STATUTORY RULES OF NORTHERN IRELAND

---

**1997 No. 193**

**Pipelines Safety Regulations (Northern Ireland) 1997**

Part II

General

**Operation of a pipeline**

**11.** The operator shall ensure that—

- (a) a fluid is not conveyed in a pipeline unless the safe operating limits of the pipeline have been established; and
- (b) a pipeline is not operated beyond its safe operating limits,

save for the purpose of testing it.
