#### EXPLANATORY NOTE

*(This note is not part of the Regulations and does not purport  
to be a legal interpretation.)*

In accordance with the provisions of the Foyle Fisheries Acts no person may possess the ova or young of salmon or trout without the permission of the Commission. Accordingly the Commission has the power to control the introduction of the ova and young of salmon and trout into any waters in the Foyle Area. These regulations extend the Commission's control to cover the ova and young of all fish species other than salmon and trout.
