
STATUTORY RULES OF NORTHERN IRELAND

2017 No. 8

The Areas of Natural Constraint
Regulations (Northern Ireland) 2017

Exclusion of forage area

6.—(1) For the purpose of determining the qualifying forage area, a claimant's forage area shall be reduced by 1 hectare for every 1.71 of the average number of eligible dairy stocking units for which the claimant is the keeper over a number of dates determined by the Department during the minimum grazing period.

(2) Where paragraph (1) applies, the reduction in the forage area shall first be applied to that part of the forage area which is not within the severely disadvantaged area, followed by the part within the severely disadvantaged area.
