#### EXPLANATORY MEMORANDUM TO

# THE STATE PENSION REVALUATION FOR TRANSITIONAL PENSIONS ORDER (NORTHERN IRELAND) 2022

S.R. 2022 No. 298

#### 1. Introduction

- 1.1. This Explanatory Memorandum has been prepared by the Department for Communities to accompany the Statutory Rule (details above) which is laid before the Northern Ireland Assembly.
- 1.2. The Statutory Rule is made under sections 130AC and 165(1) and (4) of the Social Security Administration (Northern Ireland) Act 1992 ("the Administration Act") and is subject to the negative resolution procedure.

## 2. Purpose

- 2.1. This Order revalues "protected payments" to reflect increases in the general level of prices since 6<sup>th</sup> April 2016. The protected payment is the amount, if any, by which the part of a person's new State Pension, based on their pre-6<sup>th</sup> April 2016 National Insurance contributions exceeds the full rate of the new State Pension.
- 2.2. The Pensions Act (Northern Ireland) 2015 ("the 2015 Act") introduced a new State Pension for people reaching State Pension age on or after 6<sup>th</sup> April 2016. A transitional rate applies where a person has paid or been credited with National Insurance contributions for the period prior to 6<sup>th</sup> April 2016. In the calculation of the transitional rate, set out in Schedule 1 to the 2015 Act, an amount for the person's pre-6<sup>th</sup> April 2016 contributions is calculated based on rates applicable at 6<sup>th</sup> April 2016. Where this amount exceeds £155.65 (the full rate of new State Pension as at 6<sup>th</sup> April 2016) the person receives the excess in the form of a protected payment.
- 2.3. Paragraph 6(5) of Schedule 1 to the 2015 Act provides for the protected payment to reflect price increases since 6<sup>th</sup> April 2016 by increasing it by the percentage specified in the last Order made under section 130AC of the Administration Act to come into operation before the individual reaches State Pension age.
- 2.4. This Order increases "protected payments" by 23.5 per cent from the start of the review period on 6<sup>th</sup> April 2016.

### 3. Background

3.1. Once a person's new State Pension is in payment, it will normally be increased each April as part of the annual review and up-rating of social security benefits. Protected payments are up-rated in line with increases in the general level of prices.

- 3.2. Where a person reaches State Pension age in the subsequent years following the introduction of the new State Pension, the amount based on their pre-6<sup>th</sup> April 2016 contribution record, calculated at 2016 rates, is revalued. This is to ensure they are not disadvantaged relative to a person who became entitled to their State Pension in the first year of implementation and whose State Pension will have been up-rated in the interim. Accordingly, protected payments are revalued in line with increases in the general level of prices.
- 3.3. Section 148AC of the Social Security Administration Act 1992 requires the Secretary of State to review the general level of prices in Great Britain in each tax year, and, if the general level of prices has increased in the review period, to make an Order specifying the percentage of the increase.
- 3.4. Section 130AC of the Administration Act provides that where the Secretary of State makes such an Order under section 148AC of the 1992 Act then the Department may make a corresponding Order for Northern Ireland. The Department has no power to set an alternative rate for Northern Ireland.

#### 4. Consultation

4.1. There is no requirement to consult on this Order.

## 5. Equality Impact

5.1. In accordance with its duty under section 75 of the Northern Ireland Act 1998, the Department has conducted a screening exercise on the legislative proposals for this Order and, as they merely discharge the Department's statutory duty to revalue protected payments, has concluded that they do not have any implications for equality of opportunity. In light of this, the Department considers that an Equality Impact Assessment is not necessary.

# 6. Regulatory Impact

6.1. The Rule does not require a Regulatory Impact Assessment as it does not impose any new costs on business, charities or voluntary bodies.

### 7. Financial Implications

7.1. The Order imposes no new costs. The costs are already provided for in the Government's expenditure plans for the new State Pension alongside the costs for up-rating.

#### 8. Section 24 of the Northern Ireland Act 1998

8.1. The Department is content that this Order complies with section 24 of the Northern Ireland Act 1998 (Convention rights etc.).

# 9. EU Implications

9.1. Not applicable.

# 10. Parity or Replicatory Measure

10.1. The corresponding Great Britain Order is the State Pension Revaluation for Transitional Pensions Order 2022 (S.I. 2022/1251) which comes into force on 21<sup>st</sup> December 2022 for the purposes of making an advance award of State Pension for persons reaching pensionable age on or after 11<sup>th</sup> April 2023 and on 10<sup>th</sup> April 2023 for all other purposes. Parity of timing and substance is an integral part of the maintenance of single systems of social security, child support and pensions in line with section 87 of the Northern Ireland Act 1998. It was therefore necessary to make the Order during the period of interregnum.
