EXPLANATORY NOTE

(This Note is not part of the Order, but is intended to indicate its general purport.)

The bye-laws here amended relate to the conveyance, loading and unloading of explosives. Bye-law 2 of the existing bye-laws places restrictions on the conveyance of explosives of certain kinds with explosives of different kinds. Detonators and electric detonators, provided the total number does not exceed 10,000, are exempt from these restrictions provided certain packing conditions are complied with. Bye-law 1 of this Order increases the total number to 20,000.

Bye-law 4 of the existing bye-laws prescribes conditions relating to the conveyance of explosives in any one carriage and paragraph 4(p) limits the quantity to be conveyed in any one carriage to 2,000 lbs, unless the carriage is enclosed in a specified manner, in which case the quantity allowed, in any one carriage on a private railway is 10,000 lbs and, in any one other carriage, is 6,000 lbs.

Bye-law 2 of these bye-laws raises the amounts allowed to 16,000 lbs and 8,000 lbs respectively.
