EXPLANATORY NOTE

(This note is not part of the Order.)

The Food Protection (Emergency Prohibitions) Order (Northern Ireland) 1991 ("the principal order") contains emergency prohibitions on various activities in order to prevent human consumption of food which is derived from sheep in the designated areas in Northern Ireland and which has been or may have been rendered unsuitable for human consumption in consequence of the elevated levels of radioactivity found in those areas following the escape of radioactive substances from a nuclear reactor situated at Chernobyl in the Ukraine.

This Order amends the principal order by reducing the size of the designated area in Glenwherry, County Antrim.
