

SCHEDULE 2

HAZARDOUS SUBSTANCES AND CONTROLLED QUANTITIES

PART C

SUBSTANCES USED IN AN INDUSTRIAL CHEMICAL PROCESS

---

<i>Column 1</i>	<i>Column 2</i>
<i>Hazardous substances</i>	<i>Controlled quantity</i>
Where it is believed that a substance, which is within Part A or Part B, may be generated during loss of control of an industrial chemical process (“HS”), any substance which is used in that process (“S”).	The amount of S which it is believed may generate, on its own or in combination with other substances used in the relevant industrial chemical process, the controlled quantity of the HS in question.
