

SCHEDULE

Article 2

POULTRY BREEDING FLOCKS AND HATCHERIES SCHEME (NORTHERN IRELAND) 2007

PART I

INTRODUCTION

Citation

1. This Scheme may be cited as The Poultry Breeding Flocks and Hatcheries Scheme (Northern Ireland) 2007.

Interpretation and application

2.—(1) In this Scheme—

“approved laboratory” means a laboratory approved by the Department for the purposes of this Order;

“breeding flock” means a flock kept for the production of eggs intended for incubation;

“building” includes a shed and any part of a building that has its own ventilation system and is separated from other parts of the building by a solid partition;

“chick” means a bird less than 72 hours old that has not been fed;

“Commission Regulation” means [Commission Regulation \(EC\) No 1003/2005](#) implementing Regulation (EC) No 2160/2003 as regards a Community target for the reduction of the prevalence of certain salmonella serotypes in breeding flocks of *Gallus gallus* and amending Regulation (EC) No 2160/2003(1), as amended by [Commission Regulation \(EC\) No 1168/2006](#);

“the Department” means the Department of Agriculture and Rural Development;

“flock” means poultry of the same health status kept on the same holding or in the same enclosure and constituting a single epidemiological unit and, in the case of housed poultry, includes all birds sharing the same airspace;

“layer breeder” means poultry kept for the production of eggs intended for the incubation and hatching of chicks—

(a) that will be grown to produce eggs for human consumption, or

(b) whose progeny will be grown to produce eggs for human consumption;

“meat breeder” means poultry kept for the production of eggs intended for the incubation and hatching of chicks—

(a) that will be grown to produce meat for human consumption, or

(b) whose progeny will be grown to produce meat for human consumption;

“poultry” means domestic fowls, turkeys, geese or ducks.

Competent authority

3. The Department is the competent authority for the purposes of—

(1) O.J. No. L 170, 1.7.2005, p.12 as amended by O.J. No. L 211, 1.8.2006, p 4

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (a) [Commission Regulation \(EC\) No 1003/2005](#) implementing Regulation (EC) No 2160/2003 as regards a Community target for the reduction of the prevalence of certain salmonella serotypes in breeding flocks of *Gallus gallus* and amending Regulation (EC) No 2160/2003⁽²⁾ (in this Order, referred to as “the Commission Regulation”); and
- (b) [Commission Regulation \(EC\) No 1177/2006](#) implementing Regulation (EC) No 2160/2003 of the European Parliament and of the Council as regards requirements for the use of specific control methods in the framework of the national programmes for the control of salmonella in poultry⁽³⁾ (in this Order, referred to as “Commission Regulation 1177/2006”).

PART II

NOTIFICATION OF HATCHERIES AND BREEDING FLOCKS

Notification of hatcheries

4.—(1) The occupier of a poultry hatchery with a total incubator capacity of 1000 eggs or more must notify the Department of the information in Annex 1, paragraph 1—

- (a) in the case of a hatchery established after the date this Order comes into operation, within three months of the establishment of the hatchery; and
- (b) in any other case within three months of the coming into operation of this Order.

(2) The occupier must notify the Department of any change or addition to that information within three months of the change or addition.

(3) This Article does not apply to any occupier who has notified the Department of that information under any other statutory provision.

Notification of breeding flocks

5.—(1) The occupier of a holding on which one or more breeding flocks of at least 250 poultry of any single species are kept must notify the Department of the information in Annex 1, paragraph 2—

- (a) in the case of such a holding established after the coming into operation of this Order, within three months of the establishment of the holding; and
- (b) in any other case within three months of the coming into operation of this Order.

(2) The occupier must notify the Department of any change or addition to that information within three months of the change or addition.

(3) This Article does not apply to any occupier who has notified the Department of that information under any other statutory provision.

(2) O.J. No. L 170, 1.7.2005, p.12. This Regulation extends to the EEA through Decision of the EEA Joint Committee No 101/2006 amending Annex I (Veterinary and phytosanitary matters) to the EEA Agreement (O.J. No. L 333, 30.11.2006, p.6)

(3) O.J. No. L 212, 2.8.2006, p.3

PART III
CONTROL OF SALMONELLA IN *GALLUS GALLUS*
CHAPTER 1
Duties of an occupier

Application of Chapter 1

6. This Chapter applies in relation to any holding on which one or more breeding flocks of at least 250 domestic fowl of the species *Gallus gallus* are kept, and any reference in this Chapter to an occupier is a reference to an occupier of such a holding.

Notification of arrival of breeding flocks

7.—(1) The occupier must notify the Department of the expected date of arrival at the holding of every breeding flock of at least 250 domestic fowl of the species *Gallus gallus*.

(2) The notification must be made at least two weeks before the expected date of arrival.

Notification of movement to laying phase etc.

8.—(1) The occupier must notify the Department of the date that he expects each breeding flock on the holding to—

- (a) move to the laying phase or laying unit; and
- (b) reach the end of the production cycle.

(2) The notification must be made at least two weeks before the breeding flock is expected to move to the laying phase or laying unit.

Sampling of breeding flocks

9.—(1) The occupier must take samples from each breeding flock on the holding at the following times—

- (a) when the birds in the flock are chicks;
- (b) when the birds in the flock are four weeks old;
- (c) two weeks before the date the flock is expected to come into lay or move to the laying phase or laying unit; and
- (d) every second week during the laying period.

(2) Sampling under paragraph (1)(a) to (c) must be done in accordance with Annex 2 to this Scheme and sampling under paragraph (1)(d) must be done in accordance with point 2.2.2.1 of the Annex to the Commission Regulation (routine sampling at the initiative of the operator).

Submission of samples to an approved laboratory

10.—(1) The occupier must dispatch the samples taken under Article 9 to an approved laboratory for the purposes of testing for the presence of salmonella.

(2) The occupier must dispatch the samples within—

- (a) 24 hours of being taken; or
- (b) 48 hours of being taken if they have been stored in a refrigerator at a temperature of between 1° and 4° C as soon as practicable on the day they are taken.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(3) The occupier must ensure that the samples are identified prior to dispatch so as to enable the approved laboratory to determine—

- (a) the name of the occupier;
- (b) the address of the holding on which the breeding flock from which the samples were taken are kept;
- (c) the type of samples;
- (d) the date on which the samples were taken;
- (e) the identification of the breeding flock sampled;
- (f) the age of the breeding flock sampled;
- (g) whether the breeding flock from which the samples were taken is a flock of layer breeders or meat breeders; and
- (h) the status in the breeding pyramid of the breeding flock from which the samples were taken.

Records of samples

11.—(1) The occupier must—

- (a) keep a record of the information in Annex 3, paragraph 1, in respect of each sample taken in accordance with Article 9; and
- (b) by 30th June and 31st December each year, notify the Department of that information in respect of sampling undertaken in the six months prior to notification.

(2) The occupier must keep the record in paragraph (1)(a) for two years from the date the sample was taken.

Records of movements

12.—(1) The occupier must keep a record of the information in Annex 3, paragraph 2, in respect of the movement to and from the holding of any domestic fowl of the species *Gallus gallus* or their chicks or eggs.

(2) The occupier must keep the record in paragraph (1) for two years from the date of the movement.

CHAPTER 2

Duties of approved laboratories

Duties of an approved laboratory

13.—(1) The person in charge of an approved laboratory must ensure that the examination of samples submitted to it under Article 10 begins within 48 hours of receipt of those samples.

(2) The person in charge must ensure that the—

- (a) samples are prepared as follows—
 - (i) chick box liners must be prepared in accordance with Annex 4 to this Scheme,
 - (ii) boot swabs' samples must be prepared in accordance with point 3.1.2 of the Annex to the Commission Regulation, and
 - (iii) any other samples of faeces must be prepared in accordance with point 3.1.3 of that Annex;

- (b) samples are tested for salmonella in accordance with the method in point 3.2 of that Annex; and
- (c) result of any test on any sample is reported in writing as soon as practicable to the occupier who submitted it.

CHAPTER 3

Use of antimicrobials and vaccines

Prohibition on the use of antimicrobials

14. A person may not administer any antimicrobial to any bird in a breeding flock of domestic fowl of the species *Gallus gallus* as a specific method to control salmonella in breach of Article 2 of Commission Regulation 1177/2006 (use of antimicrobials).

Prohibition on the use of vaccines

15. A person may not administer any live salmonella vaccine to any bird in a breeding flock of domestic fowl of the species *Gallus gallus* in breach of Article 3(1) of Commission Regulation 1177/2006 (use of vaccines).

PART IV

MISCELLANEOUS

Hatchery records

16.—(1) The occupier of a hatchery with a total incubator capacity of 1000 eggs or more and containing domestic fowl of the species *Gallus gallus* or their eggs must keep a record of the information in—

- (a) Annex 3, paragraph 3, in respect of the movement of any eggs of domestic fowl of the species *Gallus gallus* to and from the hatchery; and
 - (b) Annex 3, paragraph 4, in respect of the movement of any chicks of domestic fowl of the species *Gallus gallus* from the hatchery.
- (2) The occupier must keep the record for two years from the date of the movement.

Production of records

17. Any person required to keep a record under this Scheme must produce it to an inspector on demand at any reasonable time and allow a copy of it to be made or extract from it to be taken.

Tampering with samples

18. A person must not tamper with a sample or do anything to it that is likely to affect the result of any test required to be carried out under this Scheme, except as provided for in this Scheme.

Powers of the Department in cases of default

19. If any person fails to take any action under this Scheme, an inspector may take, or cause to be taken, such action and his expenses reasonably incurred recoverable by the Department from the person in default.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Revocation

20. The Poultry Breeding Flocks and Hatcheries Scheme Order (Northern Ireland) 1994⁽⁴⁾ and the Poultry Breeding Flocks and Hatcheries Scheme (Amendment) Order (Northern Ireland) 2000⁽⁵⁾ are revoked.
