(8) In respect of a [F⁹pipe-line] or facility which is or is to be modified to provide for a significant increase in its capacity, an exemption by virtue of this Article may only be given in relation to that increase in its capacity or part of that increase in its capacity.

(10) Paragraph (9) does not prevent a further exemption being given in respect of any [^{F9}pipe-line] or facility or modification if that exemption has been revoked under Article 39B.

(11) Paragraph (9) does not prevent a further exemption being given in respect of a [^{F9}pipe-line] or facility if—

- (a) it is to be modified so as to provide for a significant increase in its capacity or to enable development of a new source of gas supply;
- (b) the exemption has effect only in relation to that modification; and
- (c) no previous exemption has been given in respect of that modification.

(12) Where the Authority makes a decision to refuse or give an exemption in accordance with this Article, it must publish that decision together with the reasons for its decision in such manner as it considers appropriate.]
