EXPLANATORY NOTE

(This note is not part of the Regulations.)

These Regulations, which are made under section 2(2) of the European Communities Act 1972 and section 16(2) of the Food and Environment Protection Act 1985, further amend the provisions of the Pesticides (Maximum Residue Levels in Crops, Food and Feeding Stuffs) Regulations (Northern Ireland) 2002 (“the principal Regulations”) (S.R. 2002 No. 20 amended by S.R. 2002 No. 27).

The Regulations specify maximum levels of pesticides which crops, food and feeding stuffs may contain in implementation of Commission Directives 2002/5/EC (O.J. No. L34, 5.02.02, p. 7) and 2002/23/EC (O.J. No. L64, 7.03.02, p. 13). New columns are added to Part II of Schedule 2 of the principal Regulations for the residues of pesticides Flupyrifluron-methyl and Pymetrozine (regulation 2(6)(a)). Complete revised columns for the residues of pesticides Amitraz, Azoxystrobin and Lambda-cyhalothrin have been substituted for existing columns in Part II of Schedule 2 (regulation 2(6)(b)).

Regulation 2(3) adds the names of further pesticide residue substances to Schedule 1.

Regulation 2(4) removes the column for the pesticide Tecnazene from Part I of Schedule 2 from 1st January 2003 as this has now been prescribed by EC Directives and implemented by S.R. 2002 No. 27.

Other minor alterations to implement changes of pesticide residue for other pesticides, Acephate, Chlorothalonil, Cypermethrin, Etephon, Fenbutatin oxide, Kresoxim-methyl and Metalaxyl are made to specified products in regulation 2(5).

The definition of “the Residues Directives” is updated to take account of the Directives being implemented (regulation 2(2)).
