

Commission Implementing Regulation (EU) 2020/1094 of 24 July 2020 concerning the renewal of the authorisation of the preparation of *Saccharomyces cerevisiae* MUCL 39885 as a feed additive for sows and repealing Regulation (EC) No 896/2009 (holder of authorisation Prosol S.p.A.) (Text with EEA relevance)

COMMISSION IMPLEMENTING REGULATION (EU) 2020/1094

of 24 July 2020

concerning the renewal of the authorisation of the preparation of *Saccharomyces cerevisiae* MUCL 39885 as a feed additive for sows and repealing Regulation (EC) No 896/2009 (holder of authorisation Prosol S.p.A.)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition⁽¹⁾, and in particular Article 9(2) thereof,

Whereas:

- (1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting and renewing such authorisation.
- (2) The preparation of *Saccharomyces cerevisiae* MUCL 39885 was authorised for 10 years as a feed additive for sows by Commission Regulation (EC) No 896/2009⁽²⁾.
- (3) In accordance with Article 14(1) of Regulation (EC) No 1831/2003, an application was submitted by the holder of that authorisation for the renewal of the authorisation of the preparation of *Saccharomyces cerevisiae* MUCL 39885 as a feed additive for sows, requesting that additive to be classified in the additive category ‘zootechnical additives’. That application was accompanied by the particulars and documents required under Article 14(2) of Regulation (EC) No 1831/2003.
- (4) The European Food Safety Authority (‘the Authority’) concluded in its opinion of 14 May 2019⁽³⁾ that the applicant has provided data demonstrating that the additive complies with the conditions of authorisation. The Authority concluded that *Saccharomyces cerevisiae* MUCL 39885 does not have an adverse effect under the authorised conditions of use for the animal health, consumers, or the environment. The Authority also concluded that the additive is considered a potential skin and eye irritant and a potential skin and respiratory sensitiser. Therefore, the Commission considers that appropriate protective measures should be taken to prevent adverse effects on human health, in particular as regards the users of the additive.

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) 2020/1094. (See end of Document for details)

- (5) The assessment of *Saccharomyces cerevisiae* MUCL 39885 shows that the conditions for authorisation, as provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied. Accordingly, the authorisation of that additive should be renewed as specified in the Annex to this Regulation.
- (6) As a consequence of the renewal of the authorisation of *Saccharomyces cerevisiae* MUCL 39885 as a feed additive under the conditions laid down in the Annex to this Regulation, Regulation (EC) No 896/2009 should be repealed.
- (7) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

The authorisation of the additive specified in the Annex, belonging to the additive category ‘zootechnical additives’ and to the functional group ‘gut flora stabilisers’, is renewed subject to the conditions laid down in that Annex.

Article 2

Regulation (EC) No 896/2009 is repealed.

Article 3

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 24 July 2020.

For the Commission

The President

Ursula VON DER LEYEN

Changes to legislation: There are currently no known outstanding effects for the
Commission Implementing Regulation (EU) 2020/1094. (See end of Document for details)

ANNEX

Identification number of the additive	Name of the holder of authorisation	Additive	Composition, chemical formula, description of analytical method	Species or category of animal	Maximum age	Minimum content	Maximum content	Other provisions	End of period of authorisation
						CFU/kg of complete feedingstuff with a moisture content of 12%			

Category of zootechnical additives. Functional group: gut flora stabilisers.

4b1710	Prosol S.p.A.	Saccharomyces cerevisiae MUCL 39885	Additive composition Preparation of <i>Saccharomyces cerevisiae</i> MUCL 39885 Powder and granulated form containing a minimum of 1×10^9 CFU/g additive	Sows		$6,4 \times 10^9$		1.	16.8.2030 In the directions for use of the additive and premixture, the storage conditions and stability to heat treatment shall be indicated.		
			Characterisation of active substance Viable cells of <i>Saccharomyces cerevisiae</i> MUCL 39885							2.	For users of the additive and premixtures, feed business operators shall establish operational procedures and organisational measures
			Analytical method^a Enumeration: pour plate method using chloramphenicol glucose
