

EXPLANATORY MEMORANDUM TO

The Rates (Exemption for Automatic Telling Machines in Rural Areas) Order (Northern Ireland) 2021

S.R. 2022 No.76

1. Introduction

- 1.1. This Explanatory Memorandum has been prepared by the Department of Finance ("the Department") to accompany the Statutory Rule (details above) which is laid before the Northern Ireland Assembly.
- 1.2. The Statutory Rule is made under Article 42(1G) of the Rates (Northern Ireland) Order 1977 ("the 1977 Order") and is subject to the affirmative resolution procedure.

2. Purpose

- 2.1. The Statutory Rule will continue the rates exemption for separate entries in the Valuation List associated with automatic telling machines (ATMs) in a designated rural area. The exemption applies to any ATMs valued individually, for example, those located outside petrol stations or on high streets. ATMs located in banks, building societies or shops tend to be valued as part of the building and so are, therefore, unlikely to be eligible.
- 2.2. Article 1 contains the citation and commencement provisions.
- 2.3. Article 2 of the Statutory Rule specifies a later date of 1st April 2023 for the purposes of the definition of "relevant year" in Article 42(1G) of the 1977 Order with the result that the exemption will continue until 31st March 2023.
- 2.4. Article 3 revokes the Rates (Exemption for Automatic Telling Machines in Rural Areas) Order (Northern Ireland) 2021 which had previously extended the exemption until 31st March 2022.

3. Background

- 3.1. In 2007 the Department introduced a package of rural relief measures aimed at businesses in rural areas.
- 3.2. Although a modest measure this scheme was continued following two evaluation exercises given that it has been proven to assist in the retention of machines in rural areas, and facilitate cash flow for local businesses
- 3.3. The scheme lapsed during 2017 as a result of the absence of a functioning Assembly. Following the return of the devolved institutions the Finance Minister and Executive made the decision to reinstate the scheme.
- 3.4. This Statutory Rule retains the scheme for the 2022/23 rating year.

4. Consultation

- 4.1. The exemption was initially introduced in 2007. The scheme was subsequently evaluated twice, and the scheme has also been consulted on as part of non domestic rates review exercises. Although a very modest intervention, the scheme has been found to assist in the retention of ATMs in rural areas.

- 4.2. Given the broad support for the scheme the Executive decided to reinstate the scheme in advance of the 2020/21 rating year.

5. Equality Impact

- 5.1. The impact of the policy on section 75 groups has been examined as part of previous evaluation work on the scheme. No significant differential impacts were identified and the Department considers these findings to remain valid.

6. Regulatory Impact

- 6.1. Previous Regulatory Impact Assessment work has suggested that the administrative cost of applying the exemption is negligible. It also found that the ATM scheme was unlikely to have any detrimental impact on small businesses, and may actually assist small rural businesses. It is not considered to have a major impact on competition, nor create a competitive advantage for any specific provider of the service. It is considered that these findings remain valid.

7. Financial Implications

- 7.1. The scheme now applies to less than 50 ATMs, following a recent change in valuation case law, although the numbers will change slightly from year to year. The maintenance cost of the scheme for 2022/23 is modest with an overall spend for the scheme estimated continuing to sit at under £100,000.

8. Section 24 of the Northern Ireland Act 1998

- 8.1. It is the view of the Department of Finance that this Order is compatible with section 24 of the Northern Ireland Act 1998.

9. EU and TCA Implications

- 9.1. The scheme was previously assessed as not giving rise to any issues of competition between Member States and therefore was not considered to be State Aid, and is likewise deemed to be compatible with the terms of EU Exit and the Trade and Cooperation Agreement.

10. Parity or Replicatory Measure

- 10.1. There are no directly equivalent Statutory Instruments in GB.

11. Additional Information

- 11.1. Not applicable.
