PROSPECTIVE

## SCHEDULE

### PART II

#### MEASURES APPLIED TO ADJUST FOR ADDITIONAL NEEDS

3. Measures applied to adjust for additional needs are –
- (a) deprivation;
  - (b) an influx of additional population; and
  - (c) sparsity.

#### Commencement Information

**I1** Sch. para. 3 in operation at 1.4.2003, see [reg. 1](#)

4. Measures, weighted in accordance with paragraph 6, to the extent specified in paragraph 5(1), which shall be applied to population data, to adjust for –
- (a) deprivation, are –
    - (i) income deprivation scores; and
    - (ii) employment deprivation scores and domestic net annual values;
  - (b) an influx of additional population, are –
    - (i) tourist bed-nights; and
    - (ii) travel to work data;
  - (c) sparsity, are –
    - (i) population density; and
    - (ii) private household data.

#### Commencement Information

**I2** Sch. para. 4 in operation at 1.4.2003, see [reg. 1](#)

#### Extent of adjustment

5.—(1) For the purposes of paragraph 4, the extent of adjustment made to the population of a local government district shall be in the same proportion as the total Northern Ireland expenditure on each key service relative to specified needs is to the total Northern Ireland expenditure.

- (2) The key services to which sub-paragraph (1) relates are –
- (a) community services;
  - (b) economic development;
  - (c) refuse collection;
  - (d) street cleansing; and

(e) tourism.

**Commencement Information**

**I3** Sch. para. 5 in operation at 1.4.2003, see [reg. 1](#)

**Population Adjustment Methodology**

6. The Department shall adjust population to address –

(a) deprivation in a local government district, by taking the following steps –

- (i) application of the employment scores with a 100 percent weighting, making an adjustment of the proportion that community services expenditure is to total expenditure;
- (ii) application of the employment scores with a 50 percent weighting and domestic net annual values with a 50 percent weighting, making an adjustment for each of the proportion that economic development expenditure is to total expenditure;
- (iii) application of the income scores with a 50 percent weighting, making an adjustment of the proportion that tourism expenditure is to total expenditure;

(b) an influx of additional population into a local government district, by taking the following steps –

- (i) application of tourist bed-nights factors with a 50 percent weighting, making an adjustment of the proportion that tourism expenditure is to total expenditure;
- (ii) application of tourist bed-nights factors with a 50 percent weighting and travel to work factors with a 50 percent weighting, making an adjustment of the proportion that street-cleansing expenditure is to total expenditure; and

(c) sparsity in a local government district, by taking the following step –

application of mid-year population density data with a 25 percent weighting and private household data with a 75 percent weighting, making an adjustment of the proportion that refuse collection expenditure is to total expenditure.

**Commencement Information**

**I4** Sch. para. 6 in operation at 1.4.2003, see [reg. 1](#)

7. The total adjustment which the Department shall make to the home population of a local government district shall be the sum of the results, which may be positive or negative, of the adjustments made in accordance with paragraphs 6(a), 6(b) and 6(c).

**Commencement Information**

**I5** Sch. para. 7 in operation at 1.4.2003, see [reg. 1](#)
