COMMISSION IMPLEMENTING REGULATION (EU) 2020/2151

of 17 December 2020

laying down rules on harmonised marking specifications on single-use plastic products listed in Part D of the Annex to Directive (EU) 2019/904 of the European Parliament and of the Council on the reduction of the impact of certain plastic products on the environment

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive (EU) 2019/904 of the European Parliament and of the Council of 5 June 2019 on the reduction of the impact of certain plastic products on the environment⁽¹⁾, and in particular Article 7(2) thereof,

Whereas:

- (1) Directive (EU) 2019/904 lays down general requirements on the marking of certain single-use plastic products that are frequently inappropriately disposed of. The marking is to inform consumers of the presence of plastic in the product; of the waste disposal means to be avoided for that product; and the resulting negative impact of littering or other inappropriate means of waste disposal of the product on the environment.
- (2) Directive (EU) 2019/904 requires the Commission to establish harmonised specifications for the marking of single-use plastic products listed in Part D of its Annex. The harmonised specifications for the position, size and design of the marking should take into account the different product groups covered. The format, colours, minimum resolution and font sizes to be used should be specified in order to ensure that each element of the marking is fully visible.
- (3) The Commission evaluated existing markings identified through a stakeholder online survey and the market overview, in order to understand the assessment mechanism and the requirements behind the markings and their impact.
- (4) The Commission has consulted representative groups of consumers and has performed a field test to ascertain that the markings are effective and easily understandable and to avoid misleading information.
