Article 9

Neighbouring coastal states

- 1 Coastal Member States may seek cooperation with neighbouring Coastal States to initiate a real time closure using sample results originating from both sides of the border.
- 2 If the area to be closed straddles the territory and the waters under the sovereignty or jurisdictions of two or more Coastal Member States, the Coastal Member State shall without delay inform the neighbouring Coastal Member State and third countries of the findings and the decision to close the relevant area. The neighbouring Coastal State may then consider a closure in its waters.
- 3 A coastal Member State may invite neighbouring Coastal States to take samples on its behalf in waters under their sovereignty or jurisdiction.
