STATUTORY RULES OF NORTHERN IRELAND

---

**2003 No. 533**

**Packaging, Labelling and Carriage of Radioactive  
Material by Rail Regulations (Northern Ireland) 2003**

**PART V**

**SECURITY MEASURES AND EMERGENCY ARRANGEMENTS**

**Emergency plans**

**23.**—(1) Every train operator whose train is used for the carriage of radioactive material shall draw up and, where appropriate, give effect to such safety systems and procedures as will adequately deal with any emergency involving radioactive material carried on that train.

(2) Every facility owner at whose railway facility is present radioactive material shall draw up and, where appropriate, give effect to such safety systems and procedures as will adequately deal with any emergency involving radioactive material present at that railway facility.

(3) Every infrastructure controller on whose railway track is carried radioactive material shall draw up and, where appropriate, give effect to such safety systems and procedures as will adequately deal with any emergency involving radioactive material carried on that railway track.

(4) All persons referred to in paragraphs (1), (2) and (3) shall co-operate with each other in order to ensure effective co-ordination of their respective safety systems and procedures.
