

SCHEDULE 4

CONFORMITY ASSESSMENT PROCEDURES

(This Schedule substantially reproduces the provisions of Part 1 of Annex IV of the Transportable Pressure Equipment Directive.)

Module B1—EC design examination

4.1 examine the technical documentation and identify components which have been designed in accordance with the relevant provisions of Part IV of these Regulations and in particular must:

- assess the materials used where these are not in conformity with the relevant provisions of Part IV of these Regulations,
- approve the procedures for the permanent joining of pressure equipment parts or check that they have been previously approved,
- verify that the staff undertaking the permanent joining of pressure equipment parts and the non-destructive tests are qualified or approved;
