To be indicated by the [^{F4}relevant authority].

Textual Amendments

- F4** Words in Annex 1 Point 1 substituted (31.12.2020 immediately before IP completion day) by The Agriculture (Payments) (Amendment, etc.) (EU Exit) Regulations 2020 (S.I. 2020/1445), regs. 1(2)(b), 22(28)(b)(ii)

Textual Amendments

- F3** Word in Annex 1 Point 1 omitted (31.12.2020 immediately before IP completion day) by virtue of The Agriculture (Payments) (Amendment, etc.) (EU Exit) Regulations 2020 (S.I. 2020/1445), regs. 1(2)(b), 22(28)(b)(i)

2. Analysis of the situation in terms of strengths and weaknesses and potential for development, the strategy chosen to meet them and the justification of the priorities chosen as referred to in Article 36(2)(a) and (b) of Regulation (EU) No 1308/2013.

2.1. Analysis of the situation

Description of the current situation of the fruit and vegetable sector using quantified data, highlighting strengths and weaknesses, disparities, needs and gaps and potential for development on the basis of the relevant indicators set out in Table 4.1 of Annex II. This description shall concern at least:

- the performances of the fruit and vegetables sector: strengths and weaknesses of the sector, competitiveness and the potential for development of the producer organisations;
- the environmental effects (impacts, pressures and benefits) of the fruit and vegetables production, including key trends.

2.2. The strategy chosen to meet strengths and weaknesses

Description of the key areas where intervention is expected to bring the maximum value added:

Status: Point in time view as at 31/12/2020.

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2017/892. (See end of Document for details)

- relevance of the objectives set for the operational programmes, of the expected results and the extent to which they can be realistically achieved;
- internal coherence of the strategy, existence of mutually reinforcing interactions and possible conflicts or contradictions between the operational objectives of different actions selected;
- complementarity and consistency of the actions selected with other national or regional actions, and with activities supported through [^{F5}public] funds, in particular with the rural development and promotion programmes;
- expected results and impact compared to the baseline situation and their contribution to [^{F6}the constituent nation's] objectives.

3. Objectives of operational programmes and performance indicators as referred to in Article 36(2)(c) of Regulation (EU) No 1308/2013

Description of the types of actions selected as eligible for support (non-exhaustive list), the objectives pursued, the verifiable targets and the indicators that allow the progress towards achievement of the objectives, efficiency and effectiveness to be assessed.

3.1. Requirements concerning all or several types of actions

[^{F8}The relevant authorities] shall ensure that all the actions included in the ^{F9}... strategy and in the ^{F9}... framework [^{F10}referred to in Article 36 of Regulation (EU) No 1308/2013] are verifiable and controllable. Where the assessment during the implementation of the operational programmes reveals that the requirements of verifiability and controllability are not met, the actions concerned shall be adjusted accordingly or deleted. ^{F11}... Environmental actions shall comply with the requirements set out in Article 33(5) of Regulation (EU) No 1308/2013.

Textual Amendments

MONITORING OF OPERATIONAL PROGRAMMES

The indicators related to actions undertaken by recognised producer organisations [^{F73}and associations] of producer organisations ^{F74}... ^{F75}... under an operational programme ^{F76}... does not necessarily capture all the factors that may intervene and affect the outputs, results and impact of an operational programme ^{F76}... . In this context, the information provided by the indicators should be interpreted in the light of quantitative and qualitative information relating to other key factors contributing to the success or failure of the [^{F77}programme's] implementation.

a	Including non-productive investments linked to the achievement of commitments undertaken under the operational programme.					
b	Refers to a set of detailed obligations concerning the production methods (a) the respect of which is subject to independent inspection, and (b) that result in a final product the quality of which (i) goes significantly beyond the normal commercial standards as regards public health, plant health or environmental standards and (ii) responds to current and foreseeable market opportunities. It is proposed that the main types of 'quality schemes' cover the following: (a) certified organic production; (b) protected geographical indications and protected designations of origin, (c) certified integrated production, (d) private certified product quality schemes.					
c	Protected designations of origin/Protected Geographical Indications/Traditional Speciality Guaranteed					
d	Each day of a promotion/communication campaign counts as one action.					
e	'At risk of soil erosion' shall mean any sloping plot with an inclination higher than 10 %, whether or not anti-erosion measures (e.g. soil cover, crop rotation, etc.) have been taken. Where the relevant information is available, [^{F80} the appropriate authority] may instead use the following definition: 'At risk of soil erosion' shall mean any plot with a predicted loss of soil exceeding the rate of natural soil formation, whether or not anti-erosion measures (e.g. soil cover or crop rotation) have been taken.					
f	Actions relating to the setting up/refilling of different mutual funds count as different actions.					
g	Market withdrawal of the same product in different periods of the year and market withdrawals of different products count as different actions. Each market withdrawal operation for a given product counts as one action.					
h	Green-harvesting and non-harvesting of different products count as different actions. Green harvesting and non-harvesting of the same product count as one action, regardless of the number of days they take, the number of holdings participating and the number of plots or hectares concerned.
