COUNCIL REGULATION (EU) 2017/1509

of 30 August 2017

concerning restrictive measures against the Democratic People's
Republic of Korea and repealing Regulation (EC) No 329/2007

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 215 thereof,

Having regard to Council Decision (CFSP) 2016/849 of 27 May 2016 concerning restrictive measures against the Democratic People's Republic of Korea and repealing Decision 2013/183/CFSP⁽¹⁾,

Having regard to the joint proposal of the High Representative of the Union for Foreign Affairs and Security Policy and of the European Commission,

Whereas:

- (1) On 14 October 2006, the UN Security Council ('UNSC') adopted Resolution 1718 (2006) in which it condemned the nuclear test that the Democratic People's Republic of Korea ('DPRK') had conducted on 9 October 2006, determining that there was a clear threat to international peace and security, and required all Member States of the UN to apply a number of restrictive measures against the DPRK. Subsequent UNSC Resolutions (UNSCRs) 1874 (2009), 2087 (2013), 2094 (2013), 2270 (2016), 2321 (2016) and 2371 (2017) further extended these restrictive measures.
- (2) In accordance with these UNSCRs, Decision (CFSP) 2016/849 provides in particular for restrictions on the import and export of certain goods, services and technology which could contribute to the DPRK's nuclear-related, ballistic missile-related or other weapons of mass destruction-related programmes (Weapons of mass destruction (WMD) programmes), a luxury goods embargo as well as an asset freeze on persons, entities and bodies that have been linked to the WMD programmes. Further measures target the transport sector, including inspections of cargo and prohibitions pertaining to DPRK vessels and aircraft, the financial sector, such as a provision of certain financial services, and the diplomatic sphere, to prevent abuse of privileges and immunities.
- (3) Furthermore, the Council has adopted several additional EU restrictive measures that complement and reinforce the UN-based restrictive measures. To that end, the Council extended the arms embargo, import and export restrictions, extended the list of persons and entities subject to an asset freeze and introduced prohibitions on transfers of funds and investment.

Status: Point in time view as at 06/03/2018.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EU) 2017/1509. (See end of Document for details)

- (4) Adoption of a regulation within the meaning of Article 215 of the Treaty at the level of the Union is necessary in order to give effect to the above-mentioned restrictive measures, in particular with a view to ensuring their uniform application by economic operators in all Member States.
- (5) Council Regulation (EC) No 329/2007⁽²⁾ has been amended several times. In view of the extent of the amendments introduced, it is appropriate to consolidate all measures into a new regulation which repeals and replaces Regulation (EC) No 329/2007.
- (6) The Commission should be empowered to publish the list of goods and technology that will be adopted by the Committee of the UNSC which was established pursuant to paragraph 12 of UNSCR 1718 (2006) ('Sanctions Committee') or the UNSC and, if appropriate, to add the nomenclature codes from the Combined Nomenclature as set out in Annex I to Council Regulation (EEC) No 2658/87⁽³⁾.
- (7) The Commission should also be empowered to amend the list of luxury goods if necessary in view of any definition or guidelines that the Sanctions Committee may promulgate to facilitate the implementation of the restrictions concerning luxury goods, taking the lists of luxury goods produced in other jurisdictions into account.
- (8) The power to amend the lists in Annexes XIII, XIV, XV, XVI and XVII to this Regulation should be exercised by the Council, in view of the specific threat to international peace and security posed by DPRK, and in order to ensure consistency with the process for amending and reviewing Annexes I, II, III, IV and V to Decision (CFSP) 2016/849.
- (9) The Commission should be empowered to amend the list of services, taking into account information provided by Member States as well as any definition or guidelines that may be issued by the United Nations Statistical Commission, or in order to add reference numbers taken from the Central Product Classification system for goods and services promulgated by the United Nations Statistical Commission.
- (10) UNSCR 2270 (2016) recalls that the Financial Action Task Force ('FATF') has called upon countries to apply enhanced due diligence and effective countermeasures to protect their jurisdictions from the DPRK's illicit financial activity, and calls upon UN Member States to apply FATF Recommendation 7, its Interpretive Note and related guidance to effectively implement targeted financial sanctions related to proliferation.
- (11) This Regulation respects the fundamental rights and observes the principles recognised in particular by the Charter of Fundamental Rights of the European Union and in particular the right to an effective remedy and to a fair trial and the right to the protection of personal data. This Regulation should be applied in accordance with those rights.
- (12) For the implementation of this Regulation, and to create the highest level of legal certainty within the Union, the names and other relevant data concerning natural and legal persons, entities and bodies whose funds and economic resources are to be frozen in accordance with this Regulation, should be made public. Any processing of personal data of natural persons under this Regulation should be in conformity with Regulation

ANNEX II

Goods and technology referred to in point (a) of Article 3(1) and in Article 7 PART I

All goods and technology listed in Annex I to Regulation (EC) No 428/2009.

Status: Point in time view as at 06/03/2018.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EU) 2017/1509. (See end of Document for details)

PART II Other items, materials, equipment, goods and technology which could contribute to DPRK's nuclear-related, ballistic missile-related or other weapons of mass destruction-related programmes.

Unless otherwise stated, reference numbers used in the column entitled 'Description' refer to the descriptions of dual use items and technology set out in Annex I to Regulation (EC) No 428/2009.

'A reference number in the column entitled Related item from Annex I to Regulation (EC) No 428/2009' means that the characteristics of the item described in the column 'Description' lie outside the parameters set out in the description of the dual use entry referred to.

Definitions of terms between 'single quotation marks' are given in a technical note to the relevant item.

Definitions of terms between 'double quotation marks' can be found in Annex I to Regulation (EC) No 428/2009.

GENERAL NOTES

The object of the prohibitions contained in this Annex should not be defeated by the export of any non-prohibited goods (including plant) containing one or more prohibited components when the prohibited component or components are the principal element of the goods and can feasibly be removed or used for other purposes.

N.B.: In judging whether the prohibited component or components are to be considered the principal element, it is necessary to weigh the factors of quantity, value and technological know-how involved and other special circumstances which might establish the prohibited component or components as the principal element of the goods being procured.

Goods specified in this Annex include both new and used goods.

GENERAL NOTE (to be read in conjunction with Part C.)

TECHNOLOGY

NOTE

(GTN)

The sale, supply, transfer or export of 'technology' which is 'required' for the 'development', 'production' or 'use' of goods the sale, supply, transfer or export of which is prohibited in Part A (Goods) below, is prohibited in accordance with the provisions of Part B.

The 'technology' 'required' for the 'development', 'production' or 'use' of prohibited goods remains under prohibition even when applicable to non-prohibited goods.

Prohibitions do not apply to that 'technology' which is the minimum necessary for the installation, operation, maintenance (checking) and repair of those goods which are not prohibited.

Prohibitions on 'technology' transfer do not apply to information 'in the public domain', to 'basic scientific research' or to the minimum necessary information for patent applications.
