

Commission Implementing Regulation (EU) 2017/989 of 8 June 2017 correcting and amending Implementing Regulation (EU) 2015/2447 laying down detailed rules for implementing certain provisions of Regulation (EU) No 952/2013 of the European Parliament and of the Council laying down the Union Customs Code

COMMISSION IMPLEMENTING REGULATION (EU) 2017/989

of 8 June 2017

correcting and amending Implementing Regulation (EU) 2015/2447 laying down detailed rules for implementing certain provisions of Regulation (EU) No 952/2013 of the European Parliament and of the Council laying down the Union Customs Code

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 952/2013 of the European Parliament and of the Council of 9 October 2013 laying down the Union Customs Code⁽¹⁾ (the Code), and in particular Articles 8, 11, 17, 25, 58, 63, 66, 76, 100, 132, 152, 157, 161, 165, 169, 181, 232, 236, 266, 268, 273 and 276 thereof,

Whereas:

- (1) Following the publication of Commission Implementing Regulation (EU) 2015/2447⁽²⁾, errors of different nature have been detected and need to be corrected. Correcting some of those errors requires amending certain other related provisions of that Implementing Regulation.
- (2) Recital 61 of Implementing Regulation (EU) 2015/2447 should correctly reflect the outcome of the vote on that Implementing Regulation in the Customs Code Committee, which did not deliver any opinion within the time limit laid down by its chair.
- (3) The wording of the following provisions of Implementing Regulation (EU) 2015/2447 should be corrected in order to make the provisions clearer but without introducing any new element: Articles 67(4), 87 (title), 102, 137 and 138, 143(2), 214, 220 and, 230(2), and Annex 21-01.
- (4) In a number of provisions of and Annexes to Implementing Regulation (EU) 2015/2447, the references to other legal provisions, including the reference to the provisions of the Code being implemented, should be corrected or be made more precise.
- (5) Article 67(1) of Implementing Regulation (EU) 2015/2447 should be corrected to include re-consignors as economic operators that can obtain the status of approved exporters, in line with Article 69 of that Implementing Regulation, which allows re-consignors to replace origin declarations made out by approved exporters by replacement of proofs of origin.

- (6) In order to ensure consistency with Article 55(4) and (6) of Commission Delegated Regulation (EU) 2015/2446⁽³⁾, the third subparagraph of Article 92(1) of Implementing Regulation (EU) 2015/2447 should be deleted.
- (7) In Article 110(3) of Implementing Regulation (EU) 2015/2447, on the subsequent verification of certificates of origin Form A and invoice declarations, Turkey is mentioned, together with Norway and Switzerland, as one of the countries to which request for subsequent verification may be sent. However, as the use of replacement proofs of origin is not provided for between the Union and Turkey, no request for subsequent verification of replacement proofs of origin issued or made out in Turkey will be sent to that country. Therefore, the reference to Turkey should be deleted.
- (8) Article 199(1)(g) of Implementing Regulation (EU) 2015/2447 should be corrected in order to complete the list of admissible means of proving the Union status of excise goods moving under a duty suspension arrangement in accordance with Council Directive 2008/118/EC⁽⁴⁾, by introducing a reference to the electronic administrative document and to the business continuity procedure referred to, respectively, in Articles 21 and 26 of that Directive. Those references were omitted by mistake.
- (9) Article 306(2) of Implementing Regulation (EU) 2015/2447 should be corrected. The provision should state that the Master Reference Number (MRN) of the transit declaration must be presented at the customs office of destination, and not at each customs office of transit, as the current wording of the Article wrongly states. The reference to the relevant provision of Delegated Regulation (EU) 2015/2446 should also be corrected. It should be made to the second paragraph of Article 184 of that Delegated Regulation instead of to Article 184(2).
- (10) The mistakes and omissions detected after the publication of Implementing Regulation (EU) 2015/2447 in Annexes A and B to that Implementing Regulation should be corrected.
- (11) Annex 12-01 to Implementing Regulation (EU) 2015/2447 should be corrected in order to ensure a harmonised format of the same data element throughout that Annex.
- (12) An Annex 12-03, determining the design of the tags to be affixed on hold baggage checked in a Union airport, should be included among the Annexes to Implementing Regulation (EU) 2015/2447, as it is mentioned in Article 44 of that Implementing Regulation but was mistakenly omitted.
- (13) In Annex 22-13 to Implementing Regulation (EU) 2015/2447, a grammatical error in the Hungarian version of the invoice declaration should be corrected.
- (14) In addition to the corrections, certain provisions need to be amended taking into account the changes to the related legal framework which occurred after the adoption of that Implementing Regulation. Thus, Article 2 of Implementing Regulation (EU) 2015/2447 should be aligned with Article 2 of Delegated Regulation (EU) 2015/2446 as amended by Delegated Regulation (EU) 2016/341⁽⁵⁾.
- (15) The procedure now laid down in Articles 57, 58 and 59 of Implementing Regulation (EU) 2015/2447 was originally created in 1989 in order to allow for a smooth and

harmonised implementation of non-preferential country-allocated tariff quota. Those Articles correspond in essence to Articles 55 to 65 of Commission Regulation (EEC) No 2454/93⁽⁶⁾, which was applicable until 30 April 2016. Numerous Union Regulations opening non-preferential tariff quotas refer to Articles 56 to 65 of Regulation (EEC) No 2454/93. A correlation rule should therefore be introduced in Article 57 in respect of the references to the certificates of origin issued in accordance with Articles 55 to 65 of Regulation (EEC) No 2454/93 in other Regulations, avoiding having to separately amend each of those Regulations.

- (16) The text of Article 62 of Implementing Regulation (EU) 2015/2447 currently allows only for long term supplier's declarations to cover either a period in the past or in the future. The provision should be amended in order to introduce the possibility that a single long-term supplier's declaration covers both goods that have already been supplied by the date of issue of the declaration and goods that will be supplied afterwards. In order to make the rule clearer and easier to apply, the earliest and latest start date of the period covered by the long-term supplier's declaration should be set by reference to the date of issue of that declaration. Thus, although the maximum period covered by a declaration should be set at 24 months, this period should not go more than 12 months in the past or start later than 6 months after the issue date.
- (17) Article 68 of Implementing Regulation (EU) 2015/2447 should be amended to make clear that, in the context of preferential arrangements with a third country where the Registered Exporter system (REX system) is applied, exporters completing documents on origin of consignments over EUR 6 000 should be registered exporters, unless the relevant preferential arrangements states a different value threshold. However, until the exporter is registered in the REX system and in any case no later than 31 December 2017, the exporter may continue to use his approved exporter number on documents on origin, without the need for a signature, for free trade agreements with third countries where otherwise the exporter would need to be registered.
- (18) Under the current text of Article 69 of Implementing Regulation (EU) 2015/2447, a registered exporter is not entitled to replace proofs of origin other than statements on origin with replacement statements on origin. However, as the long term objective is to replace the Approved Exporter system with the REX system, registered exporters should be able to replace with replacement statements on origin the same type of proofs of origin as approved exporters pursuant to Article 69(2) of that Implementing Regulation.
- (19) In Article 73 of Implementing Regulation (EU) 2015/2447, paragraph 3 should be added, requiring the Commission to send to beneficiary countries at their request specimen impression of stamps used in the Member States. That obligation is necessary for a smooth functioning of the rules on regional cumulation.
- (20) Article 80(4) of Implementing Regulation (EU) 2015/2447 should impose on the competent authorities of a beneficiary country or the customs authorities of the Member States the obligation to inform the registered exporter of modifications in his registration data in accordance with data protection rules.

- (21) In order to ensure coherence among the rules applying in the Union during the transitional period until the application of the REX system, Article 85 of Implementing Regulation (EU) 2015/2447 should provide until when approved exporters that are not yet registered in the REX system may make out invoice declarations for the purposes of bilateral cumulation. That date should be set to 31 December 2017, which is the end date for the Member States customs authorities to issue movement certificates EUR.1 and therefore the end of that transitional period.
- (22) Contrary to Norway and Switzerland, Turkey will not apply the REX system from 1 January 2017. Article 86(3) of Implementing Regulation (EU) 2015/2447 should therefore be amended to state that the registration for exporters in beneficiary countries will only be valid for the GSP scheme of Turkey when that country starts applying the REX system. In order to make the date of application of the REX system by Turkey known to the public, the Commission should be required to publish that date in the *Official Journal of the European Union*.
- (23) Article 158 of Implementing Regulation (EU) 2015/2447, establishing the level of the comprehensive guarantee, should be amended in order to provide more clarity as regards the basis for applying the reduction of comprehensive guarantees covering the import or export duties and the other charges. Article 158 should clearly distinguish the reduction that is provided in paragraph 3 of Article 95 of the Code to all Authorised Economic Operators with respect to the duties and charges that have been incurred, from the reductions provided in paragraph 2 of Article 95 of the Code. The latter are applicable with respect to the duties and charges that may be incurred, under the conditions in Article 84 of Delegated Regulation (EU) 2015/2446.
- (24) To prevent that an individual guarantee voucher is used following the revocation or cancellation of an undertaking provided for that voucher, a provision should be inserted in Article 161 of Implementing Regulation (EU) 2015/2447 stating that vouchers issued prior to the day of the revocation or cancellation of that undertaking may no longer be used for placing goods under the Union transit procedure.
- (25) As required by Article 8(3) of the Customs Convention on the International Transport of Goods under cover of TIR carnets⁽⁷⁾, including any subsequent amendments thereto (TIR Convention), Article 163 of Implementing Regulation (EU) 2015/2447 determines the limit up to which any guaranteeing association in the Union customs territory may become liable in relation to a particular TIR operation. Article 163 should be amended as a result of the announcement by the International Road Transport Union (IRU) that its global insurer has increased, for all Contracting Parties to the TIR Convention, the amount of covered guarantee from EUR 60 000 to EUR 100 000 per TIR carnet.
- (26) Article 231(11) of Implementing Regulation (EU) 2015/2447 should be amended to clarify that only the specific exchanges of information on controls laid down in paragraphs 5 and 6 of that Article are suspended until the relevant electronic systems are available. While the relevant electronic systems are not available, the obligation laid down in paragraphs 4 and 5 of Article 179 of the Code to perform and exchange information on controls should be fulfilled in accordance with Article 18 of Delegated Regulation (EU) 2016/341.

- (27) Article 329(8) of Implementing Regulation (EU) 2015/2447 should be deleted. It provides for certain exceptions from the general rule determining the customs office of exit for the export of goods that are subsequently placed under a transit procedure. Due to a renumbering error, Article 329(8) mistakenly refers to paragraph 4 of that same Article but the intention was never to provide for an exception for the goods that are loaded onto a vessel that is not assigned to a regular shipping service. To the extent that Directive 2008/118/EC applies where excise goods under suspension of excise duty are to be taken out of the Union territory, Article 329(8) of Implementing Regulation (EU) 2015/2447 should not refer to those goods either. Finally, no specific rule is needed to determine the customs office of exit where goods subject to export formalities with a view to refunds being granted on export under the common agricultural policy are released for export and then placed under a transit procedure. The reason is that, pursuant to Article 189 of Delegated Regulation (EU) 2015/2446, those goods can only be placed under an external transit procedure, which means that they lose their customs status as Union goods and become subject to strict customs supervision.
- (28) Currently, there are differences in how individual Member States treat exports followed by transit. In some Member States the exit confirmation is provided immediately upon placement of the goods in the transit procedure whereas in other Member States it is done only after the transit procedure has been discharged. The difference occurs both in external transit and other than external transit cases. Pursuant to Article 333(7) of Implementing Regulation (EU) 2015/2447, during the transitional period until the deployment of the UCC Automated Export System (AES), the customs office of exit may inform the customs office of export of the exit of the goods when those goods are placed under a transit procedure other than external transit until the day following the day in which the transit procedure has been discharged. That possibility should also be extended to goods placed under an external transit procedure so that, during the transitional period, the Member States in which the processes have been automated are allowed to continue their practice by issuing an exit confirmation either upon placement under a transit procedure or upon discharge of the transit procedure.
- (29) In order to facilitate the implementation in the respective electronic systems of the formats and codes of certain data requirements used in the context of declarations and notifications of Implementing Regulation (EU) 2015/2447, Annex B to that Implementing Regulation should be amended.
- (30) The printing instructions in Annex 22-02 and the introductory notes in Annex 22-14 to Implementing Regulation (EU) 2015/2447 should be amended to clarify until when the old versions of the forms may also be used. Those versions should in any case cease to be used after 1 May 2019.
- (31) In Annex 22-06 to Implementing Regulation (EU) 2015/2447, the additional contact details to be provided by economic operators applying to become registered exporters in Box 2 of the application form should be made optional because Box 1 of the application form already requires the provision of basic contact details. Besides, there should be a possibility not to sign or not to stamp the application form if the exporter and the customs authorities are electronically authenticated.

- (32) In Annexes 32-01, 32-02 and 32-03 to Implementing Regulation (EU) 2015/2447, the text of a guarantor's undertaking should take account of the accession by Serbia to the Common Transit Convention⁽⁸⁾ on 1 February 2016. Serbia should also be added to the list of the countries concerned in the respective boxes of the comprehensive guarantee certificate and the guarantee waiver certificate in Annex 72-04 to that Implementing Regulation.
- (33) In Annex 72-04 to Implementing Regulation (EU) 2015/2447, in order to ensure business continuity in the operation of the Union transit procedure, several provisions related to the validity of the guarantees should be introduced: a provision on the validity of the comprehensive guarantee certificate and of the guarantee waiver certificate; a provision forbidding the use of certificates if the authorisation to use a comprehensive guarantee was revoked or if an undertaking provided in the case of a comprehensive guarantee was revoked and cancelled; and a provision on the communication by the Member States of the means of identification of valid certificates.
- (34) The corrections and amendments to Implementing Regulation (EU) 2015/2447 laid down in this Regulation should enter into force as soon as possible in order to avoid any legal uncertainty on the correct version of the provisions in force.
- (35) The measures provided for in this Regulation are in accordance with the opinion of the Customs Code Committee,

(40) In Article 331, paragraph 3 becomes paragraph 2.

(41) Article 345(4) is replaced by the following:

4. By derogation from paragraph 1, Single Authorisations for Simplified Procedures (SASP) issued in accordance with Regulation (EEC) No 2454/93 and still valid on 1 May 2016 shall remain valid until the respective dates of deployment of the CCI and AES referred to in the Annex to Implementing Decision 2016/578/EU.

(42) In Annex A, Title I ‘Formats of the common data requirements for applications and decisions’ is corrected as follows:

(a) in the row corresponding to data element ‘2/4 Attached documents’, the wording in the columns ‘D.E. format (Type/length)’ and ‘Cardinality’ is replaced by the following:

<i>Total number of documents:</i> n..3 +	1x
<i>Document type:</i> an..70 + <i>Document identifier:</i> an..35 + <i>Document date:</i> n8 (yyyymmdd)	999x;

(b) in the row corresponding to data element ‘5/3 Goods quantity’, the wording in the column ‘Cardinality’ is replaced by the following:

999x

As regards decisions relating to binding information: 1x;

(c) in the row corresponding to data element ‘7/2 Type of customs procedures’, in the column ‘Notes’, the following paragraph is added:

Where the authorisation is intended to be used for the operation of customs warehouses, the following codes shall be used:

- code ‘XR’ for a public customs warehouse type I,
- code ‘XS’ for a public customs warehouse type II,
- code ‘XU’ for a private customs warehouse..

(43) In Annex B, Title I ‘Formats and cardinality of the common data requirements for declarations and notifications’ is corrected as follows:

Article 68

Registration of exporters outside the framework of the GSP scheme of the Union(Article 64(1) of the Code)

- 1 Where the Union has a preferential arrangement which requires an exporter to complete a document on origin in accordance with the relevant Union legislation, such a document may be completed only by an exporter who is registered for that purpose by the customs authorities of a Member State. The identity of such exporters shall be recorded in the Registered Exporter System (REX) referred to in the Annex to Implementing Decision (EU) 2016/578. Subsections 2 to 9 of this Section shall apply *mutatis mutandis*.
- 2 For the purposes of this Article, Articles 11(1)(d), 16, 17 and 18 of Delegated Regulation (EU) 2015/2446 concerning the conditions for accepting applications and the suspension of decisions and Articles 10 and 15 of this Regulation shall not apply. Applications and decisions related to this Article shall not be exchanged and stored in an electronic information and communication system as laid down in Article 10 of this Regulation.
- 3 The Commission shall provide the third country with which the Union has a preferential arrangement with the addresses of the customs authorities responsible for the verification of a document on origin completed by a registered exporter in the Union in accordance with this Article.
- 4 Notwithstanding paragraph 1, where the applicable preferential arrangement does not specify the value threshold up to which an exporter who is not a registered exporter may complete a document on origin, the value threshold shall be EUR 6 000 for each consignment.
- 5 Notwithstanding paragraph 1, until 31 December 2017, a document on origin may be completed by an exporter who has not been registered but is an approved exporter in the Union. Article 77(7) shall apply accordingly..
- (5) Article 69(2) is replaced by the following:
2. Where the proof of origin required for the purposes of the preferential tariff measure as referred to in paragraph 1 is a movement certificate EUR.1, another governmental certificate of origin, an origin declaration or an invoice declaration, the replacement proof of origin shall be issued or made out in the form of one of the following documents:
- a a replacement origin declaration or a replacement invoice declaration made out by an approved exporter re-consigning the goods;
 - b a replacement origin declaration or a replacement invoice declaration or a replacement statement on origin made out by any re-consignor of the goods where the total value of originating products in the initial consignment to be split does not exceed the applicable value threshold;
 - c a replacement origin declaration or a replacement invoice declaration or a replacement statement on origin made out by any re-consignor of the goods where the total value of originating products in the initial consignment to be split exceeds the applicable value threshold, and the re-consignor attaches a copy of the initial proof of origin to the replacement origin declaration or replacement invoice declaration or replacement statement on origin;

- d a movement certificate EUR.1 issued by the customs office under whose control the goods are placed where the following conditions are fulfilled:
 - (i) the re-consignor is not an approved exporter nor a registered exporter and does not consent to a copy of the initial proof of origin being attached to the replacement proof;
 - (ii) the total value of the originating products in the initial consignment exceeds the applicable value threshold above which the exporter must be an approved exporter or a registered exporter in order to make out a replacement proof;
 - e a replacement statement on origin made out by a registered exporter re-consigning the goods..
- (6) In Article 73, the following paragraph 3 is added:
3. Upon request of a beneficiary country, the Commission shall send to that beneficiary country specimen impressions of the stamps used by the customs authorities of the Member States for the issue of movement certificates EUR.1..
- (7) In Article 80(4), the following sentence is added:
- The competent authorities of a beneficiary country or the customs authorities of a Member State shall inform the registered exporter of the modification of his registration data..
- (8) Article 85 is amended as follows:
- (a) paragraph 2 is replaced by the following:
 - 2. As of 1 January 2018, the customs authorities in all Member States shall cease to issue movement certificates EUR.1 and approved exporters shall cease to make out invoice declarations for the purpose of cumulation under Article 53 of Delegated Regulation (EU) 2015/2446.;
 - (b) in paragraph 3, the following second subparagraph is added:
 - Until 31 December 2017, approved exporters in Member States who are not yet registered may make out invoice declarations for the purpose of cumulation under Article 53 of Delegated Regulation (EU) 2015/2446..
- (9) Article 86(3) is replaced by the following:
3. For the purposes of exports under the GSP schemes of the Union, of Norway or of Switzerland, exporters shall only be required to be registered once.
- A registered exporter number shall be assigned to the exporter by the competent authorities of the beneficiary country with a view to exporting under the GSP schemes of the Union, Norway and Switzerland, to the extent that those countries have recognised the country where the registration has taken place as a beneficiary country.
- The first and second subparagraphs shall apply *mutatis mutandis* for the purpose of exports under the GSP scheme of Turkey once that country starts applying the REX system. The Commission shall publish in the *Official Journal of the European Union* (C series) the date on which Turkey starts applying that system..
- (10) Article 158 is replaced by the following:

Information notice

concerning the protection and processing of personal data incorporated in the system

1. Where the European Commission processes personal data contained in this application to become a registered exporter, Regulation (EC) No 45/2001 of the European Parliament and of the Council on the protection of individuals with regard to the processing of personal data by the Union institutions and bodies and on the free movement of such data will apply. Where the competent authorities of a beneficiary country or a third country implementing Directive 95/46/EC process personal data contained in this application to become a registered exporter, the relevant national provisions of the aforementioned Directive will apply.
2. Personal data in respect of the application to become a registered exporter are processed for the purpose of EU GSP rules of origin as defined in the relevant EU legislation. The said legislation providing for EU GSP rules of origin constitutes the legal basis for processing personal data in respect of the application to become a registered exporter.
3. The competent authority in a country where the application has been submitted is the controller with respect to processing of the data in the REX system.

The list of competent authorities/customs departments is published on the website of the Commission.
4. Access to all data of this application is granted through a user ID/password to users in the Commission, the competent authorities of beneficiary countries and the customs authorities in the Member States, Norway, Switzerland and Turkey.
5. The data of a revoked registration shall be kept by the competent authorities of the beneficiary country and the customs authorities of Member States in the REX system for ten calendar years. This period shall run from the end of the year in which the revocation of a registration has taken place.
6. The data subject has a right of access to the data relating to him that will be processed through the REX system and, where appropriate, the right to rectify erase or block data in accordance with Regulation (EC) No 45/2001 or the national laws implementing Directive 95/46/EC. Any requests for right of access, rectification, erasure or blocking shall be submitted to and processed by the competent authorities of beneficiary countries and the customs authorities of Member States responsible for the registration, as appropriate. Where the registered exporter has submitted a request for the exercise of that right to the Commission, the Commission shall forward such requests to the competent authorities of the beneficiary country or the customs authorities of Member States concerned, respectively. If the registered exporter failed to obtain his rights from the controller of data, the registered exporter shall submit such request to the Commission acting as controller. The Commission shall have the right to rectify, erase or block the data.
7. Complaints can be addressed to the relevant national data protection authority. The contact details of the national data protection authorities are available on the web-site of the European Commission, Directorate-General for Justice: (http://ec.europa.eu/justice/data-protection/bodies/authorities/eu/index_en.htm#h2-1).

Where the complaint concerns processing of data by the European Commission, it should be addressed to the European Data Protection Supervisor (EDPS) (<http://www.edps.europa.eu/EDPSWEB/>).

- (1) The present application form is common to the GSP schemes of four entities: the Union (EU), Norway, Switzerland and Turkey (“the entities”). Please note, however, that the respective GSP schemes of these entities may differ in terms of country and product coverage. Consequently, a given registration will only be effective for the purpose of exports under the GSP scheme(s) that consider(s) your country as a beneficiary country.
- (2) The indication of EORI number is mandatory for EU exporters and re-consignors. For exporters in beneficiary countries, Norway, Switzerland and Turkey, the indication of TIN is mandatory.
- (3) When applications to become a registered exporter or other exchanges of information between registered exporters and competent authorities in beneficiary countries or customs authorities in Member States are made using electronic data-processing techniques, the signature and stamp referred to in boxes 5, 6 and 7 shall be replaced by an electronic authentication.

2. The undersigned undertakes to pay upon the first application in writing by the competent authorities of the countries referred to in point 1 and without being able to defer payment beyond a period of 30 days from the date of application the sums requested unless he or she or any other person concerned establishes before the expiry of that period, to the satisfaction of the customs authorities, that the special procedure other than the end-use procedure has been discharged, the customs supervision of end-use goods or the temporary storage has ended correctly or, in case of the operations other than special procedures and temporary storage, that the situation of goods has been regularised.

At the request of the undersigned and for any reasons recognized as valid, the competent authorities may defer beyond a period of 30 days from the date of application for payment the period within which he or she is obliged to pay the requested sums. The expenses incurred as a result of granting this additional period, in particular any interest, must be so calculated that the amount is equivalent to what would be charged under similar circumstances on the money market or financial market in the country concerned.

3. This undertaking shall be valid from the day of its approval by the office of guarantee. The undersigned shall remain liable for payment of any debt incurred during the customs operation covered by this undertaking and commenced before any revocation or cancellation of the guarantee took effect, even if the demand for payment is made after that date.
