

Commission Implementing Regulation (EU) 2019/898 of 29 May 2019 concerning the authorisation of the preparation of eugenol as a feed additive for chickens for fattening (holder of authorisation Lidervet SL) (Text with EEA relevance)

COMMISSION IMPLEMENTING REGULATION (EU) 2019/898

of 29 May 2019

concerning the authorisation of the preparation of eugenol as a feed additive for chickens for fattening (holder of authorisation Lidervet SL)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition<sup>(1)</sup>, and in particular Article 9(2) thereof,

Whereas:

- (1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting such authorisation.
- (2) In accordance with Article 7 of Regulation (EC) No 1831/2003 an application was submitted for the authorisation of eugenol. That application was accompanied by the particulars and documents required under Article 7(3) of that Regulation.
- (3) That application concerns the authorisation of the preparation eugenol as a feed additive for chickens for fattening, to be classified in the additive category ‘zootechnical additives’.
- (4) The European Food Safety Authority (‘the Authority’) concluded in its opinions of 21 October 2015<sup>(2)</sup> and 4 July 2017<sup>(3)</sup> that, under the proposed conditions of use, eugenol does not have an adverse effect on animal health, human health or the environment. The Authority concluded that the additive is considered efficacious in improving the growth of chickens for fattening. The Authority did not consider that there was a need for specific requirements of post-market monitoring. It also verified the report on the method of analysis of the feed additive in feed submitted by the Reference Laboratory set up by Regulation (EC) No 1831/2003.
- (5) The assessment of the preparation of eugenol shows that the conditions for authorisation, as provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied. Accordingly, the use of eugenol should be authorised as specified in the Annex to this Regulation.
- (6) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

---

**Changes to legislation:** There are currently no known outstanding effects for the  
Commission Implementing Regulation (EU) 2019/898. (See end of Document for details)

---

HAS ADOPTED THIS REGULATION:

*Article 1*

The preparation specified in the Annex, belonging to the additive category ‘zootechnical additives’ and to the functional group ‘other zootechnical additives’, is authorised as an additive in animal nutrition, subject to the conditions laid down in that Annex.

*Article 2*

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 29 May 2019.

*For the Commission*

*The President*

Jean-Claude JUNCKER

*Changes to legislation:* There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2019/898. (See end of Document for details)
