- (ii) Regulation 2(7)(a) amends paragraph 4 of Schedule 7 to the 2003 Regulations to require the enforcing authority to furnish the operator with additional information as well as to provide for additional advertisement requirements in respect of variations affecting the operation of Part A installations;
- (iii) Regulations 2(7)(b) to (i) insert, for variations affecting Part A installations, a new ‘post-advertisement’ stage in respect of variations proposed by the enforcing authority and a ‘draft variation’ stage in respect of applications for variations, including, as in the case of applications for permits to operate Part A installations, additional obligations in relation to advertising, the provision of information to other Member States in the case of installations with transboundary effects, new representation requirements, and the obligation to provide or make available information specified in Annex V to the Public Participation Directive.

Regulation 2 (8) inserts a new sub-paragraph to Schedule 10 (Registers) to require the enforcing authority to include in the register the information resulting from the new public participation requirements specified by these Regulations.

Regulation 3 sets out transitional provisions clarifying that the requirements in these Regulations do not apply to applications for permits or variations or proposed variations in respect of which the operator applied, or the enforcing authority notified to the operator, at a date prior to the date of coming into operation of these Regulations.
