

STATUTORY RULES OF NORTHERN IRELAND

2007 No. 68

The Avian Influenza and Influenza of Avian Origin
in Mammals Regulations (Northern Ireland) 2007

PART V

MEASURES ON SUSPICION OR CONFIRMATION OF HIGHLY PATHOGENIC
AVIAN INFLUENZA IN A REGULATED PLACE AND VEHICLE

Measures at border inspection posts

41.—(1) The Department must, if it considers it necessary to reduce the risk of the spread of avian influenza—

- (a) require a veterinary inquiry to be carried out at a [^{F1}border control post] where avian influenza is suspected or has been confirmed; and
- (b) impose (by notice served on the occupier of the [^{F1}border control post]) such of the measures in Schedule 1 as it considers appropriate.

(2) The Department must, by notice served on the occupier of the [^{F1}border control post], direct where birds specified in the notice are to be killed, slaughtered or isolated.

(3) The Department must ensure that poultry and other captive birds at [^{F1}border control post] which are to be killed under paragraph 11 of Part I of Schedule 2 to the 1981 Order are killed or slaughtered without delay.

(4) The Department must ensure that poultry and other captive birds which are not to be so killed or slaughtered are kept isolated in accordance with the instructions of an inspector.

Textual Amendments
