

SCHEDULE 2

Certification requirements

PART 2

Cereals

Meaning of “certified seed, first generation”

11. Certified seed, first generation is seed—
 - (a) of oats, barley, triticale, wheat, durum wheat or spelt wheat other than hybrids in each case;
 - (b) produced directly from basic seed or, if the breeder so requests, from pre-basic seed that satisfies the conditions for basic seed;
 - (c) intended either for the production of seed of the category “certified seed, second generation” or for purposes other than the production of cereal seed.
