

SCHEDULE 2

METHODS OF ANALYSIS

PART II

7a.

DETERMINATION OF POTASSIUM — GRAVIMETRIC METHOD

7 EXPRESSION OF THE RESULTS

7. Calculate the percentage potassium content of the sample as K_2O , taking into account the weight of the test sample, the volume of the aliquot part taken for the determination and the value of the blank determination. (Conversion factor, KTPB to $K_2O = 0.1314$).
