## EXPLANATORY NOTE

*(This note is not part of the Order.)*

This order, which corresponds to an order (S.I. 1992/1102) made by the Secretary of State for Social Security under section 21(3) of the Social Security Pensions Act 1975, directs that the earnings factors relevant to the calculation of the additional pension in the rate of any long-term benefit or of any guaranteed minimum pension or to any other calculation required under Part IV of the Social Security Pensions (Northern Ireland) Order 1975 ("the Pensions Order") for the tax years specified in the Schedule are to be increased by the percentage of their amount specified in the Schedule. The percentage for the tax year 1991-92 is 6.5 per cent. and those for earlier years have been increased so that the earnings factors for those years are revalued at the 1991-92 earnings levels.

The order also provides for the rounding of fractional amounts for earnings factors relevant to the calculation of the additional pension in the rate of any long-term benefit. Rounding for the purpose of calculation of any guaranteed minimum pension is not required since 6th April 1979 by virtue of the amendments to section 13 of the Social Security (Northern Ireland) Act 1975 and Article 37(5) of the Pensions Order effected by Part I of Schedule 2 to the Social Security (Northern Ireland) Order 1988.

For the purpose of certain occupational pension schemes which are contracted-out under Part IV of the Pensions Order, the increases made by this order are applied, by Articles 37(5) and 43C(4A) of the Pensions Order, to the earnings factor used in calculating an earner's guaranteed minimum pension and, by Articles 46(6)(a) and 47(3)(a) of the Pensions Order, for the purpose of determining the amount of any state scheme premium.
