

Changes to legislation: This version of this Regulation was derived from EUR-Lex on IP completion day (31 December 2020 11:00 p.m.). It has not been amended by the UK since then. Find out more about legislation originating from the EU as published on legislation.gov.uk. (See end of Document for details)

ANNEX

Identification number of the additive	Name of the holder of authorisation	Additive	Composition, chemical formula, description of analytical method	Species or category of animal	Maximum age	Minimum content	Maximum content	Other provisions	End of period of authorisation		
						CFU/kg of complete feedingstuff with a moisture content of 12 %					
Category of zootechnical additives. Functional group: digestibility enhancer.											
4a1704	All-Technology Ireland Ltd.	<i>Saccharomyces cerevisiae</i> CBS 493.94	Additive composition Preparation of <i>Saccharomyces cerevisiae</i> CBS 493.94 containing a minimum of: 1×10^9 CFU/g additive Powder and granulated form	Horses		$1,6 \times 10^9$		1.	26.10.2030 In the directions for use of the additive and premixture, the storage conditions and stability to heat treatment shall be indicated.		
			Characterisation of active substance Viable cells of <i>Saccharomyces cerevisiae</i> CBS 493.94							2.	For users of the additive and premixtures, feed business operators shall establish operational procedures and organisational measures
			Analytical method^a Enumeration: pour plate method using chloramphenicol								

^a Details of the analytical methods are available at the following address of the Reference Laboratory: <https://ec.europa.eu/jrc/en/eurl/feed-additives/evaluation-reports>
