

SCHEDULE 16

Potato brown rot

PART A

Special measures for the control of Potato brown rot

Measures which may be required in relation to a contaminated place of production

9. A notice in relation to a contaminated place of production may—
 - (a) require for a specified period that all machinery and storage facilities at the place of production which are used for potato or tomato production be cleansed and, where appropriate, disinfected so that there is no identifiable risk of Potato brown rot spreading;
 - (b) prohibit any irrigation or spraying programme at the place of production or specify how any irrigation or spraying programme at the place of production must be carried out for the purpose of preventing the spread of Potato brown rot.
