

Commission Regulation (EU) 2017/1485 of 2 August 2017 establishing a guideline on electricity transmission system operation (Text with EEA relevance)

PART I

GENERAL PROVISIONS

Article 1	Subject matter
Article 2	Scope
Article 3	Definitions
Article 4	Objectives and regulatory aspects
Article 5	Terms and conditions or methodologies of TSOs
Article 6	Approval of terms and conditions or methodologies of TSOs
Article 7	Amendments to the terms and conditions or methodologies of TSOs
Article 8	Publication on internet
Article 9	Recovery of costs
Article 10	Stakeholder involvement
Article 11	Public consultation
Article 12	Confidentiality obligations
Article 13	Agreements with TSOs not bound by this Regulation
Article 14	Monitoring
Article 15	Annual report on operational security indicators
Article 16	Annual report on load-frequency control
Article 17	Annual report on regional coordination assessment

PART II

OPERATIONAL SECURITY

TITLE 1

OPERATIONAL SECURITY REQUIREMENTS

CHAPTER 1

System states, remedial actions and operational security limits

Article 18	Classification of system states
Article 19	Monitoring and determination of system states by TSOs
Article 20	Remedial actions in system operation
Article 21	Principles and criteria applicable to remedial actions
Article 22	Categories of remedial actions
Article 23	Preparation, activation and coordination of remedial actions
Article 24	Availability of TSO's means, tools and facilities
Article 25	Operational security limits
Article 26	Security plan for critical infrastructure protection

**Changes to legislation:** Commission Regulation (EU) 2017/1485 is up to date with all changes known to be in force on or before 23 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

---

## CHAPTER 2

### Voltage control and reactive power management

- Article 27 Obligations of all TSOs regarding voltage limits
- Article 28 Obligations of SGUs concerning voltage control and reactive power management in system operation
- Article 29 Obligations of all TSOs concerning voltage control and reactive power management in system operation

## CHAPTER 3

### Short-circuit current management

- Article 30 Short-circuit current
- Article 31 Short-circuit current calculation and related measures

## CHAPTER 4

### Power flow management

- Article 32 Power flow limits

## CHAPTER 5

### Contingency analysis and handling

- Article 33 Contingency lists
- Article 34 Contingency analysis
- Article 35 Contingency handling

## CHAPTER 6

### Protection

- Article 36 General requirements on protection
- Article 37 Special protection schemes
- Article 38 Dynamic stability monitoring and assessment
- Article 39 Dynamic stability management

## TITLE 2

### DATA EXCHANGE

## CHAPTER 1

### General requirements on data exchange

- Article 40 Organisation, roles, responsibilities and quality of data exchange

**Changes to legislation:** Commission Regulation (EU) 2017/1485 is up to date with all changes known to be in force on or before 23 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

---

...

...

Article 41 Structural and forecast data exchange

Article 42 Real-time data exchange

### CHAPTER 3

Data exchange between TSOs and DSOs within the TSO's control area

Article 43 Structural data exchange

Article 44 Real-time data exchange

### CHAPTER 4

Data exchange between TSOs, owners of interconnectors or other lines and power generating modules connected to the transmission system

Article 45 Structural data exchange

Article 46 Scheduled data exchange

Article 47 Real-time data exchange

### CHAPTER 5

Data exchange between TSOs, DSOs and distribution-connected power generating modules

Article 48 Structural data exchange

Article 49 Scheduled data exchange

Article 50 Real-time data exchange

Article 51 Data exchange between TSOs and DSOs concerning significant power generating modules

### CHAPTER 6

Data exchange between TSOs and demand facilities

Article 52 Data exchange between TSOs and transmission-connected demand facilities

Article 53 Data exchange between TSOs and distribution-connected demand facilities or third parties participating in demand response

## TITLE 3

## COMPLIANCE

### CHAPTER 1

Roles and responsibilities

Article 54 Responsibility of the SGUs

Article 55 Tasks of TSOs regarding system operation

**Changes to legislation:** Commission Regulation (EU) 2017/1485 is up to date with all changes known to be in force on or before 23 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

---

## CHAPTER 2

### Operational testing

- Article 56 Purpose and responsibilities
- Article 57 Performing operational tests and analysis

#### TITLE 4

#### TRAINING

- Article 58 Training program
- Article 59 Training conditions
- Article 60 Training coordinators and trainers
- Article 61 Certification of system operator employees in charge of real-time operation
- Article 62 Common language for communication between the system operator employees in charge of real time operation
- Article 63 Cooperation between TSOs on training

## PART III

### OPERATIONAL PLANNING

#### TITLE 1

#### DATA FOR OPERATIONAL SECURITY ANALYSIS IN OPERATIONAL PLANNING

- Article 64 General provisions regarding individual and common grid models
- Article 65 Year-ahead scenarios
- Article 66 Year-ahead individual grid models
- Article 67 Year-ahead common grid models
- Article 68 Updates of year-ahead individual and common grid models
- Article 69 Week-ahead individual and common grid models
- Article 70 Methodology for building day-ahead and intraday common grid models
- Article 71 Quality control for grid models

#### TITLE 2

#### OPERATIONAL SECURITY ANALYSIS

- Article 72 Operational security analysis in operational planning
- Article 73 Year-ahead up to and including week-ahead operational security analysis
- Article 74 Day-ahead, intraday and close to real-time operational security analysis
- Article 75 Methodology for coordinating operational security analysis
- Article 76 Proposal for regional operational security coordination
- Article 77 Organisation for regional operational security coordination
- Article 78 Regional operational security coordination
- Article 79 Common grid model building
- Article 80 Regional outage coordination
- Article 81 Regional adequacy assessment

**Changes to legislation:** Commission Regulation (EU) 2017/1485 is up to date with all changes known to be in force on or before 23 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

---

## TITLE 3

### OUTAGE COORDINATION

#### CHAPTER 1

##### Outage planning agents, relevant assets

Article 82	Outage coordination objective
Article 83	Regional coordination
Article 84	Methodology for assessing the relevance of assets for outage coordination
Article 85	Lists of relevant power generating modules and relevant demand facilities
Article 86	Update of the lists of relevant power generating modules and relevant demand facilities
Article 87	Lists of relevant grid elements
Article 88	Update of the list of relevant grid elements
Article 89	Appointment of outage planning agents
Article 90	Treatment of relevant assets located in a distribution system or in a closed distribution system

#### CHAPTER 2

##### Development and update of availability plans of relevant assets

Article 91	Variations to deadlines for the year-ahead outage coordination
Article 92	General provisions on availability plans
Article 93	Long-term indicative availability plans
Article 94	Provision of year-ahead availability plan proposals
Article 95	Year-ahead coordination of the availability status of relevant assets for which the outage planning agent is not a TSO taking part in an outage coordination region, nor a DSO or a CDSO
Article 96	Year-ahead coordination of the availability status of relevant assets for which the outage planning agent is a TSO taking part in an outage coordination region, a DSO or a CDSO
Article 97	Provision of preliminary year-ahead availability plans
Article 98	Validation of year-ahead availability plans within outage coordination regions
Article 99	Final year-ahead availability plans
Article 100	Updates to the final year-ahead availability plans

#### CHAPTER 3

##### Execution of availability plans

Article 101	Management of the ‘testing’ status of relevant assets
Article 102	Procedure for handling forced outages
Article 103	Real-time execution of the availability plans

*Changes to legislation:* Commission Regulation (EU) 2017/1485 is up to date with all changes known to be in force on or before 23 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

---

## TITLE 4

### ADEQUACY

Article 104	Forecast for control area adequacy analysis
Article 105	Control area adequacy analysis
Article 106	Control area adequacy ...
Article 107	Control area adequacy in day-ahead and intraday

## TITLE 5

### ANCILLARY SERVICES

Article 108	Ancillary services
Article 109	Reactive power ancillary services

## TITLE 6

### SCHEDULING

Article 110	Establishment of scheduling processes
Article 111	Notification of schedules within scheduling areas
Article 112	Coherence of schedules
Article 113	Provision of information to other TSOs
	...
	...
Article 114	General provisions for ENTSO for Electricity operational planning data environment
Article 115	Individual grid models, common grid models and operational security analysis
Article 116	Outage coordination
Article 117	System adequacy

## PART IV

### LOAD-FREQUENCY CONTROL AND RESERVES

## TITLE 1

### OPERATIONAL AGREEMENTS

Article 118	Synchronous area operational agreements
Article 119	LFC block operational agreements
Article 120	LFC area operational agreement
Article 121	Monitoring area operational agreement
Article 122	Imbalance netting agreement
Article 123	Cross-border FRR activation agreement
Article 124	Cross-border RR activation agreement
Article 125	Sharing agreement
Article 126	Exchange agreement

**Changes to legislation:** Commission Regulation (EU) 2017/1485 is up to date with all changes known to be in force on or before 23 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

---

## TITLE 2 FREQUENCY QUALITY

Article 127	Frequency quality defining and target parameters
Article 128	FRCE target parameters
Article 129	Criteria application process
Article 130	Frequency quality evaluation data
Article 131	Frequency quality evaluation criteria
Article 132	Data collection and delivery process
Article 133	Synchronous area monitor
Article 134	LFC block monitor
Article 135	Information on load and generation behaviour
Article 136	Ramping period within the synchronous area
Article 137	Ramping restrictions for active power output
Article 138	Mitigation

## TITLE 3 LOAD-FREQUENCY CONTROL STRUCTURE

Article 139	Basic structure
Article 140	Process activation structure
Article 141	Process responsibility structure
Article 142	Frequency containment process
Article 143	Frequency restoration process
Article 144	Reserve replacement process
Article 145	Automatic and manual frequency restoration process
Article 146	Imbalance netting process
Article 147	Cross-border FRR activation process
Article 148	Cross-border RR activation process
Article 149	General requirements for cross-border control processes
Article 150	TSO notification
Article 151	Infrastructure

## TITLE 4 OPERATION OF LOAD-FREQUENCY CONTROL

Article 152	System states related to system frequency
-------------	---

## TITLE 5 FREQUENCY CONTAINMENT RESERVES

Article 153	FCR dimensioning
Article 154	FCR technical minimum requirements
Article 155	FCR prequalification process
Article 156	FCR provision

## TITLE 6 FREQUENCY RESTORATION RESERVES

Article 157	FRR dimensioning
Article 158	FRR minimum technical requirements
Article 159	FRR prequalification process

**Changes to legislation:** Commission Regulation (EU) 2017/1485 is up to date with all changes known to be in force on or before 23 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

---

## TITLE 7

## REPLACEMENT RESERVES

- Article 160 RR dimensioning
- Article 161 RR minimum technical requirements
- Article 162 RR prequalification process

## TITLE 8

## EXCHANGE AND SHARING OF RESERVES

## CHAPTER 1

## Exchange and sharing of reserves within a synchronous area

- Article 163 Exchange of FCR within a synchronous area
- Article 164 Sharing of FCR within a synchronous area
- Article 165 General requirements for the exchange of FRR and RR within a synchronous area
- Article 166 General requirements for sharing FRR and RR within a synchronous area
- Article 167 Exchange of FRR within a synchronous area
- Article 168 Sharing of FRR within a synchronous area
- Article 169 Exchange of RR within a synchronous area
- Article 170 Sharing of RR within a synchronous area

## CHAPTER 2

## Exchange and sharing of reserves between synchronous areas

- Article 171 General requirements
- Article 172 Frequency coupling between synchronous areas
- Article 173 Exchange of FCR between synchronous areas
- Article 174 Sharing of FCR between synchronous areas
- Article 175 General requirements for sharing of FRR and RR between synchronous areas
- Article 176 Exchange of FRR between synchronous areas
- Article 177 Sharing of FRR between synchronous areas
- Article 178 Exchange of RR between synchronous areas
- Article 179 Sharing of RR between synchronous areas

...

...

- Article 180 Cross-border activation process for FRR/RR

## TITLE 9

## TIME CONTROL PROCESS

- Article 181 Time control process

**Changes to legislation:** Commission Regulation (EU) 2017/1485 is up to date with all changes known to be in force on or before 23 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

---

## TITLE 10

### COOPERATION WITH DSOS

Article 182 Reserve providing groups or units connected to the DSO grid

## TITLE 11

### TRANSPARENCY OF INFORMATION

Article 183 General transparency requirements  
Article 184 Information on operational agreements  
Article 185 Information on frequency quality  
Article 186 Information on the load-frequency control structure  
Article 187 Information on FCR  
Article 188 Information on FRR  
Article 189 Information on RR  
Article 190 Information on sharing and exchange

## PART V

### FINAL PROVISIONS

Article 191 Amendments to contracts and general terms and conditions  
Article 192 Entry into force  
Signature

---

## ANNEX I

## ANNEX II

Voltage ranges referred to in Article 27:

## ANNEX III

Frequency quality defining parameters referred to in Article 127:  
Frequency quality target parameters referred to in Article 127:

## ANNEX IV

FRCE target parameters referred to in Article 128:

**Changes to legislation:** Commission Regulation (EU) 2017/1485 is up to date with all changes known to be in force on or before 23 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

---

## ANNEX V

FCR technical minimum requirements referred to in Article 154:

## ANNEX VI

Limits and requirements for the exchange of FCR referred to...

## ANNEX VII

## ANNEX VIII

---

**Changes to legislation:** Commission Regulation (EU) 2017/1485 is up to date with all changes known to be in force on or before 23 June 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

**Changes and effects yet to be applied to :**

- Art. 3(1) words substituted by [S.I. 2024/706 reg. 44\(a\)\(i\)](#)
- Art. 3(1B) omitted by [S.I. 2024/706 reg. 44\(a\)\(ii\)](#)
- Art. 10 words substituted by [S.I. 2024/706 reg. 44\(b\)](#)
- Art. 13 substituted by [S.I. 2019/533 Sch. 1 para. 14](#) (This amendment not applied to legislation.gov.uk. Sch. 1 para. 14 substituted (15.9.2020) by S.I. 2020/1016, regs. 1(2), 6(3)(f))
- Art. 15 words substituted by [S.I. 2024/706 reg. 44\(b\)](#)
- Art. 15(1) words inserted by [S.I. 2019/533 Sch. 1 para. 16\(2\)\(a\)\(ii\)](#) (This amendment not applied to legislation.gov.uk. Sch. 1 para. 16(2)(a)(ii) substituted (15.9.2020) by S.I. 2020/1016, regs. 1(2), 6(3)(g))
- Art. 16 words substituted by [S.I. 2024/706 reg. 44\(b\)](#)
- Art. 40 words substituted by [S.I. 2024/706 reg. 44\(b\)](#)
- Art. 55 words substituted by [S.I. 2024/706 reg. 44\(b\)](#)
- Art. 58(4)(h) words inserted by [S.I. 2019/533 Sch. 1 para. 46\(4\)\(b\)](#) (This amendment not applied to legislation.gov.uk. Sch. 1 para. 44(2)(b) substituted (15.9.2020) by S.I. 2020/1016, regs. 1(2), 6(3)(k))
- Art. 65 words substituted by [S.I. 2024/706 reg. 44\(b\)](#)

**Changes and effects yet to be applied to the whole legislation item and associated provisions**

- Art. 2(3A) inserted by [S.I. 2019/533 Sch. 1 para. 3\(5\)](#) (This amendment not applied to legislation.gov.uk. Sch. 1 para. 3(5) omitted (15.9.2020) by virtue of S.I. 2020/1016, regs. 1(2), 6(3)(a))
- Art. 3.2(168) omitted by [S.I. 2024/706 reg. 44\(a\)\(iii\)](#)
- Art. 55(d) words inserted by [S.I. 2019/533 Sch. 1 para. 44\(2\)\(b\)](#) (This amendment not applied to legislation.gov.uk. Sch. 1 para. 44(2)(b) substituted (15.9.2020) by S.I. 2020/1016, regs. 1(2), 6(3)(j))
