a Delete as appropriate

A3 – Checking the weight and the fat content of butter originating in New Zealand declared for release for free circulation under tariff quotas with order numbers 09.4182 and 09.4195.

Definitions

For the purpose of Annex XIV.5 Part A the definitions set out below apply:

- (a) ‘producer’ means a single production plant or factory in which butter is produced for export to the European Union under the tariff quotas with order numbers 09.4182 and 09.4195;
- (b) ‘cypher’ means the quantity of butter produced according to one product-purchasing specification in one production plant during a single manufacturing run;

Status: This is the original version as it was originally adopted in the EU. This legislation may since have been updated - see the latest available (revised) version

- (c) 'lot' means a quantity of butter covered by an IMA 1 certificate presented to the competent customs authority for entry for free circulation under the tariff quotas with order numbers 09.4182 and 09.4195;
- (d) 'competent authorities' means the authorities in the Member States responsible for controls on imported products;
- (e) 'product identification list' means a list which identifies, for each lot, the quota number of its corresponding IMA 1 certificate, the production plant or factory and the cypher or cyphers, and which provides a description of the butter. It may also identify the specification to which the butter was manufactured, the production season, the number of boxes corresponding to each cypher, the total number of boxes, the nominal weight of the boxes, the exporter's serial number, the means of transport from New Zealand to the European Union and the voyage number.

Completion and verification of the IMA 1 certificate

An IMA 1 certificate shall cover butter manufactured according to one product-purchasing specification in one plant. It may cover more than one cypher of the same product-purchasing specification from the same plant.

The IMA 1 certificate shall be considered to be duly completed and authenticated by an issuing body listed in Part A6, only if it contains all the following information:

- (a) in box 1, the name and address of the seller;
- (b) in box 2, the serial number of issue identifying the country of origin, the import arrangements, the product, the quota year and the individual certificate number, starting again from one each year;
- (c) in box 4, the number and date of the invoice;
- (d) in box 5, 'New Zealand';
- (e) in box 7:
 - reference to the product identification list (product ID list), which must be attached,
 - the CN code preceded by 'ex' and the detailed description as given in Annex IX for quotas with order numbers 09.4182 and 09.4195,
 - the factory registration number,
 - the date of manufacture of the butter, and
 - the arithmetic mean of the tare weight of the wrapper;
- (f) in box 8, the gross weight in kilograms;
- (g) in box 9:
 - the net nominal weight per box,
 - the total net weight in kilograms,
 - the number of boxes,
 - the arithmetic mean of the net weight of the boxes designated by the symbol ' μ ',
 - the standard deviation of the net weight of the boxes designated by the symbol ' σ ';
- (h) in box 10: from milk or cream;

Status: This is the original version as it was originally adopted in the EU. This legislation may since have been updated - see the latest available (revised) version

- (i) in box 13, not less than 80 % but less than 85 % fat;
- (j) in box 16: ‘New Zealand butter quota for ...[year] in accordance with Implementing Regulation (EU) 2020/761’;
- (k) in box 17:
 - the date on which the most recently manufactured butter covered by the IMA 1 was or will be six weeks old,
 - the total quota for the year in question,
 - the date of issue and, where appropriate, the last day of validity,
 - signature and stamp of the issuing body;
- (l) in box 18, exact address and contact details of the issuing body.

Checking the weight

European Union controls

Controls by the competent authorities shall be carried out on one lot.

The competent authorities shall take a random sample from the lot. The sample size shall be determined according to the following formula:

$$n = \sqrt[3]{(N)}$$

where n is the sample size; and

N is the number of boxes in the lot.

However, the minimum sample size, n, shall be 10.

The competent authorities shall calculate the arithmetic mean and standard deviation of the net weights obtained from the sample.

The competent authorities shall make appropriate checks to verify the information on tare weight given on the IMA 1 certificate, which may include a comparison with the weight of plastic wrappers used in the European Union or examination of a certificate from the manufacturer of the plastic wrappers used on the lot.

Interpretation of control results – standard deviation

The standard deviation of the net weight of the boxes specified in the IMA 1 certificate shall be checked according to the following procedure.

The ratio s/σ shall be compared with the minimum ratio specified for a given sample size in the following table, where s is the sample standard deviation and σ is the standard deviation of the net weight of the boxes specified in the IMA1 certificate.

Where the ratio s/σ is lower than the appropriate minimum ratio in the reference data table then s shall be used when the control results are interpreted in accordance with the next section rather than σ .

Minimum ratio^a s/σ for a given sample size (n)

n	s/σ	n	s/σ	n	s/σ
10 ^b	0,608	21	0,737	32	0,789

a The minimum ratios have been calculated using tabulated Chi2-values (5 % quantile; n-1 degrees of freedom).

b The minimum sample size, n, shall be 10.

Status: This is the original version as it was originally adopted in the EU. This legislation may since have been updated - see the latest available (revised) version

11	0,628	22	0,743	33	0,792
12	0,645	23	0,749	34	0,795
13	0,660	24	0,754	35	0,798
14	0,673	25	0,760	36	0,801
15	0,685	26	0,764	37	0,804
16	0,696	27	0,769	38	0,807
17	0,705	28	0,773	39	0,809
18	0,714	29	0,778	40	0,812
19	0,722	30	0,781	41	0,814
20	0,730	31	0,785	42	0,816
				43	0,819

a The minimum ratios have been calculated using tabulated Chi2-values (5 % quantile; n-1 degrees of freedom).

b The minimum sample size, n, shall be 10.

Interpretation of control results – arithmetic mean

The competent authorities shall compare the results of sampling with the information on the IMA 1 certificate using the following formula:

$$w \leq W + ((2,326\sigma)/\sqrt{n})$$

Where:

- w is the arithmetic mean of the net weight of the sample boxes,
- W is the mean net weight per box specified on the IMA 1 certificate,
- σ is the standard deviation of the net weight per box specified on the IMA 1 certificate. However, the sample standard deviation of the net weight per boxes shall be used instead of σ where required under the previous section on interpretation of control results - standard deviation, and
- n is the sample size.

Where w satisfies the above formula, the mean net weight specified on the IMA 1 certificate (W) shall be used to determine the net weight of the lot imported into the Union.

Where w does not satisfy the above formula, w shall be used to determine the net weight of the lot imported into the Union.

The declared weight shall be attributed in part 2 of column 29 of the import licence and the excess over the declared weight shall be released for free circulation at rate of duty applicable to third countries (*erga omnes*).

Checking the fat content

European Union controls

The competent authorities shall check the percentage fat content on half of the boxes which are sampled under the previous sections. However, the minimum sample size, n, shall be 5.

The sampling method to be used shall be International Dairy Federation (IDF) Standard 50C/1995.

Status: This is the original version as it was originally adopted in the EU. This legislation may since have been updated - see the latest available (revised) version

The method for determining the fat content to be used shall be the ISO 17189 method or a method established by the latest versions of the relevant European or international standards, as the case may be.

The competent authorities shall draw duplicate samples, one of which shall be held in secure custody in case of dispute.

The laboratory undertaking the tests shall be authorised by a Member State to carry out official analyses and be recognised by that Member State as having competence in applying the method referred to in Part A3 of this Annex XIV.5, as demonstrated by meeting the repeatability criterion when analysing blind duplicates and by successful participation in proficiency tests.

Interpretation of control results – arithmetic mean

- (a) Compliance with the fat content requirements shall be assumed if the arithmetic mean of the sample results does not exceed 84,4 %.

The competent authorities shall notify the Commission without delay of each case of non-compliance.

- (b) In case the compliance requirement under (a) is not met, the lot covered by the relevant import declaration and IMA 1 certificate shall be imported in accordance with Article 51(1), except where the results of the analysis of the duplicate samples as referred to under the next section do comply with the requirements.

Disputed results

The importer concerned may challenge the results of the analysis obtained by a competent authorities' laboratory within ten calendar days of receiving these results, undertaking to pay for the costs of testing the duplicate samples. In this case the competent authorities shall send sealed duplicates of the samples analysed by its laboratory to a second laboratory. This second laboratory shall be authorised by a Member State to carry out official analyses and be recognised by that Member State as having competence in applying the method described in Part A3 of this Annex XIV.5, as demonstrated by meeting the repeatability criterion when analysing blind duplicates and by successful participation in proficiency tests.

This second laboratory shall communicate the results of its analysis to the competent authorities promptly.

The findings of the second laboratory are final.

A4 – Circumstances under which an IMA 1 certificate or part thereof may be cancelled, amended, replaced or corrected

Cancellation of the IMA 1 certificate when full duty is due and paid for non-compliance with compositional requirements.

Where full duty is paid on a lot because the maximum fat content requirement is not complied with, the corresponding IMA 1 certificate may be cancelled and the IMA 1 issuing body may add the quantities concerned to those for which IMA 1 certificates may be issued for the same quota year.

Product destroyed or rendered unfit for sale.

IMA 1 issuing bodies may cancel an IMA 1 certificate or part thereof for a quantity covered by it which is destroyed or rendered unfit for sale in circumstances beyond the control of the exporter. Where part of the quantity covered by an IMA 1 certificate is destroyed or rendered unfit for sale, a replacement certificate may be issued for the remaining quantity. The replacement certificate shall be valid only up to the same date as the original. In this case, box 17 of the replacement IMA 1 certificate shall contain the words 'valid up to 00.00.0000'.

Status: This is the original version as it was originally adopted in the EU. This legislation may since have been updated - see the latest available (revised) version

Where all or part of the quantity covered by an IMA 1 certificate is destroyed or rendered unfit for sale due to circumstances beyond the exporters' control, the IMA 1 issuing body may add these quantities to those for which IMA 1 certificates may be issued for the same quota year.

Change of Member State of destination

When the exporter is obliged to change the Member State of destination indicated on an IMA 1 certificate before a corresponding import licence is issued, the original IMA 1 certificate may be amended by the IMA 1 issuing body. Such an amended original IMA 1 certificate, duly authenticated and appropriately identified by the issuing body, may be presented to the licensing authority and to the customs authorities.

Clerical or technical error

When a clerical or technical error is discovered on an IMA 1 certificate before a corresponding import licence is issued, the original certificate may be corrected by the issuing body. Such a corrected original IMA 1 certificate may be presented to the licensing authority and to the customs authorities.

Exceptional circumstances when a product intended for import in a given year becomes unavailable

When, in exceptional circumstances beyond the control of the exporter, a product intended for import in a given year becomes unavailable and the only means of filling the quota, in the light of normal shipping time from the country of origin, is to replace it with a product originally intended for import the following year, the issuing body may issue a new IMA 1 certificate for the replacement quantity, between the sixth and the tenth calendar day after giving due notification to the Commission of the details of the IMA 1 certificate or part thereof to be cancelled for the year concerned and of the first IMA 1 certificate or part thereof issued for the following year to be cancelled.

If the Commission considers that this provision does not apply to the circumstances of the case concerned, it may object within seven calendar days, stating the reason for its objection. Where the quantity to be replaced is greater than that covered by the first IMA 1 certificate issued for the following year, the required quantity may be obtained by cancelling additional IMA 1 certificates, in sequence, or part thereof as necessary.

All quantities in respect of which IMA 1 certificates or part thereof have been cancelled for the year concerned shall be added to the quantities for which IMA 1 certificates may be issued for that quota year.

All quantities brought forward from the following quota year for which an IMA 1 certificate or certificates have been cancelled shall be added back to the quantities for which IMA 1 certificates may be issued for that quota year.

A5 – Rules for completing IMA 1 certificates

In addition to boxes 1, 2, 4, 5, 9, 17 and 18 of the IMA 1 certificate, the following must be completed:

- a) As regards Cheddar cheeses falling within CN code ex 0406 90 21 and listed under tariff quotas with order numbers 09.4514 and 09.4521:
- box 7, by specifying 'whole Cheddar cheeses',
 - box 10, by specifying 'exclusively home-produced cows' milk',
 - box 11, by specifying 'at least 50 %',
 - box 14, by specifying 'at least three months',
 - box 16, by specifying the period for which the quota is valid.

Status: This is the original version as it was originally adopted in the EU. This legislation may since have been updated - see the latest available (revised) version

- b) As regards Cheddar cheeses intended for processing falling within CN code ex 0406 90 01 and listed under tariff quotas with order numbers 09.4515 and 09.4522:
- box 7, by specifying ‘whole Cheddar cheeses’,
 - box 10, by specifying ‘exclusively home-produced cows’ milk’,
 - box 16, by specifying the period for which the quota is valid.
- c) As regards cheeses for processing falling within CN code 0406 90 01 and listed under tariff quotas with order numbers 09.4515 and 09.4522:
- box 10, by specifying ‘exclusively home-produced cows’ milk’,
 - box 16, by specifying the period for which the quota is valid.

A6 – Issuing bodies for IMA 1 certificates

Third country	CN code and product description		Issuing body	
			Name	Location
