in the eastern Atlantic and Mediterranean shall be limited as set out in point 4 of Annex IV.

5 The number of traps engaged in the eastern Atlantic and Mediterranean bluefin tuna fishery shall be limited as set out in point 5 of Annex IV.

6 The bluefin tuna farming capacity, the fattening capacity and the maximum input of wild caught bluefin tuna allocated to the farms in the eastern Atlantic and Mediterranean shall be limited as set out in point 6 of Annex IV.

7 The maximum number of Union fishing vessels of at least 20 metres length that fish for bigeye tuna in the ICCAT Convention Area shall be limited as set out in point 7 of Annex IV.

Article 17 **U.K.**

Recreational fisheries

Where appropriate, Member States shall allocate a specific share for recreational fisheries from their quotas allocated in Annex ID.

Article 18 **U.K.**

Sharks

1 Retaining on board, transhipping or landing any part or whole carcass of bigeye thresher sharks (*Alopias superciliosus*) in any fishery shall be prohibited.

2 It shall be prohibited to undertake a directed fishery for species of thresher sharks of the *Alopias* genus.

3 Retaining on board, transhipping or landing any part or whole carcass of hammerhead sharks of the *Sphyrnidae* family (except for the *Sphyrna tiburo*) in association with fisheries in the ICCAT Convention Area shall be prohibited.

4 Retaining on board, transhipping or landing any part or whole carcass of oceanic whitetip sharks (*Carcharhinus longimanus*) taken in any fishery shall be prohibited.

5 Retaining on board silky sharks (*Carcharhinus falciformis*) taken in any fishery shall be prohibited.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Section 2 U.K.

CCAMLR Convention Area

Article 19 U.K.

Prohibitions and catch limitations

- 1 Direct fishing of the species set out in Part A of Annex V, shall be prohibited in the zones and during the periods set out therein.
- 2 For exploratory fisheries, the TACs and by-catch limits set out in Part B of Annex V, shall apply in the subareas set out therein.

Article 20 U.K.

Exploratory fisheries

- 1 Member States may participate in longline exploratory fisheries for toothfish (*Dissostichus* spp.) in FAO subareas 88.1 and 88.2 as well as in divisions 58.4.1, 58.4.2 and 58.4.3a outside areas of national jurisdiction in 2017. If a Member State intends to participate in such fisheries, it shall notify the CCAMLR Secretariat in accordance with Articles 7 and 7a of Regulation (EC) No 601/2004 and in any case no later than 1 June 2017.
- 2 With regard to FAO subareas 88.1 and 88.2 as well as divisions 58.4.1, 58.4.2 and 58.4.3a, TACs and by-catch limits per subarea and division, and their distribution among Small Scale Research Units (SSRUs) within each of them, shall be as set out in Part B of Annex V. Fishing in any SSRU shall cease when the reported catch reaches the specified TAC, and the SSRU shall be closed to fishing for the remainder of the season.
- 3 Fishing shall take place over as large a geographical and bathymetric range as possible to obtain the information necessary to determine fishery potential and to avoid over-concentration of catch and fishing effort. However, fishing in FAO subareas 88.1 and 88.2 as well as in divisions 58.4.1, 58.4.2 and 58.4.3a shall be prohibited in depths less than 550 metres.

Article 21 U.K.

Krill fishery during the 2017/2018 fishing season

- 1 If a Member State intends to fish for krill (*Euphausia superba*) in the CCAMLR Convention Area during the 2017/2018 fishing season, it shall notify the Commission, no later than 1 May 2017, using the format laid down in Part C of Annex V to this Regulation of its intention to fish for krill. On the basis of the information provided by Member States, the Commission shall submit the notifications to the CCAMLR Secretariat no later than 30 May 2017.
- 2 The notification referred to in paragraph 1 of this Article shall include the information provided for in Article 3 of Regulation (EC) No 601/2004 for each vessel to be authorised by the Member State to participate in the krill fishery.
- 3 A Member State intending to fish for krill in the CCAMLR Convention Area shall notify its intention to do so only in respect of authorised vessels either flying its flag at the time

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

of the notification or flying the flag of another CCAMLR member that are expected, at the time the fishery takes place, to be flying the flag of that Member State.

4 Member States shall be entitled to authorise participation in a krill fishery by vessels other than those notified to CCAMLR Secretariat in accordance with paragraphs 1, 2 and 3 of this Article, if an authorised vessel is prevented from participation due to legitimate operational reasons or *force majeure*. In such circumstances the Member States concerned shall immediately inform the CCAMLR Secretariat and the Commission, providing:

- a full details of the intended replacement vessel(s), including information provided for in Article 3 of Regulation (EC) No 601/2004;
- b a comprehensive account of the reasons justifying the replacement and any relevant supporting evidence or references.

5 Member States shall not authorise a vessel on any CCAMLR illegal, unreported and unregulated (IUU) Vessel List to participate in krill fisheries.

Section 3 U.K.

IOTC Area of Competence

Article 22 U.K.

Limitation of fishing capacity of vessels fishing in the IOTC Area of Competence

1 The maximum number of Union fishing vessels fishing for tropical tunas in the IOTC Area of Competence and the corresponding capacity in gross tonnage shall be as set out in point 1 of Annex VI.

2 The maximum number of Union fishing vessels fishing for swordfish (*Xiphias gladius*) and albacore (*Thunnus alalunga*) in the IOTC Area of Competence and the corresponding capacity in gross tonnage shall be as set out in point 2 of Annex VI.

3 Member States may re-allocate vessels assigned to one of the two fisheries referred to in paragraphs 1 and 2 to the other fishery, provided that they can demonstrate to the Commission that this change does not lead to an increase of fishing effort on the fish stocks involved.

4 Member States shall ensure that, where there is a proposed transfer of capacity to their fleet, vessels to be transferred are on the IOTC Record of Vessels or on the record of vessels of other tuna regional fisheries organisations. Furthermore, no vessels featuring on the list of vessels engaged in IUU fishing activities of any RFMO may be transferred.

5 Member States may only increase their fishing capacity beyond the ceilings referred to in paragraphs 1 and 2 within the limits set out in the development plans submitted to the IOTC.

^{f3}Article 22a U.K.

Catch limits

Catches of yellowfin tuna by Union vessels fishing with purse seiners shall not exceed the catch limits set out in Annex IK.]

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Textual Amendments

- F3** Inserted by [Council Regulation \(EU\) 2017/595 of 27 March 2017 amending Regulation \(EU\) 2017/127 as regards certain fishing opportunities.](#)

Article 23 **U.K.**

Drifting fish aggregating devices (FADs) and supply vessels

- 1 A purse seine vessel shall not deploy more than 425 active drifting FADs at any one time.
- 2 The number of Union supply vessels shall not exceed half of the Union purse-seine vessels. For the purposes of this paragraph, the number of Union supply vessels and Union purse-seine vessels shall be established on the basis of the IOTC register of active vessels.

Article 24 **U.K.**

Sharks

- 1 Retaining on board, transshipping or landing any part or whole carcass of thresher sharks of all the species of the *Alopiidae* family in any fishery shall be prohibited.
- 2 Retaining on board, transshipping or landing any part or whole carcass of oceanic whitetip sharks (*Carcharhinus longimanus*) in any fishery shall be prohibited, except for vessels under 24 metres overall length engaged solely in fishing operations within the Exclusive Economic Zone (EEZ) of the Member State whose flag they fly, and provided that their catch is destined solely for local consumption.
- 3 When accidentally caught, species referred to in paragraph 1 and 2 shall not be harmed. Specimens shall be promptly released.

Section 4 **U.K.**

SPRFMO Convention Area

Article 25 **U.K.**

Pelagic fisheries

- 1 Only Member States having actively exercised pelagic fisheries activities in the SPRFMO Convention Area in 2007, 2008 or 2009 may fish for pelagic stocks in that area in accordance with the TACs set out in Annex IJ.
- 2 Member States referred to in paragraph 1 shall limit the total level of gross tonnage of vessels flying their flag and fishing for pelagic stocks in 2017 to the total Union level of 78 600 gross tonnage in that area.
- 3 The fishing opportunities set out in Annex IJ may only be used under the condition that Member States send to the Commission the list of vessels actively fishing or engaged in transshipment in the SPRFMO Convention Area, records from vessel monitoring systems,

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

monthly catch reports and, where available, port calls at the latest by the fifth day of the following month, in order to communicate this information to the SPRFMO Secretariat.

Article 26 U.K.

Bottom fisheries

1 Member States shall limit their bottom fishing catch or effort in 2017 in the SPRFMO Convention Area to those parts of the Convention Area where bottom fishing has occurred from 1 January 2002 to 31 December 2006 and to a level that does not exceed the annual average levels of catches or effort parameters in that period. They may fish beyond the track record only if SPRFMO endorses their plan to fish beyond the track record.

2 Member States without a track record in bottom fishing catch or effort in the SPRFMO Convention Area over the period from 1 January 2002 to 31 December 2006 shall not fish, unless SPRFMO endorses their plan to fish without the track record.

Section 5 U.K.

IATTC Convention Area

Article 27 U.K.

Purse-seine fisheries

1 Fishing by purse-seine vessels for yellowfin tuna (*Thunnus albacares*), bigeye tuna (*Thunnus obesus*) and skipjack tuna (*Katsuwonus pelamis*) shall be prohibited:

- a from 29 July to 28 September 2017 or from 18 November 2017 to 18 January 2018 in the area defined by the following limits:
 - the Pacific coastlines of the Americas,
 - longitude 150° W,
 - latitude 40° N,
 - latitude 40° S;
- b from 29 September to 29 October 2017 in the area defined by the following limits:
 - longitude 96° W,
 - longitude 110° W,
 - latitude 4° N,
 - latitude 3° S.

2 The Member States concerned shall notify the Commission of the selected period of closure referred to in paragraph 1 before 1 April 2017. All the purse-seine vessels of the Member States concerned shall stop purse-seine fishing in the areas defined in paragraph 1 during the selected period.

[^{F32a} Member States shall close the fishery for purse-seine vessels fishing with FADs and flying their flag when the catch limit allocated to that fishery is reached.]

3 Purse-seine vessels fishing for tuna in the IATTC Convention Area shall retain on board and then land or tranship all yellowfin, bigeye and skipjack tuna caught.

4 Paragraph 3 shall not apply in the following cases:

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- a where the fish is considered unfit for human consumption for reasons other than size; or
- b during the final set of a trip when there may be insufficient well space remaining to accommodate all the tuna caught in that set.

Textual Amendments

- F3** Inserted by Council Regulation (EU) 2017/595 of 27 March 2017 amending Regulation (EU) 2017/127 as regards certain fishing opportunities.

Article 28 U.K.

Prohibition of fishing for oceanic whitetip sharks

1 It shall be prohibited to fish for oceanic whitetip sharks (*Carcharhinus longimanus*) in the IATTC Convention Area, and to retain on board, to tranship, to store, to offer to sell, to sell or to land any part or whole carcass of oceanic whitetip sharks caught in that area.

2 When accidentally caught, the species referred to in paragraph 1 shall not be harmed. Specimens shall be promptly released by vessel operators.

3 Vessel operators shall:

- a record the number of releases with indication of status (dead or alive);
- b report the information specified in point (a) to the Member State of which they are nationals. Member States shall transmit the information collected during the previous year to the Commission by 31 January.

Article 29 U.K.

Prohibition of fishing for Mobulid rays

It shall be prohibited for Union fishing vessels in the IATTC Convention Area to fish for, to retain on board, to tranship, to land, to store, to offer to sell or to sell any part or whole carcass of Mobulid rays (family *Mobulidae*, which includes the genera *Manta* and *Mobula*). As soon as Union fishing vessels notice that Mobulid rays have been caught, Union fishing vessels shall promptly release them alive and unharmed wherever possible.

Section 6 U.K.

SEAFO Convention Area

Article 30 U.K.

Prohibition of fishing for deep water sharks

Directed fishing for the following deep water sharks in the SEAFO Convention Area shall be prohibited:

- ghost catshark (*Apristurus manis*),
- blurred smooth lanternshark (*Etmopterus bigelowi*),

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- shorttail lanternshark (*Etmopterus brachyurus*),
- great lanternshark (*Etmopterus princeps*),
- smooth lanternshark (*Etmopterus pusillus*),
- skates (*Rajidae*),
- velvet dogfish (*Scymnodon squamulosus*),
- deep-sea sharks of the *Selachimorpha* super-order,
- picked dogfish (*Squalus acanthias*).

Section 7 U.K.

WCPFC Convention Area

Article 31 U.K.

Conditions for bigeye tuna, yellowfin tuna, skipjack tuna and south Pacific albacore fisheries

- 1 Member States shall ensure that the number of fishing days allocated to purse-seine vessels fishing for bigeye tuna (*Thunnus obesus*), yellowfin tuna (*Thunnus albacares*) and skipjack tuna (*Katsuwonus pelamis*) in the part of the WCPFC Convention Area located in the high seas between 20° N and 20° S does not exceed 403 days.
- 2 Union fishing vessels shall not target south Pacific albacore (*Thunnus alalunga*) in the WCPFC Convention Area south of 20° S.
- 3 Member States shall ensure that catches of bigeye tuna (*Thunnus obesus*) by longliners do not exceed 2 000 tonnes in 2017.
- 4 Member States shall ensure that the by-catch of bigeye tuna (*Thunnus obesus*) by purse seiners do not exceed 2 857 tonnes in 2017.

Article 32 U.K.

Closed area for FAD fishing

- 1 In the part of the WCPFC Convention Area located between 20° N and 20° S, fishing activities of purse-seine vessels making use of FADs shall be prohibited between 00:00 hours of 1 July 2017 and 24:00 hours of 31 October 2017. During that period, a purse-seine vessel may only engage in fishing operations within that part of the WCPFC Convention Area if it carries on board an observer to monitor that at no time does the vessel:
 - a deploy or service a FAD or associated electronic device;
 - b fish on schools in association with FADs.
- 2 All purse-seine vessels fishing in the part of the WCPFC Convention Area referred to in paragraph 1 shall retain on board and land or tranship all bigeye, yellowfin and skipjack tuna caught.
- 3 Paragraph 2 shall not apply in the following cases:
 - a in the final set of a trip, if the vessel has insufficient well space left to accommodate all fish;
 - b where the fish is unfit for human consumption for reasons other than size; or

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- c when a serious malfunction of freezer equipment occurs.

Article 33 **U.K.**

Limitations to the number of Union fishing vessels authorised to fish for swordfish

The maximum number of Union fishing vessels authorised to fish for swordfish (*Xiphias gladius*) in areas south of 20° S of the WCPFC Convention Area shall be as set out in Annex VII.

Article 34 **U.K.**

Silky sharks and oceanic whitetip sharks

- 1 Retaining on board, transshipping, storing or landing any part or whole carcass of the following species in the WCPFC Convention Area shall be prohibited:
- silky sharks (*Carcharhinus falciformis*),
 - oceanic whitetip sharks (*Carcharhinus longimanus*).
- 2 When accidentally caught, species referred to in paragraph 1 shall not be harmed. Specimens shall be promptly released.

Article 35 **U.K.**

Overlap area between IATTC and WCPFC

- 1 Vessels listed exclusively in the WCPFC register shall apply the measures set out in this Section when fishing in the overlap area between IATTC and WCPFC as defined in Article 4(s).
- 2 Vessels listed in both the WCPFC register and the IATTC register and vessels listed exclusively in the IATTC register shall apply the measures set out in Article 27(1)(a), (2), (3) and (4) and Article 28 when fishing in the overlap area between IATTC and WCPFC as defined in Article 4(s).

Section 8 **U.K.**

GFCM Agreement Area

Article 36 **U.K.**

Small pelagic stocks in geographical subareas 17 and 18

- 1 Catches of small pelagic stocks by Union fishing vessels in the geographical subareas 17 and 18 shall not exceed the levels exerted in 2014, reported in accordance with Article 24 of Regulation (EU) No 1343/2011, as set out in Annex IL to this Regulation.
- 2 Union fishing vessels targeting small pelagics in geographical subareas 17 and 18 shall not exceed 180 fishing days per year. Within this total of 180 fishing days, a maximum of 144 fishing days targeting sardine and a maximum of 144 fishing days targeting anchovy shall apply.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Section 9 U.K.

Bering Sea

Article 37 U.K.

Prohibition on fishing in the high seas of the Bering Sea

Fishing for pollock (*Theragra chalcogramma*) in the high seas of the Bering Sea shall be prohibited.

TITLE III U.K.

FISHING OPPORTUNITIES FOR THIRD-COUNTRY VESSELS IN UNION WATERS

Article 38 U.K.

TACs

Fishing vessels flying the flag of Norway and fishing vessels registered in the Faroe Islands shall be authorised to make catches in Union waters within the TACs set out in Annex I to this Regulation and shall be subject to the conditions provided for in this Regulation and Chapter III of Regulation (EC) No 1006/2008.

Article 39 U.K.

Fishing authorisations

Fishing vessels flying the flag of Venezuela shall be subject to the conditions provided for in this Regulation and in Chapter III of Regulation (EC) No 1006/2008. The maximum number of fishing authorisations for third-country vessels fishing in Union waters shall be as set out in Annex VIII.

Article 40 U.K.

Conditions for landing catches and by-catches

The conditions specified in Article 7 shall apply to catches and by-catches of third-country vessels fishing under the authorisations specified in Article 39.

Article 41 U.K.

Prohibitions

1 It shall be prohibited for third-country vessels to fish for, to retain on board, to tranship or to land the following species whenever they are found in Union waters:

- a starry ray (*Amblyraja radiata*) in Union waters of ICES divisions IIa, IIIa and VIId and ICES subarea IV;

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- b the following species of sawfish in Union waters:
 - (i) narrow sawfish (*Anoxypristis cuspidata*);
 - (ii) dwarf sawfish (*Pristis clavata*);
 - (iii) smalltooth sawfish (*Pristis pectinata*);
 - (iv) largetooth sawfish (*Pristis pristis*);
 - (v) green sawfish (*Pristis zijsron*);
- c basking shark (*Cetorhinus maximus*) and white shark (*Carcharodon carcharias*) in Union waters;
- d common skate (*Dipturus batis*) complex (*Dipturus* cf. *flossada* and *Dipturus* cf. *intermedia*) in Union waters of ICES division IIa and ICES subareas III, IV, VI, VII, VIII, IX and X;
- e tope shark (*Galeorhinus galeus*) when taken with longlines in Union waters of ICES division IIa and ICES subareas I, IV, V, VI, VII, VIII, XII and XIV;
- f smooth lanternshark (*Etmopterus pusillus*) in Union waters of ICES division IIa and ICES subareas I, IV, V, VI, VII, VIII, XII and XIV;
- g kitefin shark (*Dalatias licha*), birdbeak dogfish (*Deania calcea*), leafscale gulper shark (*Centrophorus squamosus*), great lanternshark (*Etmopterus princeps*) and Portuguese dogfish (*Centroscymnus coelolepis*) in Union waters of ICES division IIa and ICES subareas I, IV and XIV;
- h porbeagle (*Lamna nasus*) in Union waters;
- i reef manta ray (*Manta alfredi*) in Union waters;
- j giant manta ray (*Manta birostris*) in Union waters;
- k the following species of Mobula rays in Union waters:
 - (i) devil fish (*Mobula mobular*);
 - (ii) lesser Guinean devil ray (*Mobula rochebrunei*);
 - (iii) spinetail mobula (*Mobula japanica*);
 - (iv) smoothtail mobula (*Mobula thurstoni*);
 - (v) longhorned mobula (*Mobula eregoodootenkee*);
 - (vi) Munk's devil ray (*Mobula munkiana*);
 - (vii) Chilean devil ray (*Mobula tarapacana*);
 - (viii) shortfin devil ray (*Mobula kuhlii*);
 - (ix) lesser devil ray (*Mobula hypostoma*);
- l thornback ray (*Raja clavata*) in Union waters of ICES division IIIa;
- m Norwegian skate (*Dipturus nidarosiensis*) in Union waters of ICES divisions VIa, VIb, VIIa, VIIb, VIIc, VIIE, VIIf, VIIg, VIIh and VIIk;
- n undulate ray (*Raja undulata*) in Union waters of ICES subareas VI, IX and X and white skate (*Rostroraja alba*) in Union waters of ICES subareas VI, VII, VIII, IX and X;
- o guitarfishes (*Rhinobatidae*) in Union waters of ICES subareas I, II, III, IV, V, VI, VII, VIII, IX, X and XII;
- [F²p] picked dogfish (*Squalus acanthias*) in Union waters of ICES subareas II, III, IV, V, VI, VII, VIII, IX and X;]

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

q angel shark (*Squatina squatina*) in Union waters.

2 When accidentally caught, the species referred to in paragraph 1 shall not be harmed. Specimens shall be promptly released.

Textual Amendments

F2 Substituted by [Council Regulation \(EU\) 2017/595 of 27 March 2017 amending Regulation \(EU\) 2017/127 as regards certain fishing opportunities.](#)

TITLE IV **U.K.**

FINAL PROVISIONS

Article 42 **U.K.**

Committee procedure

1 The Commission shall be assisted by the Committee for Fisheries and Aquaculture established by Regulation (EU) No 1380/2013. That committee shall be a committee within the meaning of Regulation (EU) No 182/2011.

2 Where reference is made to this paragraph, Article 5 of Regulation (EU) No 182/2011 shall apply.

Article 43 **U.K.**

Transitional provision

Articles 9, 11(2), 12, 18, 19, 24, 28, 29, 30, 34, 37, 41 shall continue to apply, *mutatis mutandis*, in 2018 until the entry into force of the Regulation fixing the fishing opportunities for 2018.

Article 44 **U.K.**

Entry into force

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 January 2017.

However, Article 8 shall apply from 1 February 2017.

The provisions on fishing opportunities set out in Articles 19, 20 and 21 and Annexes IE and V for certain stocks in the CCAMLR Convention Area shall apply from 1 December 2016.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Status: Point in time view as at 31/01/2020.

Changes to legislation: *There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

ANNEX I U.K.

TACs APPLICABLE TO UNION FISHING VESSELS IN AREAS WHERE TACs EXIST BY SPECIES AND BY AREA

The tables in Annexes IA, IB, IC, ID, IE, IF, IG, IH, IJ, IK and IL set out the TACs and quotas (in tonnes live weight, except where otherwise specified) by stock, and the conditions functionally linked thereto, where appropriate.

All fishing opportunities set out in this Annex shall be subject to the rules set out in Regulation (EC) No 1224/2009⁽³³⁾, and in particular Articles 33 and 34 of that Regulation.

The references to fishing zones are references to ICES zones, unless otherwise specified. Within each area, fish stocks are referred to following the alphabetical order of the Latin names of the species. Only Latin names identify species for regulatory purposes; vernacular names are provided for ease of reference.

For the purposes of this Regulation, the following comparative table of Latin names and common names is provided:

Scientific name	Alpha-3 code	Common name
<i>Amblyraja radiata</i>	RJR	Starry ray
<i>Ammodytes</i> spp.	SAN	Sandeels
<i>Argentina silus</i>	ARU	Greater silver smelt
<i>Beryx</i> spp.	ALF	Alfonsinos
<i>Brosme brosme</i>	USK	Tusk
<i>Caproidae</i>	BOR	Boarfish
<i>Centrophorus squamosus</i>	GUQ	Leafscale gulper shark
<i>Centroscymnus coelolepis</i>	CYO	Portuguese dogfish
<i>Chaceon</i> spp.	GER	Deep sea red crab
<i>Chaenocephalus aceratus</i>	SSI	Blackfin icefish
<i>Champscephalus gunnari</i>	ANI	Mackerel icefish
<i>Channichthys rhinoceratus</i>	LIC	Unicorn icefish
<i>Chionoecetes</i> spp.	PCR	Snow crab
<i>Clupea harengus</i>	HER	Herring
<i>Coryphaenoides rupestris</i>	RNG	Roundnose grenadier
<i>Dalatias licha</i>	SCK	Kitefin shark
<i>Deania calcea</i>	DCA	Birdbeak dogfish
<i>Dicentrarchus labrax</i>	BSS	Sea bass
<i>Dipturus batis</i> (<i>Dipturus</i> cf. <i>flossada</i> and <i>Dipturus</i> cf. <i>intermedia</i>)	RJB	Common skate complex
<i>Dissostichus eleginoides</i>	TOP	Patagonian toothfish

Status: Point in time view as at 31/01/2020.**Changes to legislation:** There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

<i>Dissostichus mawsoni</i>	TOA	Antarctic toothfish
<i>Dissostichus</i> spp.	TOT	Toothfish
<i>Engraulis encrasicolus</i>	ANE	Anchovy
<i>Etmopterus princeps</i>	ETR	Great lanternshark
<i>Etmopterus pusillus</i>	ETP	Smooth lanternshark
<i>Euphausia superba</i>	KRI	Krill
<i>Gadus morhua</i>	COD	Cod

a Exclusively for by-catches. No directed fisheries are permitted under this quota.

b In addition to this TAC, the Member States having quota for cod in VIIa may decide by common agreement to allocate an overall total of 10 tonnes to one or more vessels carrying out a directed scientific fishery assessed by the STECF in order to improve scientific information on this stock (COD/*07A.). The Member States concerned shall communicate the name(s) of the vessel(s) to the Commission before allowing any landings.]

ANNEX ID **U.K.**

ICCAT CONVENTION AREA

The TACs adopted in the framework of ICCAT for bluefin tuna, North and South Atlantic swordfish, North and South Atlantic albacore, bigeye tuna, blue marlin and white marlin are allocated to the Contracting Parties, Cooperating non-Contracting Parties, Entities or Fishing Entities (CPCs) of ICCAT and their Union's share is therefore determined.

The TACs adopted in the framework of ICCAT for Mediterranean swordfish, yellowfin tuna and blue sharks are not allocated to the CPCs of ICCAT and hence their Union's share is undetermined.

Species:	Bluefin tuna <i>Thunnus thynnus</i>	Zone:	Atlantic Ocean, east of 45° W, and Mediterranean (BFT/AE45WM)

ANNEX IE **U.K.****ANTARCTIC CAMLR CONVENTION AREA** **U.K.**

These TACs, adopted by CCAMLR, are not allocated to the members of CCAMLR and hence the Union's share is undetermined. Catches are monitored by the Secretariat of CCAMLR, which will communicate when fishing shall cease due to TAC exhaustion.

Unless specified otherwise, these TACs are applicable for the period from 1 December 2016 to 30 November 2017.

Species:	Mackerel icefish <i>Chamsocephalus gunnari</i>	Zone:	FAO 48.3 Antarctic(ANI/ F483.)
TAC	2 074		Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply

Species:	Mackerel icefish <i>Chamsocephalus gunnari</i>	Zone:	FAO 58.5.2 Antarctic^a(ANI/ F5852.)
TAC	561		Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply

- a** For the purpose of this TAC, the area open to the fishery is specified as that portion of FAO statistical division 58.5.2 that lies within the area enclosed by a line:
- starting at the point where the meridian of longitude 72° 15' E intersects the Australia-France Maritime Delimitation Agreement Boundary then south along the meridian to its intersection with the parallel of latitude 53° 25' S,
 - then east along that parallel to its intersection with the meridian of longitude 74° E,
 - then northeasterly along the geodesic to the intersection of the parallel of latitude 52° 40' S and the meridian of longitude 76° E,
 - then north along the meridian to its intersection with the parallel of latitude 52° S,
 - then northwesterly along the geodesic to the intersection of the parallel of latitude 51° S with the meridian of longitude 74° 30' E, and
 - then southwesterly along the geodesic to the point of commencement.

Species:	Blackfin icefish <i>Chaenocephalus aceratus</i>	Zone:	FAO 48.3 Antarctic(SSI/ F483.)
TAC	2 200 ^a		Analytical TAC

- a** Exclusively for by-catches. No directed fisheries are permitted under this TAC.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

			Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply
--	--	--	--

a Exclusively for by-catches. No directed fisheries are permitted under this TAC.

Species:	Unicorn icefish <i>Channichthys rhinoceratus</i>	Zone:	FAO 58.5.2 Antarctic(LIC/F5852.)
TAC	1 663 ^a		Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply

a Exclusively for by-catches. No directed fisheries are permitted under this TAC.

Species:	Patagonian toothfish <i>Dissostichus eleginoides</i>	Zone:	FAO 48.3 Antarctic(TOP/F483.)
TAC	2 750 ^a		Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply

a This TAC is applicable for longline fishery for the period from 16 April to 14 September 2017 and for pot fishery for the period from 1 December 2016 to 30 November 2017.

Special condition:

Within the limits of the abovementioned quota, no more than the quantities given below may be taken in the Subareas specified:

Management Area A: 48° W to 43° 30' W — 52° 30' S to 56° S (TOP/*F483A):	0
Management Area B: 43° 30' W to 40° W — 52° 30' S to 56° S (TOP/*F483B):	825
Management Area C: 40° W to 33° 30' W — 52° 30' S to 56° S (TOP/*F483C):	1 925

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Species:	Patagonian toothfish <i>Dissostichus eleginoides</i>	Zone:	FAO 48.4 Antarctic North(TOP/F484N.)
TAC	47 ^a		Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply

a This TAC is applicable within the area bounded by latitudes 55° 30' S and 57° 20' S and by longitudes 25° 30' W and 29° 30' W.

Species:	Patagonian toothfish <i>Dissostichus eleginoides</i>	Zone:	FAO 58.5.2 Antarctic(TOP/F5852.)
TAC	3 405 ^a		Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply

a This TAC is applicable for west of 79° 20' E only. Fishing east of this meridian within this zone is prohibited.

Species:	Antarctic toothfish <i>Dissostichus mawsoni</i>	Zone:	FAO 48.4 Antarctic South(TOA/F484S.)
TAC	38 ^a		Analytical TAC Article 3 of Regulation (EC) No 847/96 shall not apply Article 4 of Regulation (EC) No 847/96 shall not apply

a This TAC is applicable within the area bounded by latitudes 57° 20' S and 60° 00' S and by longitudes 24° 30' W and 29° 00' W.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

<p>a Concerning Slovenia, the quantities are based on the level of catches exerted in 2014, up to an amount which should not exceed 300 tonnes.</p> <p>b Limited to Croatia, Italy and Slovenia.</p>			

ANNEX IIA **U.K.****FISHING EFFORT FOR VESSELS IN ICES SUBAREA IV**

1. **Scope** **U.K.**
 - 1.1. This Annex shall apply to Union fishing vessels carrying on board or deploying any of the gears referred to in Article 10 of Regulation (EC) No 1342/2008 and present in any of the geographical areas specified in that regulation.
 - 1.2. This Annex shall not apply to vessels of less than 10 metres' length overall. Those vessels shall not be required to carry fishing authorisations issued in accordance with Article 7 of Regulation (EC) No 1224/2009. Member States concerned shall assess the fishing effort of those vessels, using appropriate sampling methods.

2. **Authorisations** **U.K.**

If a Member State deems it appropriate in order to reinforce the sustainable implementation of this effort regime, it may introduce a prohibition to fish with regulated gear in any of the geographical areas to which this Annex applies by any of vessels flying its flag which has no record of such fishing activity, unless it ensures that equivalent capacity, measured in kilowatts, is prevented from fishing in that area.

3. **Maximum allowable fishing effort** **U.K.**

The maximum allowable effort referred to in Article 9(2) of Regulation (EC) No 676/2007 for the management period specified in Article 1(2)(b) of this Regulation shall be as follows:

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Regulated gear: BT1 + BT2: beam trawls (TBB) of mesh equal to or larger than 80 mm

Maximum allowable fishing effort in kilowatt days in ICES subarea IV:

Regulated gear	BE	DK	DE	NL	UK
BT1 + BT2	5 474 635	1 377 012	1 896 306	37 956 887	10 161 710

4. Management **U.K.**

4.1. Member States shall manage the maximum allowable effort in accordance with the conditions laid down in Article 9 of Regulation (EC) No 676/2007 and Articles 26 to 35 of Regulation (EC) No 1224/2009.

4.2. A Member State may establish management periods for allocating all or parts of the maximum allowable effort to individual vessels or groups of vessels. In such case, the number of days or hours for which a vessel may be present within the area during a management period shall be fixed at the discretion of the Member State concerned. During any such management periods, the Member State concerned may reallocate effort between individual vessels or groups of vessels.

4.3. If a Member State authorises vessels flying its flag to be present within an area by hours, it shall continue measuring the consumption of days in accordance with the conditions referred to in point 4.1. Upon request by the Commission, the Member State concerned shall demonstrate its precautionary measures taken to avoid an excessive consumption of effort within the area due to a vessel terminating presences in the area before the end of a 24-hour period.

5. Fishing effort report **U.K.**

Article 28 of Regulation (EC) No 1224/2009 shall apply to vessels falling under the scope of this Annex. The geographical area referred to in that Article shall be understood as ICES subarea IV.

6. Communication of relevant data **U.K.**

Member States shall transmit to the Commission the data on fishing effort deployed by their fishing vessels in accordance with Articles 33 and 34 of Regulation (EC) No 1224/2009.

ANNEX IIB **U.K.**

FISHING EFFORT FOR VESSELS IN THE CONTEXT OF THE RECOVERY OF CERTAIN SOUTHERN HAKE AND NORWAY LOBSTER STOCKS IN ICES DIVISIONS VIIIc AND IXa EXCLUDING THE GULF OF CÁDIZ

CHAPTER I **U.K.**

General Provisions

1. Scope **U.K.**

This Annex shall apply to Union fishing vessels of 10 metres' length overall or more carrying on board or deploying trawls, Danish seines or similar gears of mesh size equal to or larger

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

than 32 mm and gill-nets of mesh size equal to or larger than 60 mm or bottom longlines in accordance with Regulation (EC) No 2166/2005, and present in ICES divisions VIIIc and IXa excluding the Gulf of Cádiz.

2. **Definitions** U.K.

For the purposes of this Annex:

- (a) ‘gear grouping’ means the grouping consisting of the following two gear categories:
 - (i) trawls, Danish seines or similar gears of mesh size equal to or larger than 32 mm; and
 - (ii) gill-nets of mesh size equal to or larger than 60 mm and bottom longlines;
- (b) ‘regulated gear’ means any of the two gear categories belonging to the gear grouping;
- (c) ‘area’ means ICES divisions VIIIc and IXa excluding the Gulf of Cádiz;
- (d) ‘current management period’ means the period specified in Article 1(2)(b);
- (e) ‘special conditions’ means the special conditions set out in point 6.1.

3. **Limitation in activity** U.K.

Without prejudice to Article 29 of Regulation (EC) No 1224/2009, each Member State shall ensure that, when carrying on board any regulated gear, Union fishing vessels flying its flag shall be present within the area for no more than the number of days specified in Chapter III of this Annex.

CHAPTER II U.K.

Authorisations

4. **Authorised vessels** U.K.

- 4.1. A Member State shall not authorise fishing with regulated gear in the area by any vessel flying its flag which has no record of such fishing activity in the area in the period from 2002 to 2015, excluding the record of fishing activities as a result of transfer of days between fishing vessels, unless it ensures that equivalent capacity, measured in kilowatts, is prevented from fishing in the area.
- 4.2. A vessel flying the flag of a Member State having no quotas in the area shall not be authorised to fish in the area with regulated gear, unless the vessel is allocated a quota after a transfer as permitted in accordance with Article 16(8) of Regulation (EU) No 1380/2013 and is allocated days at sea in accordance with point 11 or 12 of this Annex.

CHAPTER III U.K.

Number of days present within the area allocated to Union fishing vessels

5. **Maximum number of days** U.K.

- 5.1. During the current management period, the maximum number of days at sea for which a Member State may authorise a vessel flying its flag to be present within the area having carried on board any regulated gear is shown in Table I.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

5.2. If a vessel is able to demonstrate that its hake catches represent less than 8 % of the total live weight of fish caught in a given fishing trip, the flag Member State of the vessel shall be allowed not to count the days at sea associated with that fishing trip against the applicable maximum number of days at sea as set out in Table I.

6. **Special conditions for the allocation of days** U.K.

6.1. For the purposes of fixing the maximum number of days at sea that a Union fishing vessel may be authorised by its flag Member State to be present within the area, the following special conditions shall apply in accordance with Table I: U.K.

(a) the total landings of hake in each of the two calendar years 2013 and 2014 made by the vessel concerned shall represent less than 5 tonnes according to the landings in live weight; and

(b) the total landings of Norway lobster in the years specified in point (a) above made by the vessel concerned shall represent less than 2,5 tonnes according to the landings in live weight.

6.2. If a vessel benefits from an unlimited number of days as a result of its compliance with the special conditions, the vessel's landings in the current management period shall not exceed 5 tonnes of the total landings in live weight of hake and 2,5 tonnes of the total landings in live weight of Norway lobster.

6.3. When either of the special conditions is not met by a vessel, that vessel shall, with immediate effect, no longer be entitled to the allocation of days corresponding to the given special condition.

6.4. The application of the special conditions referred to in point 6.1. may be transferred from one vessel to one or more other vessels which replace that vessel in the fleet, provided that the replacing vessel uses similar gear and does not have in any year of its operation a record of landings of hake and Norway lobster higher than the quantities specified in point 6.1. U.K.

Table I

Maximum number of days a vessel may be present within the area by fishing gear per year

Special condition	Regulated gear	Maximum number of days	
	Trawls, Danish seines and similar gears of mesh size \geq 32 mm, gill-nets of mesh size \geq 60 mm and bottom longlines	ES	126
		FR	109
		PT	113
6.1.(a) and 6.1.(b)	Trawls, Danish seines and similar gears of mesh size \geq 32 mm, gill-nets of mesh size \geq 60 mm and bottom longlines	Unlimited	

7. **Kilowatt day system** U.K.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- 7.1. A Member State may manage its fishing effort allocations in accordance with a kilowatt days system. Through that system it may authorise any vessel concerned by any regulated gear and special conditions as set out in Table I to be present within the area for a maximum number of days which is different from that set out in that Table, provided that the overall amount of kilowatt days corresponding to the regulated gear and to the special conditions is respected.
- 7.2. This overall amount of kilowatt days shall be the sum of all individual fishing efforts allocated to the vessels flying the flag of that Member State and qualified for the regulated gear and, where applicable, the special conditions. Such individual fishing efforts shall be calculated in kilowatt days by multiplying the engine power of each vessel by the number of days at sea it would benefit from, according to Table I, if point 7.1. were not applied. For as long as the number of days is unlimited according to Table I, the relevant number of days the vessel would benefit from is 360.
- 7.3. A Member State wishing to benefit from the system referred to in point 7.1. shall submit a request to the Commission, for the regulated gear and special conditions as laid down in Table I, with reports in electronic format containing the details of the calculation based on: **U.K.**
- (a) the list of vessels authorised to fish by indicating their Union fishing fleet register number (CFR) and their engine power;
 - (b) the track record of the years specified in point 6.1.(a) for such vessels reflecting the catch composition defined in the special condition referred to in point 6.1.(a) or (b), if these vessels are qualified for such special conditions;
 - (c) the number of days at sea for which each vessel would have initially been authorised to fish according to Table I and the number of days at sea which each vessel would benefit from in application of point 7.1.
- 7.4. On the basis of that request, the Commission shall assess whether the conditions referred to in point 7 are complied with and, where applicable, may authorise that Member State to benefit from the system referred to in point 7.1.
8. **Allocation of additional days for permanent cessation of fishing activities** **U.K.**
- 8.1. An additional number of days at sea on which a vessel may be authorised by its flag Member State to be present within the area when carrying on board any regulated gear may be allocated to a Member State by the Commission on the basis of permanent cessations of fishing activities that have taken place during the preceding management period, either in accordance with Article 23 of Council Regulation (EC) No 1198/2006⁽³⁴⁾ or Council Regulation (EC) No 744/2008⁽³⁵⁾. Permanent cessations resulting from any other circumstances may be considered by the Commission on a case-by-case basis, following a written and duly motivated request from the Member State concerned. Such written request shall identify the vessels concerned and confirm, for each of them, that they shall never return to fishing activities.
- 8.2. The effort expended in 2003 measured in kilowatt days of the withdrawn vessels using the regulated gear shall be divided by the effort expended by all vessels using that gear during 2003. The additional number of days at sea shall be then calculated by multiplying the ratio so obtained by the number of days that would have been allocated according to Table I. Any part of a day resulting from that calculation shall be rounded to the nearest whole day.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- 8.3. Points 8.1. and 8.2. shall not apply where a vessel has been replaced in accordance with point 3 or 6.4., or when the withdrawal has already been used in previous years to obtain additional days at sea.
- 8.4. A Member State wishing to benefit from the allocations referred to in point 8.1. shall submit a request to the Commission, by 15 June of the current management period, with reports in electronic format containing, for the gear grouping and special conditions as laid down in Table I, the details of the calculation based on: **U.K.**
- (a) lists of withdrawn vessels with their Union fishing fleet register number (CFR) and their engine power;
- (b) the fishing activity deployed by such vessels in 2003 calculated in days at sea according to the grouping of fishing gears and, if necessary, special conditions.
- 8.5. On the basis of such a request by a Member State the Commission may, by means of implementing acts, allocate that Member State a number of days additional to that referred to in point 5.1. for that Member State. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 42(2).
- 8.6. During the current management period, a Member State may re-allocate those additional days at sea to all or part of the vessels remaining in fleet and qualified for the regulated gears. Additional days stemming from a withdrawn vessel that benefited from a special condition referred to in point 6.1.(a) or (b) may not be allocated to a vessel remaining active that does not benefit from a special condition.
- 8.7. When the Commission allocates additional days at sea due to a permanent cessation of fishing activities during the preceding management period, the maximum number of days per Member State and gear shown in Table I shall be adjusted accordingly for the current management period.
9. **Allocation of additional days for enhanced scientific observer coverage** **U.K.**
- 9.1. Three additional days on which a vessel may be present within the area when carrying on board any regulated gear may be allocated to a Member State by the Commission on the basis of an enhanced programme of scientific observer coverage in partnership between scientists and the fishing industry. Such a programme shall focus in particular on levels of discarding and on catch composition and shall go beyond the requirements on data collection, as laid down in Council Regulation (EC) No 199/2008⁽³⁶⁾ and its implementing rules for national programmes.
- 9.2. Scientific observers shall be independent from the owner, the master of the vessel and any crew member.
- 9.3. A Member State wishing to benefit from the allocations referred to in point 9.1. shall submit a description of its enhanced scientific observer coverage programme to the Commission for approval.
- 9.4. On the basis of that description, and after consultation with STECF, the Commission may, by means of implementing acts, allocate the Member State concerned a number of days additional to that referred to in point 5.1. for that Member State and for the vessels, the area and gear concerned by the enhanced programme of scientific observers. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 42(2).

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- 9.5. If an enhanced scientific observer coverage programme submitted by a Member State has been approved by the Commission in the past and the Member State concerned wishes to continue its application without changes, it shall inform the Commission of the continuation of that programme four weeks before the beginning of the period for which the programme applies.

CHAPTER IV U.K.

Management

10. General obligation U.K.

Member States shall manage the maximum allowable effort in accordance with the conditions laid down in Article 8 of Regulation (EC) No 2166/2005 and Articles 26 to 35 of Regulation (EC) No 1224/2009.

11. Management periods U.K.

- 11.1. A Member State may divide the days present within the area set out in Table I into management periods of durations of one or more calendar months.
- 11.2. The number of days or hours for which a vessel may be present within the area during a management period shall be fixed by the Member State concerned.
- 11.3. Where a Member State authorises vessels flying its flag to be present within the area by hours, the Member State shall continue measuring the consumption of days as specified in point 10. Upon request by the Commission, the Member State shall demonstrate its precautionary measures taken to avoid an excessive consumption of days within the area due to a vessel terminating presences in the area before the end of a 24-hour period.

CHAPTER V U.K.

Exchanges of fishing effort allocations

12. Transfer of days between fishing vessels flying the flag of a Member State U.K.

- 12.1. A Member State may permit any fishing vessel flying its flag to transfer days present within the area for which it has been authorised to another vessel flying its flag within the area, provided that the product of the days received by a vessel multiplied by its engine power in kilowatts (kilowatt days) is equal to or less than the product of the days transferred by the donor vessel and the engine power in kilowatts of that vessel. The engine power in kilowatts of the vessels shall be that recorded for each vessel in the Union fishing fleet register.
- 12.2. The total number of days present within the area transferred in accordance with point 12.1., multiplied by the engine power in kilowatts of the donor vessel, shall not be higher than the donor vessel's average annual days track record in the area as verified by the fishing logbook in the years specified in point 6.1.(a) multiplied by the engine power in kilowatts of that vessel.
- 12.3. The transfer of days as described in point 12.1. shall be permitted between vessels operating with any regulated gear and during the same management period.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- 12.4. The transfer of days is only permitted for vessels benefiting from an allocation of fishing days without special conditions.
- 12.5. On request from the Commission, Member States shall provide information on the transfers that have taken place. The format of spreadsheets for the collection and transmission of information referred to in this point may be established by the Commission, by means of implementing acts. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 42(2).
13. **Transfer of days between fishing vessels flying the flag of different Member States** U.K.

Member States may permit the transfer of days present within the area for the same management period and within the area between any fishing vessels flying their flags provided that points 4.1. and 4.2. and 12 apply *mutatis mutandis*. Where Member States decide to authorise such a transfer, they shall notify the Commission, before the transfer takes place, of the details of the transfer, including the number of days to be transferred, the fishing effort and, where applicable, the fishing quotas relating thereto.

CHAPTER VI U.K.

Reporting obligations

14. Fishing effort report U.K.

Article 28 of Regulation (EC) No 1224/2009 shall apply to vessels falling under the scope of this Annex. The geographical area referred to in that Article shall be understood as the area specified in point 2 of this Annex.

15. Collection of relevant data U.K.

Member States shall collect on a quarterly basis the information about total fishing effort deployed within the area for towed gears and static gears, effort deployed by vessels using different types of gear in the area, and the engine power of those vessels in kilowatt days, on the basis of information used for the management of fishing days present within the area as set out in this Annex.

16. Communication of relevant data U.K.

Upon request from the Commission, Member States shall make available to the Commission a spreadsheet with data specified in point 15 in the format specified in Tables II and III by sending it to the appropriate electronic mailbox address, which shall be communicated to the Member States by the Commission. Member States shall, upon the Commission's request, send detailed information to the Commission on effort allocated and consumed covering all or parts of the current and the precedent management periods, using the data format specified in Tables IV and V.

TABLE II

Reporting format kW-day information by management period

Member State	Gear	Management period	Cumulative effort declaration
(1)	(2)	(3)	(4)

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

TABLE V

Data format for vessel-related information

Name of field		Maximum number of characters/digits	Alignment ^a L(eft)/R(ight)	Definition and comments
(1)	Member State	3		Member State (Alpha-3 ISO code) in which vessel is registered
(2)	CFR	12		Union fishing fleet register number (CFR) Unique identification number of a fishing vessel Member State (Alpha-3 ISO code) followed by an identifying series (9 characters). Where a series has fewer than 9 characters, additional zeros shall be inserted on the left hand side
(3)	External marking	14	L	Under Commission Regulation (EEC) No 1381/87 ^b
(4)	Length of management period	2	L	Length of the management period measured in months
(5)	Gears notified	2	L	One of the following gear types: TR = trawls, Danish seines and similar gear ≥ 32 mm GN = gillnets ≥ 60 mm LL = bottom longlines

a Information relevant for transmission of data by fixed-length formatting.

b Commission Regulation (EEC) No 1381/87 of 20 May 1987 establishing detailed rules concerning the marking and documentation of fishing vessels (OJ L 132, 21.5.1987, p. 9).

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

(6)	Special condition applying to notified gear(s)	2	L	Indication of which, if any, of the special condition referred to in point 6.1.(a) or (b) of Annex IIB that apply
(7)	Days eligible using notified gear(s)	3	L	Number of days for which the vessel is eligible under Annex IIB for the choice of gears and length of management period notified
(8)	Days spent with notified gear(s)	3	L	Number of days the vessel actually spent present within the area and using gear corresponding to gear notified during the notified management period
(9)	Transfers of days	4	L	For days transferred indicate ‘– number of days transferred’ and for days received indicate ‘+ number of days transferred’

a Information relevant for transmission of data by fixed-length formatting.

b Commission Regulation (EEC) No 1381/87 of 20 May 1987 establishing detailed rules concerning the marking and documentation of fishing vessels (OJ L 132, 21.5.1987, p. 9).

ANNEX IIC **U.K.**

FISHING EFFORT FOR VESSELS IN THE CONTEXT OF THE MANAGEMENT OF WESTERN CHANNEL SOLE STOCKS IN ICES DIVISION VIIe

CHAPTER I **U.K.**

General provisions

1. **Scope** **U.K.**

- 1.1. This Annex shall apply to Union fishing vessels of 10 metres length overall or more carrying on board or deploying beam trawls of mesh size equal to or greater than 80 mm and static nets including gill-nets, trammel-nets and tangle-nets with mesh size equal to or less than 220 mm in accordance with Regulation (EC) No 509/2007, and present in ICES division VIIe.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- 1.2. Vessels fishing with static nets with mesh size equal to or larger than 120 mm and with track records of less than 300 kg live weight of sole per year during the three previous years, according to their fishing records, shall be exempt from the application of this Annex subject to the following conditions: **U.K.**
- (a) such vessels caught less than 300 kg live weight of sole during the 2015 management period;
 - (b) such vessels do not tranship any fish at sea to another vessel;
 - (c) by 31 July 2017 and 31 January 2018 each Member State concerned makes a report to the Commission on these vessels' catch records for sole in the three previous years as well as on catches of sole in 2017.

Where any of these conditions is not met, the vessels concerned shall cease to be exempt from the application of this Annex, with immediate effect.

2. **Definitions** **U.K.**

For the purposes of this Annex the following definitions shall apply:

- (a) 'gear grouping' means the grouping consisting of the following two gear categories:
 - (i) beam trawls of mesh size equal to or greater than 80 mm; and
 - (ii) static nets, including gill-nets, trammel nets and tangle-nets, with mesh size equal to or less than 220 mm;
- (b) 'regulated gear' means any of the two gear categories belonging to the gear grouping;
- (c) 'area' means ICES division VIIe;
- (d) 'current management period' means the period from 1 February 2017 to 31 January 2018.

3. **Limitation in activity** **U.K.**

Without prejudice to Article 29 of Regulation (EC) No 1224/2009, each Member State shall ensure that, when carrying on board any regulated gear, Union fishing vessels flying its flag and registered in the Union shall be present within the area for no more than the number of days set out in Chapter III of this Annex.

CHAPTER II **U.K.**

Authorisations

4. **Authorised vessels** **U.K.**

- 4.1. A Member State shall not authorise fishing with regulated gear in the area by any vessel flying its flag which has no record of such fishing activity in the area in the period from 2002 to 2015, excluding the record of fishing activities as a result of transfer of days between fishing vessels, unless it ensures that equivalent capacity, measured in kilowatts, is prevented from fishing in the area.
- 4.2. However, a vessel with a track record of using a regulated gear may be authorised to use a different fishing gear, provided that the number of days allocated to this latter gear is greater than or equal to the number of days allocated to the regulated gear.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- 4.3. A vessel flying the flag of a Member State having no quotas in the area shall not be authorised to fish in the area with regulated gear, unless the vessel is allocated a quota after a transfer as permitted in accordance with Article 16(8) of Regulation (EU) No 1380/2013 and is allocated days at sea in accordance with point 10 or 11 of this Annex.

CHAPTER III **U.K.**

Number of days present within the area allocated to Union fishing vessels

5. **Maximum number of days** **U.K.**

During the current management period, the maximum number of days at sea for which a Member State may authorise a vessel flying its flag to be present within the area having carried on board any regulated gear is shown in Table I.

TABLE I

Maximum number of days a vessel may be present within the area by category of regulated gear per year

Regulated gear	Maximum number of days	
Beam trawls of mesh size \geq 80 mm	BE	176
	FR	188
	UK	222
Static nets with mesh size \leq 220 mm	BE	176
	FR	191
	UK	176

6. **Kilowatt day system** **U.K.**

- 6.1. During the current management period, a Member State may manage its fishing effort allocations in accordance with a kilowatt days system. Through that system it may authorise any vessel concerned by any regulated gear as set out in Table I to be present within the area for a maximum number of days which is different from that set out in that Table, provided that the overall amount of kilowatt days corresponding to the regulated gear is respected.
- 6.2. This overall amount of kilowatt days shall be the sum of all individual fishing efforts allocated to the vessels flying the flag of that Member State and qualified for the regulated gear. Such individual fishing efforts shall be calculated in kilowatt days by multiplying the engine power of each vessel by the number of days at sea it would benefit from, according to Table I, if point 6.1. were not applied.
- 6.3. A Member State wishing to benefit from the system referred to in point 6.1. shall submit a request to the Commission, for the regulated gear as laid down in Table I, with reports in electronic format containing the details of the calculation based on: **U.K.**
- (a) the list of vessels authorised to fish by indicating their Union fishing fleet register number (CFR) and their engine power;

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

- (b) the number of days at sea for which each vessel would have initially been authorised to fish according to Table I and the number of days at sea which each vessel would benefit from in application of point 6.1.
- 6.4. On the basis of that request, the Commission shall assess whether the conditions referred to in point 6 are complied with and, where applicable, may authorise that Member State to benefit from the system referred to in point 6.1.
- 7. Allocation of additional days for permanent cessation of fishing activities** **U.K.**
- 7.1. An additional number of days at sea on which a vessel may be authorised by its flag Member State to be present within the area when carrying on board any regulated gear may be allocated to a Member State by the Commission on the basis of permanent cessations of fishing activities that have taken place during the preceding management period either in accordance with Article 23 of Regulation (EC) No 1198/2006 or Regulation (EC) No 744/2008. Permanent cessations resulting from any other circumstances may be considered by the Commission on a case-by-case basis, following a written and duly motivated request from the Member State concerned. Such written request shall identify the vessels concerned and confirm, for each of them, that they shall never return to fishing activities.
- 7.2. The effort expended in 2003 measured in kilowatt days of the withdrawn vessels using a given gear grouping shall be divided by the effort expended by all vessels using that gear grouping during 2003. The additional number of days at sea shall be then calculated by multiplying the ratio so obtained by the number of days that would have been allocated according to Table I. Any part of a day resulting from that calculation shall be rounded to the nearest whole day.
- 7.3. Points 7.1. and 7.2. shall not apply where a vessel has been replaced in accordance with point 4.2., or when the withdrawal has already been used in previous years to obtain additional days at sea.
- 7.4. A Member State wishing to benefit from the allocations referred to in point 7.1. shall submit a request to the Commission, by 15 June of the current management period, with reports in electronic format containing for the gear grouping as laid down in Table I, the details of the calculation based on: **U.K.**
- (a) lists of withdrawn vessels with their Union fishing fleet register number (CFR) and their engine power;
- (b) the fishing activity deployed by such vessels in 2003 calculated in days at sea according to the grouping of fishing gears.
- 7.5. On the basis of such a request by a Member State the Commission may, by means of implementing acts, allocate that Member State a number of days additional to that referred to in point 5 for that Member State. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 42(2).
- 7.6. During the current management period, a Member State may re-allocate those additional days at sea to all or part of the vessels remaining in fleet and qualified for the regulated gears.
- 7.7. When the Commission allocates additional days at sea due to a permanent cessation of fishing activities during the preceding management period the maximum number of days per Member State and gear shown in Table I shall be adjusted accordingly for the current management period.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

8. **Allocation of additional days for enhanced scientific observer coverage** U.K.
- 8.1. Three additional days on which a vessel may be present within the area when carrying on board any regulated gear may be allocated between 1 February 2017 and 31 January 2018 to a Member State by the Commission on the basis of an enhanced programme of scientific observer coverage in partnership between scientists and the fishing industry. Such a programme shall focus in particular on levels of discarding and on catch composition and go beyond the requirements on data collection, as laid down in Regulation (EC) No 199/2008 and its implementing rules for national programmes.
- 8.2. Scientific observers shall be independent from the owner, the master of the fishing vessel and any crew member.
- 8.3. A Member State wishing to benefit from the allocations referred to in point 8.1. shall submit a description of its enhanced scientific observer coverage programme to the Commission for approval.
- 8.4. On the basis of that description, and after consultation with STECF, the Commission may, by means of implementing acts, allocate the Member State concerned a number of days additional to that referred to in point 5 for that Member State and for the vessels, the area and gear concerned by the enhanced programme of scientific observers. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 42(2).
- 8.5. If an enhanced scientific observer coverage programme submitted by a Member State has been approved by the Commission in the past and the Member State concerned wishes to continue its application without changes, it shall inform the Commission of the continuation of that programme four weeks before the beginning of the period for which the programme applies.

CHAPTER IV U.K.

Management

9. **General obligation** U.K.
- Member States shall manage the maximum allowable effort in accordance with Articles 26 to 35 of Regulation (EC) No 1224/2009.
10. **Management periods** U.K.
- 10.1. A Member State may divide the days present within the area set out in Table I into management periods of durations of one or more calendar months.
- 10.2. The number of days or hours for which a vessel may be present within the area during a management period shall be fixed by the Member State concerned.
- 10.3. Where a Member State authorises vessels flying its flag to be present within the area by hours, the Member State shall continue measuring the consumption of days as specified in point 9. Upon request by the Commission, the Member State shall demonstrate its precautionary measures taken to avoid an excessive consumption of days within the area due to a vessel terminating presences in the area before the end of a 24-hour period.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

CHAPTER V U.K.

Exchanges of fishing effort allocations

11. Transfer of days between fishing vessels flying the flag of a Member State U.K.

- 11.1. A Member State may permit any fishing vessel flying its flag to transfer days present within the area for which it has been authorised to another vessel flying its flag within the area, provided that the product of the days received by a vessel multiplied by its engine power in kilowatts (kilowatt days) is equal to or less than the product of the days transferred by the donor vessel and the engine power in kilowatts of that vessel. The engine power in kilowatts of the vessels shall be that recorded for each vessel in the Union fishing fleet register.
- 11.2. The total number of days present within the area transferred in accordance with point 11.1., multiplied by the engine power in kilowatts of the donor vessel, shall not be higher than the donor vessel's average annual days track record in the area as verified by the fishing logbook in the years 2001, 2002, 2003, 2004 and 2005 multiplied by the engine power in kilowatts of that vessel.
- 11.3. The transfer of days as described in point 11.1. shall be permitted between vessels operating with any regulated gear and during the same management period.
- 11.4. On request from the Commission, Member States shall provide information on the transfers that have taken place. Formats of spreadsheet for the collection and transmission of information referred to in this point may be established by the Commission, by means of implementing acts. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 42(2).

12. Transfer of days between fishing vessels flying the flag of different Member States U.K.

Member States may permit transfer of days present within the area for the same management period and within the area between any fishing vessels flying their flags provided that points 4.2., 4.4., 5, 6 and 10 apply *mutatis mutandis*. Where Member States decide to authorise such a transfer, they shall notify the Commission before the transfer takes place, the details of the transfer, including the number of days to be transferred, the fishing effort and, where applicable, the fishing quotas relating thereto.

CHAPTER VI U.K.

Reporting obligations

13. Fishing effort report U.K.

Article 28 of Regulation (EC) No 1224/2009 shall apply to vessels falling under the scope of this Annex. The geographical area referred to in that Article shall be understood as the area specified in point 2 of this Annex.

14. Collection of relevant data U.K.

Member States shall collect on a quarterly basis the information about total fishing effort deployed within the area for towed gears and static gears, effort deployed by vessels using different types of gear in the area, and the engine power of those vessels in kilowatt days, on

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

the basis of information used for the management of fishing days present within the area as set out in this Annex.

15. Communication of relevant data **U.K.**

Upon request from the Commission, Member States shall make available to the Commission a spreadsheet with data specified in point 14 in the format specified in Tables II and III by sending it to the appropriate electronic mailbox address, which shall be communicated to the Member States by the Commission. Member States shall, upon the Commission's request, send detailed information to the Commission on effort allocated and consumed covering all or parts of the 2014 and 2015 management periods, using the data format specified in Tables IV and V.

[^{F2}ANNEX IID U.K.]

*MANAGEMENT AREAS FOR SANDEEL IN ICES
DIVISIONS IIa, IIIa AND ICES SUBAREA IV*

For the purposes of the management of the fishing opportunities of sandeel in ICES divisions IIa, IIIa and ICES subarea IV fixed in Annex IA, the management areas within which specific catch limits apply are defined as shown below and in the Appendix to this Annex:

Sandeel management area	ICES statistical rectangles
1r	31–33 E9–F4; 33 F5; 34–37 E9–F6; 38–40 F0–F5; 41 F4–F5
2r	35 F7–F8; 36 F7–F9; 37 F7–F8; 38–41 F6–F8; 42 F6–F9; 43 F7–F9; 44 F9–G0; 45 G0–G1; 46 G1
3r	41–46 F1–F3; 42–46 F4–F5; 43–46 F6; 44–46 F7–F8; 45–46 F9; 46–47 G0; 47 G1 and 48 G0
4	38–40 E7–E9 and 41–46 E6–F0
5r	47–52 F1–F5
6	41–43 G0–G3; 44 G1
7r	47–52 E6–F0

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

ANNEX IV U.K.

ICCAT CONVENTION AREA⁽³⁷⁾

1. Maximum number of Union bait boats and trolling boats authorised to fish actively for bluefin tuna between 8 kg/75 cm and 30 kg/115 cm in the Eastern Atlantic U.K.

Spain	60
France	37
Union	97

2. Maximum number of Union coastal artisanal fishing vessels authorised to fish actively for bluefin tuna between 8 kg/75 cm and 30 kg/115 cm in the Mediterranean U.K.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Spain	119
France	107
Italy	30
Cyprus	13 ^a
Malta	44 ^a
Union	313

a This number may increase if a purse seine vessel is replaced by 10 longline vessels in accordance with footnote 4 or footnote 6 of table A in point 4 of this Annex.

3. Maximum number of Union fishing vessels authorised to fish actively for bluefin tuna between 8 kg/75 cm and 30 kg/115 cm in the Adriatic Sea for farming purposes **U.K.**

Croatia	15
Italy	12
Union	27

4. Maximum number and total capacity in gross tonnage of fishing vessels of each Member State that may be authorised to fish for, retain on board, tranship, transport, or land bluefin tuna in the eastern Atlantic and Mediterranean **U.K.**

TABLE A

Number of fishing vessels ^a							
	Cyprus ^b	Greece ^c	Croatia	Italy	France	Spain	Malta ^d

PART C

ANNEX 21-03/

A **U.K.**

**NOTIFICATION OF INTENT TO PARTICIPATE
IN A FISHERY FOR *EUPHAUSIA SUPERBA***

General information

Member:

Fishing season:

Name of vessel:

Expected level of catch (tonne):

Vessel's daily processing capacity (tonnes in green weight):

Intended fishing subareas and divisions

This conservation measure applies to notifications of intentions to fish for krill in Subareas 48.1, 48.2, 48.3 and 48.4 and Divisions 58.4.1 and 58.4.2. Intentions to fish for krill in other subareas and divisions must be notified under Conservation Measure 21-02.

Subarea/Division	Tick the appropriate boxes
------------------	----------------------------

Status: Point in time view as at 31/01/2020.

Changes to legislation: *There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

48.1	<input type="checkbox"/>
48.2	<input type="checkbox"/>
48.3	<input type="checkbox"/>
48.4	<input type="checkbox"/>
58.4.1	<input type="checkbox"/>
58.4.2	<input type="checkbox"/>

Fishing technique:	Tick the appropriate boxes
	<input type="checkbox"/> Conventional trawl
	<input type="checkbox"/> Continuous fishing system
	<input type="checkbox"/> Pumping to clear codend
	<input type="checkbox"/> Other method: Please specify

Product types and methods for direct estimation of green weight of krill caught

Product type	Method for direct estimation of green weight of krill caught, where relevant (refer to Annex 21-03/B) ^a
Whole frozen	
Boiled	
Meal	
Oil	
Other product, please specify	

^a If the method is not listed in Annex 21-03/B, then please describe in detail

Net configuration

Net measurements	Net 1	Net 2	Other net(s)
Net opening (mouth)			
Maximum vertical opening (m)			

^a Expected in operational conditions.

^b Size of outer mesh, and inner mesh where a liner is used.

^c Inside measurement of stretched mesh based on the procedure in Conservation Measure 22-01.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

Maximum horizontal opening (m)						
Net circumference at mouth ^a (m)						
Mouth area (m ²)						
Panel average mesh size^c (mm)	Outer^b	Inner^b	Outer^b	Inner^b	Outer^b	Inner^b
1st panel						
2nd panel						
3rd panel						
...						
Final panel (Codend)						

a Expected in operational conditions.

b Size of outer mesh, and inner mesh where a liner is used.

c Inside measurement of stretched mesh based on the procedure in Conservation Measure 22-01.

Net diagram(s): ...

For each net used, or any change in net configuration, refer to the relevant net diagram in the CCAMLR fishing gear library if available (www.ccamlr.org/node/74407), or submit a detailed diagram and description to the forthcoming meeting of WG-EMM. Net diagrams must include:

1. Length and width of each trawl panel (in sufficient detail to allow calculation of the angle of each panel with respect to water flow.)
2. Mesh size (inside measurement of stretched mesh based on the procedure in Conservation Measure 22-01), shape (e.g. diamond shape) and material (e.g. polypropylene).
3. Mesh construction (e.g. knotted, fused).
4. Details of streamers used inside the trawl (design, location on panels, indicate 'nil' if streamers are not in use); streamers prevent krill fouling the mesh or escaping.

Marine mammal exclusion device

Device diagram(s): ...

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

For each type of device used, or any change in device configuration, refer to the relevant diagram in the CCAMLR fishing gear library if available (www.ccamlr.org/node/74407), or submit a detailed diagram and description to the forthcoming meeting of WG-EMM.

Collection of acoustic data

Provide information on the echosounders and sonars used by the vessel.

Type (e.g. echosounder, sonar)			
Manufacturer			
Model			
Transducer frequencies (kHz)			

Collection of acoustic data (detailed description): ...

Outline steps which will be taken to collect acoustic data to provide information on the distribution and abundance of *Euphausia superba* and other pelagic species such as *myctophiids* and *salps* (SC-CAMLR-XXX, paragraph 2.10)

ANNEX 21-03/B **U.K.**

GUIDELINES FOR ESTIMATING THE GREEN WEIGHT OF KRILL CAUGHT

Method	Equation (kg)	Parameter			
		Description	Type	Estimation method	Unit
Holding tank volume	$W * L * H * \rho * 1\ 000$	W = tank width	Constant	Measure at the start of fishing	m
		L = tank length	Constant	Measure at the start of fishing	m
		ρ = volume-to-mass conversion factor	Variable	Volume-to-mass conversion	kg/litre
		H = depth of krill in tank	Haul-specific	Direct observation	m
Flow meter ^a	$V * F_{krill} * \rho$	V = volume of krill	Haul ^a -specific	Direct observation	litre

a Individual haul when using a conventional trawl, or integrated over a six-hour period when using the continuous fishing system.

b Individual haul when using a conventional trawl, or a two-hour period when using the continuous fishing system.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

		and water combined			
		F_{krill} = fraction of krill in the sample	Haul ^a -specific	Flow meter volume correction	—
		ρ = volume-to-mass conversion factor	Variable	Volume-to-mass conversion	kg/litre
Flow meter ^b	$(V * \rho) - M$	V = volume of krill paste	Haul ^a -specific	Direct observation	litre
		M = amount of water added to the process, converted to mass	Haul ^a -specific	Direct observation	kg
		ρ = density of krill paste	Variable	Direct observation	kg/litre
Flow scale	$M * (1 - F)$	M = mass of krill and water combined	Haul ^b -specific	Direct observation	kg
		F = fraction of water in the sample	Variable	Flow scale mass correction	—
Plate tray	$(M - M_{\text{tray}}) * N$	M_{tray} = mass of empty tray	Constant	Direct observation prior to fishing	kg
		M = mean mass of krill and tray combined	Variable	Direct observation, prior to freezing with water drained	kg
		N = number of trays	Haul-specific	Direct observation	—
Meal conversion	$M_{\text{meal}} * \text{MCF}$	M_{meal} = mass of meal produced	Haul-specific	Direct observation	kg

a Individual haul when using a conventional trawl, or integrated over a six-hour period when using the continuous fishing system.

b Individual haul when using a conventional trawl, or a two-hour period when using the continuous fishing system.

Status: Point in time view as at 31/01/2020.

Changes to legislation: *There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

		MCF = meal conversion factor	Variable	Meal to whole krill conversion	—
Codend volume	$W * H * L * \rho * \pi/4 * 1000$	W = codend width	Constant	Measure at the start of fishing	m
		H = codend height	Constant	Measure at the start of fishing	m
		ρ = volume-to-mass conversion factor	Variable	Volume-to-mass conversion	kg/litre
		L = codend length	Haul-specific	Direct observation	m
Other	Please specify				

a Individual haul when using a conventional trawl, or integrated over a six-hour period when using the continuous fishing system.

b Individual haul when using a conventional trawl, or a two-hour period when using the continuous fishing system.

Observation steps and frequency

Holding tank volume

At the start of fishing	Measure the width and length of the holding tank (if the tank is not rectangular in shape, then additional measurements may be required; precision $\pm 0,05$ m)
Every month ^a	Estimate the volume-to-mass conversion derived from the drained mass of krill in a known volume (e.g. 10 litres) taken from the holding tank
Every haul	Measure the depth of krill in the tank (if krill are held in the tank between hauls, then measure the difference in depth; precision $\pm 0,1$ m)
	Estimate the green weight of krill caught (using equation)

Flow meter^a

Prior to fishing	Ensure that the flow meter is measuring whole krill (i.e. prior to processing)
More than once per month ^a	Estimate the volume-to-mass conversion (ρ) derived from the drained mass of krill in a

a A new period will commence when the vessel moves to a new subarea or division.

b Individual haul when using a conventional trawl, or integrated over a six-hour period when using the continuous fishing system.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

	known volume (e.g. 10 litres) taken from the flow meter
Every haul ^b	Obtain a sample from the flow meter and: measure the volume (e.g. 10 litres) of krill and water combined estimate the flow meter volume correction derived from the drained volume of krill Estimate the green weight of krill caught (using equation)
Flow meter^b	
Prior to fishing	Ensure that both flow meters (one for the krill product and one for the water added) are calibrated (i.e. show the same, correct reading)
Every week ^a	Estimate the density (ρ) of the krill product (ground krill paste) by measuring the mass of a known volume of krill product (e.g. 10 litres) taken from the corresponding flow meter
Every haul ^b	Read both flow meters, and calculate the total volumes of the krill product (ground krill paste) and that of the water added; density of the water is assumed to be 1 kg/litre Estimate the green weight of krill caught (using equation)
Flow scale	
Prior to fishing	Ensure that the flow scale is measuring whole krill (i.e. prior to processing)
Every haul ^b	Obtain a sample from the flow scale and: measure the mass of krill and water combined estimate the flow scale mass correction derived from the drained mass of krill Estimate the green weight of krill caught (using equation)
Plate tray	
Prior to fishing	Measure the mass of the tray (if trays vary in design, then measure the mass of each type; precision $\pm 0,1$ kg)
Every haul	Measure the mass of krill and tray combined (precision $\pm 0,1$ kg)
a	A new period will commence when the vessel moves to a new subarea or division.
b	Individual haul when using a conventional trawl, or integrated over a six-hour period when using the continuous fishing system.

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

	Count the number of trays used (if trays vary in design, then count the number of trays of each type)
	Estimate the green weight of krill caught (using equation)
Meal conversion	
Every month ^a	Estimate the meal to whole krill conversion by processing 1 000 to 5 000 kg (drained mass) of whole krill
Every haul	Measure the mass of meal produced
	Estimate the green weight of krill caught (using equation)
Codend volume	
At the start of fishing	Measure the width and height of the codend (precision $\pm 0,1$ m)
Every month ^a	Estimate the volume-to-mass conversion derived from the drained mass of krill in a known volume (e.g. 10 litres) taken from the codend
Every haul	Measure the length of codend containing krill (precision $\pm 0,1$ m)
	Estimate the green weight of krill caught (using equation)

a A new period will commence when the vessel moves to a new subarea or division.

b Individual haul when using a conventional trawl, or integrated over a six-hour period when using the continuous fishing system.

ANNEX VI U.K.

IOTC AREA OF COMPETENCE

- Maximum number of Union fishing vessels authorised to fish for tropical tunas in the IOTC Area of Competence U.K.

Member State	Maximum number of vessels	Capacity (gross tonnage)
Spain	22	61 364
France	27	45 383
Portugal	5	1 627
Italy	1	2 137
Union	55	110 511

Status: Point in time view as at 31/01/2020.

Changes to legislation: There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)

2. Maximum number of Union fishing vessels authorised to fish for swordfish and albacore in the IOTC Area of Competence **U.K.**

Member State	Maximum number of vessels	Capacity (gross tonnage)
Spain	27	11 590
France	41 ^a	7 882
Portugal	15	6 925
United Kingdom	4	1 400
Union	87	27 797

^a This figure does not include vessels registered in Mayotte; it may be increased in the future in accordance with Mayotte's fleet development plan.

3. The vessels referred to in point 1 shall also be authorised to fish for swordfish and albacore in the IOTC Area of Competence.
4. The vessels referred to in point 2 shall also be authorised to fish for tropical tunas in the IOTC Area of Competence.

ANNEX VII **U.K.**

WCPFC CONVENTION AREA

Maximum number of Union fishing vessels authorised to fish for swordfish in areas south of 20° S of the WCPFC Convention Area

Spain	14
Union	14

ANNEX VIII **U.K.**

QUANTITATIVE LIMITATIONS OF FISHING AUTHORISATIONS FOR THIRD-COUNTRY VESSELS FISHING IN UNION WATERS

Flag State	Fishery	Number of fishing authorisations	Maximum number of vessels present at any time
------------	---------	----------------------------------	---

^a To issue those fishing authorisations, proof must be produced that a valid contract exists between the ship owner applying for the fishing authorisation and a processing undertaking situated in the Department of French Guiana, and that it includes an obligation to land at least 75 % of all snapper catches from the vessel concerned in that department so that they may be processed in that undertaking's plant. Such a contract must be endorsed by the French authorities, which shall ensure that it is consistent both with the actual capacity of the contracting processing undertaking and with the objectives for the development of the Guianese economy. A copy of the duly endorsed contract shall be appended to the fishing authorisation application. Where such an endorsement is refused, the French authorities shall give notification of this refusal and state their reasons for it to the party concerned and to the Commission.

Status: Point in time view as at 31/01/2020.

Changes to legislation: *There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

Norway	Herring, north of 62° 00' N	To be established	To be established
Faroe Islands	Mackerel, VIa (north of 56° 30' N), IIa, IVa (north of 59° N) Horse mackerel, IV, VIa (north of 56° 30' N), VIIe, VIIf, VIIIh	14	14
	Herring, north of 62° 00' N	20	To be established
	Herring, IIIa	4	4
	Industrial fishing for Norway pout, IV, VIa (north of 56° 30' N) (including unavoidable by-catches of blue whiting)	14	14
	Ling and tusk	20	10
	Blue whiting, II, IVa, V, VIa (north of 56° 30' N), VIb, VII (west of 12° 00' W)	20	20
	Blue ling	16	16
Venezuela ^a	Snappers (French Guiana waters)	45	45

a To issue those fishing authorisations, proof must be produced that a valid contract exists between the ship owner applying for the fishing authorisation and a processing undertaking situated in the Department of French Guiana, and that it includes an obligation to land at least 75 % of all snapper catches from the vessel concerned in that department so that they may be processed in that undertaking's plant. Such a contract must be endorsed by the French authorities, which shall ensure that it is consistent both with the actual capacity of the contracting processing undertaking and with the objectives for the development of the Guianese economy. Changes to legislation: *There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

- (1) Regulation (EU) No 1380/2013 of the European Parliament and of the Council of 11 December 2013 on the Common Fisheries Policy, amending Council Regulations (EC) No 1954/2003 and (EC) No 1224/2009 and repealing Council Regulations (EC) No 2371/2002 and (EC) No 639/2004 and Council Decision 2004/585/EC (OJ L 354, 28.12.2013, p. 22).
- (2) Council Regulation (EC) No 1342/2008 of 18 December 2008 establishing a long-term plan for cod stocks and the fisheries exploiting those stocks and repealing Regulation (EC) No 423/2004 (OJ L 348, 24.12.2008, p. 20).
- (3) Regulation (EU) 2016/2094 of the European Parliament and of the Council of 23 November 2016 amending Council Regulation (EC) No 1342/2008 establishing a long-term plan for cod stocks and the fisheries exploiting those stocks (OJ L 330, 3.12.2016, p. 1).
- (4) Commission Delegated Regulation (EU) 2016/2250 of 4 October 2016 establishing a discard plan for certain demersal fisheries in the North Sea and in Union waters of ICES division IIa (OJ L 340, 15.12.2016, p. 2).
- (5) Council Regulation (EC) No 509/2007 of 7 May 2007 establishing a multi-annual plan for the sustainable exploitation of the stock of sole in the Western Channel (OJ L 122, 11.5.2007, p. 7).
- (6) Council Regulation (EC) No 676/2007 of 11 June 2007 establishing a multiannual plan for fisheries exploiting stocks of plaice and sole in the North Sea (OJ L 157, 19.6.2007, p. 1).
- (7) Council Regulation (EC) No 302/2009 of 6 April 2009 concerning a multiannual recovery plan for bluefin tuna in the eastern Atlantic and Mediterranean, amending Regulation (EC) No 43/2009 and repealing Regulation (EC) No 1559/2007 (OJ L 96, 15.4.2009, p. 1).
- (8) Council Regulation (EC) No 2166/2005 of 20 December 2005 establishing measures for the recovery of the Southern hake and Norway lobster stocks in the Cantabrian Sea and Western Iberian peninsula and amending Regulation (EC) No 850/98 for the conservation of fishery resources through technical measures for the protection of juveniles of marine organisms (OJ L 345, 28.12.2005, p. 5).
- (9) Council Regulation (EC) No 1300/2008 of 18 December 2008 establishing a multi-annual plan for the stock of herring distributed to the west of Scotland and the fisheries exploiting that stock (OJ L 344, 20.12.2008, p. 6).
- (10) Council Regulation (EC) No 847/96 of 6 May 1996 introducing additional conditions for year-to-year management of TACs and quotas (OJ L 115, 9.5.1996, p. 3).
- (11) Council Regulation (EC) No 1224/2009 of 20 November 2009 establishing a Community control system for ensuring compliance with the rules of the common fisheries policy, amending Regulations (EC) No 847/96, (EC) No 2371/2002, (EC) No 811/2004, (EC) No 768/2005, (EC) No 2115/2005, (EC) No 2166/2005, (EC) No 388/2006, (EC) No 509/2007, (EC) No 676/2007, (EC) No 1098/2007, (EC) No 1300/2008, (EC) No 1342/2008 and repealing Regulations (EEC) No 2847/93, (EC) No 1627/94 and (EC) No 1966/2006 (OJ L 343, 22.12.2009, p. 1).
- (12) Agreement on fisheries between the European Economic Community and the Kingdom of Norway (OJ L 226, 29.8.1980, p. 48).
- (13) Agreement on fisheries between the European Economic Community, of the one part, and the Government of Denmark and the Home Government of the Faeroe Islands, of the other part (OJ L 226, 29.8.1980, p. 12).
- (14) Fisheries Partnership Agreement between the European Community on the one hand, and the Government of Denmark and the Home Rule Government of Greenland, on the other hand (OJ L 172, 30.6.2007, p. 4) and Protocol setting out the fishing opportunities and financial contribution provided for in that Agreement (OJ L 293, 23.10.2012, p. 5).
- (15) OJ L 6, 10.1.2012, p. 9.
- (16) Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13).
- (17) Commission Regulation (EC) No 517/2008 of 10 June 2008 laying down detailed rules for the implementation of Council Regulation (EC) No 850/98 as regards the determination of the mesh size and assessing the thickness of twine of fishing nets (OJ L 151, 11.6.2008, p. 5).

Status: Point in time view as at 31/01/2020.

Changes to legislation: *There are outstanding changes not yet made to Council Regulation (EU) 2017/127. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details)*

- (18) Regulation (EC) No 218/2009 of the European Parliament and of the Council of 11 March 2009 on the submission of nominal catch statistics by Member States fishing in the north-east Atlantic (OJ L 87, 31.3.2009, p. 70).
- (19) Regulation (EC) No 216/2009 of the European Parliament and of the Council of 11 March 2009 on the submission of nominal catch statistics by Member States fishing in certain areas other than those of the North Atlantic (OJ L 87, 31.3.2009, p. 1).
- (20) Regulation (EC) No 217/2009 of the European Parliament and of the Council of 11 March 2009 on the submission of catch and activity statistics by Member States fishing in the north-west Atlantic (OJ L 87, 31.3.2009, p. 42).
- (21) Concluded by Council Decision 2002/738/EC (OJ L 234, 31.8.2002, p. 39).
- (22) The Union acceded by Council Decision 86/238/EEC (OJ L 162, 18.6.1986, p. 33).
- (23) Council Regulation (EC) No 601/2004 of 22 March 2004 laying down certain control measures applicable to fishing activities in the area covered by the Convention on the conservation of Antarctic marine living resources and repealing Regulations (EEC) No 3943/90, (EC) No 66/98 and (EC) No 1721/1999 (OJ L 97, 1.4.2004, p. 16).
- (24) Concluded by Council Decision 2006/539/EC (OJ L 224, 16.8.2006, p. 22).
- (25) The Union acceded by Council Decision 95/399/EC (OJ L 236, 5.10.1995, p. 24).
- (26) Concluded by Council Decision 2008/780/EC (OJ L 268, 9.10.2008, p. 27).
- (27) The Union acceded by Council Decision 2005/75/EC (OJ L 32, 4.2.2005, p. 1).
- (28) Regulation (EU) No 1343/2011 of the European Parliament and of the Council of 13 December 2011 on certain provisions for fishing in the GFCM (General Fisheries Commission for the Mediterranean) Agreement area and amending Council Regulation (EC) No 1967/2006 concerning management measures for the sustainable exploitation of fishery resources in the Mediterranean Sea (OJ L 347, 30.12.2011, p. 44).
- (29) Council Regulation (EC) No 1006/2008 of 29 September 2008 concerning authorisations for fishing activities of Community fishing vessels outside Community waters and the access of third-country vessels to Community waters, amending Regulations (EEC) No 2847/93 and (EC) No 1627/94 and repealing Regulation (EC) No 3317/94 (OJ L 286, 29.10.2008, p. 33).
- (30) All types of demersal trawls including Danish/Scottish seines, including OTB, OTT, PTB, TBB, SSC, SDN, SPR, SV, SB, SX, TBN, TBS, TB.
- (31) All long lines or pole and line or rod and line fisheries, including LHP, LHM, LLD, LL, LTL, LX and LLS.
- (32) All fixed gillnets and traps, including GTR, GNS, FYK, FPN and FIX.
- (33) Council Regulation (EC) No 1224/2009 of 20 November 2009 establishing a Community control system for ensuring compliance with the rules of the common fisheries policy, amending Regulations (EC) No 847/96, (EC) No 2371/2002, (EC) No 811/2004, (EC) No 768/2005, (EC) No 2115/2005, (EC) No 2166/2005, (EC) No 388/2006, (EC) No 509/2007, (EC) No 676/2007, (EC) No 1098/2007, (EC) No 1300/2008, (EC) No 1342/2008 and repealing Regulations (EEC) No 2847/93, (EC) No 1627/94 and (EC) No 1966/2006 (OJ L 343, 22.12.2009, p. 1).
- (34) Council Regulation (EC) No 1198/2006 of 27 July 2006 on the European Fisheries Fund (OJ L 223, 15.8.2006, p. 1).
- (35) Council Regulation (EC) No 744/2008 of 24 July 2008 instituting a temporary specific action aiming to promote the restructuring of the European Community fishing fleets affected by the economic crisis (OJ L 202, 31.7.2008, p. 1).
- (36) Council Regulation (EC) No 199/2008 of 25 February 2008 concerning the establishment of a Community framework for the collection, management and use of data in the fisheries sector and support for scientific advice regarding the Common Fisheries Policy (OJ L 60, 5.3.2008, p. 1).
- (37) The numbers shown in sections 1, 2 and 3 may decrease in order to comply with international obligations of the Union.
