PART I

Classes of existing pensions contributors affected

The provisions contained in Part II of this schedule shall have effect in relation to the following classes of existing pensions contributors:—

- (1) Persons other than special voluntary contributors to whom the provisions of subsection (3) or (4) of section 16 of the Contributory Pensions Act of 1936, and regulation 3 of the Modification Regulations (which provisions related to exempt persons) were of application immediately before the appointed day so that any old age pension to which any such person could, but for the repeal of the Contributory Pensions Acts, have become entitled under those Acts, together with any increase under the Increase of Pensions Regulations, would have been at a weekly rate of less than twenty-six shillings, that is to say at any of the rates specified in the first column of the first table of rates set out in Part III of this schedule;
- (2) Persons other than special voluntary contributors who before the appointed day had been granted a superannuation allowance on retirement from excepted employment and to whom the provisions of paragraph (b) of subsection (4) of section 17 of the Contributory Pensions Act of 1936, and regulation 4 of the Modification Regulations (which provisions related to persons formerly in excepted employment) were of application immediately before the appointed day so that any old age pension to which any such person could, but for the repeal of the Contributory Pensions Acts, have become entitled under those Acts, together with any increase under the Increase of Pensions Regulations, would have been at such a weekly rate as aforesaid;
- (3) Persons other than special voluntary contributors—

rates mentioned in Part IV of the First Schedule to the Contributory Pensions Act of 1936, or would have been so payable, if their rate of remuneration had not exceeded four hundred and twenty pounds a year; and who after that day are granted superannuation allowance on retirement from employment which would but for the Act have been such employment; and

- (b) in respect of whom the said paragraph (b) and the said regulation 4 would, if the Contributory Pensions Acts had continued in force, have so applied that any old age pension to which any such person could have become entitled under those Acts, together with any increase under the Increase of Pensions Regulations, would have been at such a weekly rate as aforesaid;
- (4) Persons to or in respect of whom a dependants war pension is at the appointed day or thereafter becomes payable and to whom the provisions of subsection (3) of section 14 of the Contributory Pensions Act of 1939 (which subsection provided for modified old age pensions where certain dependants war pensions were payable) applied or would, but for the repeal of the Contributory Pensions Acts, have applied so that any old age pension to which any such person could have become entitled under those Acts, together with any increase under the Increase of Pensions Regulations, would have been at such a weekly rate as aforesaid:

Provided that, in calculating for the purpose of this Part the rate at which a pension would have been payable under the said Acts, the application of the provisions of subsection (2) of section 5 of the Contributory Pensions Act of 1937 (which subsection related to reductions for low averages of contributions) shall be disregarded.

## PART II

### Provisions applying the reduced rates

(1) Where an existing pensions contributor of one of the classes specified in Part I of this schedule attains pensionable age at any time not more than five years after the appointed day, any retirement pension to which he may become entitled shall be at the rate appropriate to the circumstances of the case set out in columns (2) to (6) of the first table of rates contained in Part III of this schedule:

Provided that—

- (a) where the yearly average of the contributions paid by or credited to any such person is less than fifty, the pension shall not be payable at the appropriate rate in the said first table, but at the rate appropriate to the circumstances of the case set out in the second table of rates contained in the said Part III; and

- (b) in the case of a person of the class specified in paragraph (4) of the said Part I, the pension shall be either—
- (i) at the appropriate rate specified in the first or the second table, as the case may be, contained in the said Part III; or
  - (ii) at such higher rate, if any, as may be necessary to ensure that the aggregate of the weekly rate of the dependants war pension and the retirement pension shall not be less than the rate of retirement pension which would have been payable but for the dependants war pension.

(2) Where any such person becomes entitled to an increase in respect of his wife, or the wife of any such person becomes entitled to a retirement pension by virtue of his insurance during his life, the rate of such increase or wife's retirement pension shall be the rate in the second or fourth columns of the third table of rates contained in Part III of this schedule set opposite to the rate of that person's retirement pension in the first or third column of that table; and for the purpose of this provision, where the husband's pension is payable under paragraph (ii) of proviso (b) to the foregoing paragraph, it shall be treated as if it were payable under paragraph (i) of the said proviso, and the said paragraph (ii) shall apply in the case of the wife of a person of the class specified in paragraph (4) of the said Part I in the same manner as it does to any such person.

(3) In the case of a person of the class specified in paragraph (1) of Part I of this schedule or the wife of any such person, the provisions of this Part shall cease to apply as from the date on which that person attains the age of seventy.
