

Commission Delegated Regulation (EU) 2020/687 of 17 December 2019  
supplementing Regulation (EU) 2016/429 of the European  
Parliament and the Council, as regards rules for the prevention  
and control of certain listed diseases (Text with EEA relevance)

PART II

TERRESTRIAL ANIMALS

CHAPTER II

*Disease control measures for category A diseases  
of kept terrestrial animals in the restricted zones*

*Section 3*

*Disease control measures in the surveillance zone*

*Article 48*

**Specific conditions for authorising movements of semen from  
approved germinal product establishments in the surveillance zone**

The competent authority may authorise movements of semen collected from animals of listed species kept in approved germinal product establishments, excluding hatcheries, located in the surveillance zone after the estimated date of earliest infection of the affected establishment provided that:

- (a) all the disease control measures relating to the relevant category A disease have been lifted in the surveillance zone in accordance with Article 55;
- (b) all the kept animals of listed species in the semen collection centre have undergone a clinical examination and have been sampled for laboratory examinations in order to rule out the presence of the category A disease in the semen collection centre;
- (c) the donor animal has been subjected with favourable results to a laboratory examination on a sample taken not earlier than seven days after the monitoring period set out in Annex II for the relevant disease, calculated forwards from the date on which the semen was collected.

**Changes to legislation:**

There are currently no known outstanding effects for the Commission Delegated Regulation (EU) 2020/687, Article 48.
