

Commission Implementing Regulation (EU) 2018/764 of 2 May 2018
on the fees and charges payable to the European Union Agency for
Railways and their conditions of payment (Text with EEA relevance)

COMMISSION IMPLEMENTING REGULATION (EU) 2018/764
of 2 May 2018

on the fees and charges payable to the European Union
Agency for Railways and their conditions of payment

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/796 of the European Parliament and of the Council of 11 May 2016 on the European Union Agency for Railways and repealing Regulation (EC) No 881/2004⁽¹⁾, and in particular Article 80 thereof,

Whereas:

- (1) The revenue of the European Union Agency for Railways ('the Agency') consists of a contribution from the Union and the fees and charges paid by applicants for the processing of applications for certificates, authorisations and decisions for approval, handling of appeals and other services provided by the Agency in accordance with Article 64 of Regulation (EU) 2016/796.
- (2) The fees and charges payable to the Agency should be set in a transparent, fair and uniform manner, in particular with the objective of simplification. They should not result in the imposition of unnecessary financial burden on enterprises and should not jeopardise the competitiveness of the European railway sector.
- (3) The calculation of fees and charges should take account of the cost of staff and external experts involved in the processing of applications, where relevant. Account should equally be taken of the costs of supporting services and activities related to the processing of applications, as well as any other operational costs in order to provide those services. These costs should be related and proportionate to the relevant activities and they should be non-discriminatory.
- (4) The fees and charges levied by the Agency should cover the full costs of the services rendered by the Agency.
- (5) The time spent by the Agency to provide those services should be invoiced at an hourly rate, until the maturity of the system allows for a regime of fixed rates. The fees and charges of the Agency should be set at such a level as to avoid a deficit or a significant accumulation of surplus, in accordance with Regulation (EU) 2016/796.

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2018/764. (See end of Document for details)

- (6) The amounts payable should not depend on where the applicant is established, or the language used for the application. Therefore, the travel and translation costs incurred in relation to the part of the application processed by the Agency should be aggregated and divided among all applications.
- (7) Fees and charges should be established to meet the specific needs of small and medium-sized enterprises. Undertakings should have the possibility to split payment into several instalments if needed.
- (8) Applicants have been secured the right to appeal within the Regulation (EU) 2016/796 and should be able to seek relief and exercise this right against decisions of the Agency. The payment of the fees and charges for an appeal against decisions of the Agency should therefore not be a prerequisite for an appeal to be admissible. Fees and charges should only be levied for the processing of appeals in cases where the appeal is dismissed.
- (9) In line with good project management, the applicant should have the possibility to request an estimate. The applicant should be informed, as far as possible, of the likely amount to be paid and the way in which payment should be made. Time limits for the payment of fees and charges should be established.
- (10) Information on the fees and charges established in this Regulation should be publicly available. Any future revisions of the fees levied by the Agency should be based on a transparent evaluation of the costs of the Agency and the relevant costs resulting from the tasks carried out by the NSAs.
- (11) The measures provided for in this Regulation are in accordance with the opinion of the Committee in line with Article 81 of Regulation (EU) 2016/796,

HAS ADOPTED THIS REGULATION:

Article 1

 - b the relevant costs of the NSAs resulting from the processing of the national part of the application.
- 2 The Agency shall apply an hourly rate of EUR 130 for the purposes of paragraph 1(a).

Article 4

Estimates of fees and charges

1 The Agency shall, at the request of the applicant, issue a non-binding estimate of the amount of the fees and charges related to the application or request for services and provide information on when the invoices will be issued.

The NSAs which are involved in the processing of an application shall provide a non-binding estimate of their costs as referred to in Article 3(1)(b) to the Agency to be included in the estimate issued by the Agency.

2 During the processing of an application, the Agency and the NSAs shall monitor their costs. At the request of the applicant, when costs risk exceeding the estimate by more than 15 %, the Agency shall inform the applicant thereof.

3 Where the processing of an application or a service lasts longer than one year, the applicant may request a new estimate.

3 Where the Agency has evidence that the applicant's financial ability is at risk, it may reject an application unless the applicant provides a bank guarantee or secured deposit.

4 The Agency may reject a new application, where the applicant has not fulfilled its payment obligations arising out of previous authorisation, certification and approval tasks or services performed by the Agency, unless the applicant pays for the outstanding amounts due for those authorisation, certification and approval tasks or services provided.

5 The Agency shall take all appropriate legal steps to ensure full payment of invoices issued. To this end, NSAs which have submitted a statement of cost for reimbursement shall support the Agency in this process.

Article 7

 - b annually report on the total revenue and expenditure attributable to the activities subject to fees and charges as well as the cost structure and performance.
- 2 If at the end of a financial year the overall revenue from fees and charges exceeds the overall cost of the activities subject to fees and charges, the excess shall be kept in a budgetary reserve and shall be used to deal with surpluses or deficits in accordance with the Agency's Financial Regulation.
- 3 The sustainability of income from activities subject to fees and charges shall be ensured.

Article 10

Evaluation and revision
