

Commission Delegated Regulation (EU) 2019/2035 of 28 June 2019 supplementing Regulation (EU) 2016/429 of the European Parliament and of the Council as regards rules for establishments keeping terrestrial animals and hatcheries, and the traceability of certain kept terrestrial animals and hatching eggs (Text with EEA relevance)

PART III

TRACEABILITY OF KEPT TERRESTRIAL ANIMALS AND HATCHING EGGS

TITLE V

TRACEABILITY OF KEPT DOGS, CATS AND FERRETS, CAMELID AND CERVID ANIMALS, CAPTIVE BIRDS AND TERRESTRIAL ANIMALS IN TRAVELLING CIRCUSES AND ANIMAL ACTS

CHAPTER 1

Traceability of kept dogs, cats and ferrets

Section 1

Means of identification

Article 70

Obligations on operators keeping dogs, cats and ferrets as regards the means and methods of identification of those animals, their application and use

Operators keeping dogs, cats and ferrets shall ensure that:

- (a) those animals are individually identified by an injectable transponder as listed in point (e) of Annex III when they are moved to another Member State;
- (b) the injectable transponder intended for implantation in the animal is approved by the competent authority;
- (c) they provide to the competent authority and where necessary to other operators the reading device which enables at any time the verification of the individual identification of the animal where the implanted injectable transponder has not been approved by the competent authority.

Changes to legislation:

There are currently no known outstanding effects for the Commission Delegated Regulation (EU) 2019/2035, Article 70.
