#### EXPLANATORY NOTE

*(This Note is not part of the Order, but is intended to indicate its general purport.)*

This Order adds certain substances to the Poisons Schedule and makes amendments in the entries relating to phenothiazine and the active principles of the suprarenal gland. In addition, paragraph (*u*) of the First Schedule, while making no change of substance, makes amendments to take account of recent changes of nomenclature, and makes certain rearrangements accordingly.

The complete Poisons Schedule, as so amended by this Order, is set out in the Second Schedule. Poisons which appear in the list for the first time, poisons appearing under a new name and amendments to existing entries are printed in **heavy type**.
