

Commission Regulation (EU) 2017/2158 of 20 November 2017
establishing mitigation measures and benchmark levels for the reduction
of the presence of acrylamide in food (Text with EEA relevance)

Article 5

Review of the levels of acrylamide

The benchmark levels of acrylamide presence in foodstuffs set out in Annex IV shall be reviewed by the Commission every three years and the first time within three years after the entry into application of this Regulation.

The review of the benchmark levels shall be based on the occurrence data of acrylamide from the Authority's database, related to the review period and provided to the Authority's database by competent authorities and food business operators.
