

Commission Implementing Regulation (EU) 2018/2067 of
19 December 2018 on the verification of data and on the accreditation
of verifiers pursuant to Directive 2003/87/EC of the European
Parliament and of the Council (Text with EEA relevance)

CHAPTER II

VERIFICATION

Article 21

Site visits

1 At one or more appropriate times during the verification process, the verifier shall conduct a site visit in order to assess the operation of measuring devices and monitoring systems, to conduct interviews, to carry out the activities required by this Chapter as well as to gather sufficient information and evidence enabling it to conclude whether the operator's or aircraft operator's report is free from material misstatements.

2 The operator or aircraft operator shall provide the verifier access to its sites.

3 For the purposes of verifying the operator's emission report, the verifier shall also use a site visit to assess the boundaries of the installation as well as the completeness of source streams and emission sources.

^{F1}4

5 For the purposes of verifying the operator's emission report, ^{F2}... the verifier shall decide, based on the risk analysis, whether visits to additional locations are needed, including where relevant parts of data flow activities and control activities are carried out in other locations such as company headquarters and other off-site offices.
