

Commission Regulation (EU) 2017/2158 of 20 November 2017
establishing mitigation measures and benchmark levels for the reduction
of the presence of acrylamide in food (Text with EEA relevance)

Article 2

Mitigation measures

- 1 Food business operators, which produce and place on the market foodstuffs listed in Article 1(2) shall apply mitigation measures provided for in Annex I.
- 2 By way of derogation from paragraph 1, food business operators producing foodstuffs listed in Article 1(2), which perform retail activities, and/or directly supply only local retail establishments shall apply mitigation measures provided for in Part A of Annex II.
- 3 Food business operators referred to in paragraph 2 which operate in facilities under direct control and that are operating under one trademark or commercial license, as a part of, or franchise of, a larger, interconnected operation and under the instructions of the food business operator that centrally supplies the foodstuffs referred to in Article 1(2), shall apply additional mitigation measures set out in Part B of Annex II.
- 4 When the benchmark levels are exceeded, food business operators shall review the mitigation measures applied and adjust processes and controls with the aim to achieve levels of acrylamide as low as reasonable achievable below the benchmark levels set out in Annex IV. Food business operators shall hereby take into account the safety of foodstuffs, specific production and geographic conditions or product characteristics.
