

Commission Implementing Regulation (EU) 2018/2041 of 17 December 2018 concerning the classification of certain goods in the Combined Nomenclature

Changes to legislation: There are currently no known outstanding effects for the
Commission Implementing Regulation (EU) 2018/2041. (See end of Document for details)

ANNEX

Description of the goods (1)	Classification(CN-code) (2)	Reasons (3)
<p>Cable connectors ('male or female type') for a voltage not exceeding 1 000 V, made of copper. The article has either a plug (so-called male type connector) or a socket (so-called female type connector) on one side and on the other side a contact device in the form of a clip shielded with a layer of insulating material. The article is used to connect wires or cables other than coaxial cables. The article makes the connection by plugging the 'male connector' into the 'female connector' without using any tools. See the image^a</p>	<p>8536 69 90</p>	<p>Classification is determined by general rules 1 and 6 for the interpretation of the Combined Nomenclature and by the wording of CN codes 8536, 8536 69 and 8536 69 90. The article presents the objective characteristics of a plug ('male type connector') or a socket ('female type connector') fitted with another contact device (see also Harmonized System Explanatory Notes to heading 8536 group (III) letter (A), point (1), and also Explanatory Notes to the Combined Nomenclature to subheadings 8536 69 10 to 8536 69 90). Therefore its classification as other connections and contact elements for wire and cables under subheading 8536 90 10 is excluded. Consequently, it is to be classified under CN code 8536 69 90 as other plugs and sockets.</p>
