

Regulation (EU) 2019/943 of the European Parliament and of the Council of 5 June 2019 on the internal market for electricity (recast) (Text with EEA relevance)

CHAPTER I

SUBJECT MATTER, SCOPE AND DEFINITIONS

- Article 1 Subject matter and scope
- Article 2 Definitions

CHAPTER II

GENERAL RULES FOR THE ELECTRICITY MARKET

- Article 3 Principles regarding the operation of electricity markets
- Article 4 Just transition
- Article 5 Balance responsibility
- Article 6 Balancing market
- Article 7 Day-ahead and intraday markets
- Article 8 Trade on day-ahead and intraday markets
- Article 9 Forward markets
- Article 10 Technical bidding limits
- Article 11 Value of lost load
- Article 12 Dispatching of generation and demand response
- Article 13 Redispatching

CHAPTER III

NETWORK ACCESS AND CONGESTION MANAGEMENT

SECTION 1

Capacity Allocation

- Article 14 Bidding zone review
- Article 15 Action plans
- Article 16 General principles of capacity allocation and congestion management
- Article 17 Allocation of cross-zonal capacity across timeframes

SECTION 2

Network charges and congestion income

- Article 18 Charges for access to networks, use of networks and reinforcement
- Article 19 Congestion income

Changes to legislation: Regulation (EU) 2019/943 of the European Parliament and of the Council is up to date with all changes known to be in force on or before 05 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

CHAPTER IV

RESOURCE ADEQUACY

Article 20	Resource adequacy in the internal market for electricity
Article 21	General principles for capacity mechanisms
Article 22	Design principles for capacity mechanisms
Article 23	Methodology for resource adequacy assessment
Article 24	... Resource adequacy assessments
Article 25	Reliability standard
Article 26	Cross-border participation in capacity mechanisms
Article 27	Approval procedure

CHAPTER V

TRANSMISSION SYSTEM OPERATION

Article 28	European network of transmission system operators for electricity
Article 29	The ENTSO for Electricity
Article 30	Tasks of the ENTSO for Electricity
Article 31	Consultations
Article 32	Monitoring by ACER
Article 33	Costs
Article 34	Regional cooperation of transmission system operators
Article 35	Establishment and mission of regional coordination centres
Article 36	Geographical scope of regional coordination centres
Article 37	Tasks of regional coordination centres
Article 38	Cooperation within and between regional coordination centres
Article 39	Working arrangements
Article 40	Consultation procedure
Article 41	Transparency
Article 42	Adoption and review of coordinated actions and recommendations
Article 43	Management board of regional coordination centres
Article 44	Organisational structure
Article 45	Equipment and staff
Article 46	Monitoring and reporting
Article 47	Liability
Article 48	Ten-year network development plan
Article 49	Inter-transmission system operator compensation mechanism
Article 50	Provision of information
Article 51	Certification of transmission system operators

CHAPTER VI

DISTRIBUTION SYSTEM OPERATION

Article 52	European entity for distribution system operators
Article 53	Establishment of the EU DSO entity
Article 54	Principal rules and procedures for the EU DSO entity
Article 55	Tasks of the EU DSO entity
Article 56	Consultations in the network code development process

Changes to legislation: Regulation (EU) 2019/943 of the European Parliament and of the Council is up to date with all changes known to be in force on or before 05 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

Article 57 Cooperation between distribution system operators and transmission system operators

CHAPTER VII

NETWORK CODES AND GUIDELINES

Article 58 Adoption of network codes and guidelines
Article 59 Establishment of network codes
Article 60 Amendments of network codes or guidelines
Article 61 Guidelines
Article 62 Right of Member States to provide for more detailed measures

CHAPTER VIII

FINAL PROVISIONS

Article 63 New interconnectors
Article 64 Derogations
Article 65 Provision of information and confidentiality
Article 66 Penalties
Article 67 Committee procedure
Article 68 Exercise of the delegation
Article 69 Commission reviews and reports
Article 70 Repeal
Article 71 Entry into force
Signature

ANNEX I

TASKS OF REGIONAL COORDINATION CENTRES

1. Coordinated capacity calculation
 - 1.1 Regional coordination centres shall carry out the coordinated calculation of...
 - 1.2 Coordinated capacity calculation shall be performed for the day-ahead and...
 - 1.3 Coordinated capacity calculation shall be performed on the basis of...
 - 1.4 Coordinated capacity calculation shall be performed based on a common...
 - 1.5 Coordinated capacity calculation shall ensure an efficient congestion management in...
2. Coordinated security analysis
 - 2.1 Regional coordination centres shall carry out a coordinated security analysis...
 - 2.2 Security analysis shall be performed for all operational planning timeframes,...
 - 2.3 Coordinated security analysis shall be performed on the basis of...
 - 2.4 Regional coordination centres shall share the results of the coordinated...
 - 2.5 When as a result of the coordinated security analysis a...
3. Creation of common grid models
 - 3.1 Regional coordination centres shall set up efficient processes for the...

Changes to legislation: Regulation (EU) 2019/943 of the European Parliament and of the Council is up to date with all changes known to be in force on or before 05 July 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

- 3.2 Transmission system operators shall appoint one regional coordination centre to...
- 3.3 Common grid models shall be performed in accordance with the...
- 3.4 Common grid models shall include relevant data for efficient operational...
- 3.5 Common grid models shall be made available to all regional...
4. Support for transmission system operators' defence and restoration plans with...
 - 4.1 Regional coordination centres shall support the transmission system operators in...
 - 4.2 All transmission system operators shall agree on a threshold above...
 - 4.3 In providing support to the transmission system operators, the regional...
 - 4.4 Transmission system operators shall assess and take into account the...
5. Support the coordination and optimisation of regional restoration
 - 5.1 Each relevant regional coordination centre shall support the transmission system...
 - 5.2 Transmission system operators may request assistance from regional coordination centres...
 - 5.3 Regional coordination centres shall be equipped with the close to...
6. Post-operation and post-disturbances analysis and reporting
 - 6.1 Regional coordination centres shall investigate and prepare a report on...
 - 6.2 Regional coordination centres shall publish the report. ACER may issue...
7. Regional sizing of reserve capacity
 - 7.1 Regional coordination centres shall calculate the reserve capacity requirements for...
8. Facilitation of the regional procurement of balancing capacity
 - 8.1 Regional coordination centres shall support the transmission system operators in...
 - 8.2 Regional coordination centres shall support the transmission system operators of...
9. Week-ahead to at least day-ahead regional system adequacy assessments and...
 - 9.1 Regional coordination centres shall carry out week-ahead to at least...
 - 9.2 Regional coordination centres shall base the short-term regional adequacy assessments...
 - 9.3 When performing a regional system adequacy assessment, each regional coordination...
 - 9.4 Each regional coordination centre shall deliver the results of the...
10. Regional outage planning coordination
 - 10.1 Each Regional coordination centre shall carry out regional outage coordination...
 - 10.2 Each Regional coordination centre shall maintain a single list of...
 - 10.3 Each Regional coordination centre shall carry out the following activities...
11. Optimisation of inter-transmission system operator compensation mechanisms
 - 11.1 The transmission system operators in the system operation region may...
12. Training and certification of staff working for regional coordination centres...
 - 12.1 Regional coordination centres shall prepare and carry out training and...
