

## SCHEDULE 2

### REPORT ON METER TESTS

4. In the case of a meter intended for use with and tested with a transformer or transformers, the following additional information shall be included in the report—

- (a) the make, output rating, serial number and classification of each transformer to be used with the meter;
- (b) for a polyphase meter, the phase to which each transformer was connected;
- (c) particulars and electrical burdens of any other meter, instrument or external attachments that are to be used in conjunction with a transformer operated meter.
