- (1) [OJ L 176, 30.6.2016, p. 21.](#)
- (2) Council Regulation (EC) No 260/2007 of 9 March 2007 imposing a definitive anti-dumping duty and collecting definitively the provisional duty imposed on imports of certain tungsten electrodes originating in the People's Republic of China ([OJ L 72, 13.3.2007, p. 1.](#))
- (3) Council Implementing Regulation (EU) No 508/2013 of 29 May 2013 imposing a definitive anti-dumping duty on imports of certain tungsten electrodes originating in the People's Republic of China following an expiry review pursuant to Article 11(2) of Regulation (EC) No 1225/2009 ([OJ L 150, 4.6.2013, p. 1.](#))
- (4) Commission Implementing Regulation (EU) 2019/1267 of 26 July 2019 imposing a definitive antidumping duty on imports of tungsten electrodes originating in the People's Republic of China following an expiry review under Article 11(2) of Regulation (EU) 2016/1036 ([OJ L 200, 29.7.2019, p. 4.](#))
- (5) [OJ L 200, 29.7.2019, p. 4, recitals 28 and 103.](#)
- (6) Commission Implementing Regulation (EU) 2019/2171 of 17 December 2019 initiating an investigation concerning possible circumvention of anti-dumping measures imposed by Implementing Regulation (EU) 2019/1267 on imports of tungsten electrodes originating in the People's Republic of China by imports of tungsten electrodes consigned from India, Laos and Thailand, whether declared as originating in India, Laos and Thailand or not, and making such imports subject to registration ([OJ L 329, 19.12.2019, p. 86.](#))
- (7) In the comparisons done in the framework of this investigation, the adjustment from the CIF level as given in the 14(6) database to the ex-works level was not done. Due to the high price of TE, the adjustment would be insignificant (in the last expiry review established in the range of EUR 0 to 1 per kg for imports from China) and would not have any material influence on the comparisons done to conclude on the evidence of dumping.
