ANIMALS

ANIMAL HEALTH

The Animal By-Products (Scotland) Regulations 2003

Made - - - - 4th September 2003
Laid before the Scottish
Parliament - - 8th September 2003
Coming into force 1st October 2003

THE ANIMAL BY-PRODUCTS (SCOTLAND) REGULATIONS 2003

PART 1

Introductory provisions

1. Citation, commencement and extent
2. Interpretation
3. Approvals etc.

PART 2

Collection, transportation, storage, handling, processing and disposal of animal by-products

4. Category 1 material
5. Category 2 material
6. Category 3 material
7. Mixing mammalian and non-mammalian animal by-products
8. Collection, transportation and storage

PART 3

Restrictions on access to animal by-products and their use

9. Access to animal by-products
10. Restrictions on use
11. Pasture Land
12. Intra-species recycling of fish

Status: This is the original version (as it was originally made).

PART 4

Approved premises and competent authorities

13. The competent authority
14. Approval of premises
15. Biogas and composting plants
16. Composting catering waste on the premises on which it originates
17. Processing and intermediate plants' own checks
18. Sampling at processing plants
19. Sampling at biogas and composting plants
20. Samples sent to laboratories
21. Laboratories

PART 5

Placing animal by-products and processed products on the market

22. Placing on the market of processed animal protein and other processed products that could be used as feed material
23. Placing on the market of petfood, dogchews and technical products
24. Placing on the market of compost or digestion residues for use on agricultural land

PART 6

Derogations

25. Competent authority for Chapter V of the Community Regulation
26. Derogations regarding the use of animal by-products
27. Collection centres
28. Burial of pet animals
29. Remote areas
30. Burning or burial in the event of a disease outbreak
31. Burning and burial of bees and apiculture products

PART 7

Records

32. Records
33. Records for consigning, transporting or receiving animal by-products
34. Records for burning or burial of animal by-products
35. Records for disposal or use on premises
36. Delivery records to be kept by operators of biogas and composting plants
37. Treatment records for biogas and composting plants
38. Records for approved laboratories
39. Records to be kept for consignments of compost or digestion residue

PART 8

Administration and enforcement

40. Grant of approvals
41. Suspension, amendment or revocation of approvals, authorisations and registrations
42. Review

43. Notice requiring the disposal of animal by-products or catering waste
 44. Cleansing and disinfection
 45. Compliance with notices
 46. Powers of entry
 47. Obstruction, reasonable assistance and information
 48. Penalties and offences by bodies corporate
 49. Enforcement
 50. Transitional provisions
 51. Amendments
 52. Revocations
- Signature

SCHEDULE 1 Additional requirements for biogas and composting plants

PART 1 Premises

1. (1) There shall be— (a) a reception area in which...
2. The animal by-products shall be unloaded in the reception area...
3. The plant shall be operated in such a way that—...
4. The operator shall identify, control and monitor suitable critical points...
5. Containers, receptacles and vehicles used for transporting untreated animal by-products...

PART 2 Treatment systems and parameters for catering waste

1. Unless an approval specifically permits a different system, catering waste...
2. The approval shall normally specify one of the methods in...
3. Composting plants
4. Biogas plants

SCHEDULE 2 Testing Methods

PART 1 METHOD FOR THE ISOLATION OF *CLOSTRIDIUM PERFRINGENS*

1. Time of testing
 2. Samples
 3. Inoculations
 4. Once the agar has set, each agar plate shall be...
 5. Samples with colonies of *Clostridium perfringens*
 6. In the case of each plate, 10 characteristic colonies of...
 7. If the surface area of the plates is overgrown and...
 8. One characteristic colony from each plate shall be subcultured on...
 9. Subcultured colonies
- EXAMINATION OF SUBCULTURES
10. Motility
 11. Reduction of nitrate to nitrite
 12. Production of gas and acid from lactose and liquefaction of gelatin
 13. The lactose gelatin medium shall be examined for colour. A...
 14. The lactose gelatin medium shall be chilled for one hour...
 15. The presence of *Clostridium perfringens* shall be determined on the...
 16. Control Tests
 17. 10 gram portions of the rendered animal protein shall be...
 18. One colony of *Clostridium perfringens* shall be placed in 10...
 19. These are then treated and examined in the same way...

PART 2 METHODS FOR THE ISOLATION OF *SALMONELLA*

Status: This is the original version (as it was originally made).

1. A. BACTERIOLOGICAL METHOD
2. Day 1
3. Day 2
4. Day 3
5. The residual RV broth shall be reincubated at 41.5°C±0.5°C for...
6. Day 4
7. The reincubated RV broth shall be plated out as described...
8. Day 5
9. The plates referred to in paragraph 7 shall be examined...
1. B. ELECTRICAL CONDUCTANCE METHOD
2. Day 1
3. Day 2
4. Day 3
5. Day 4
6. Day 5

PART 3 METHOD FOR THE ISOLATION OF
ENTEROBACTERIACEAE

1. Tests shall be begun on receipt of the sample or...
2. Samples
3. Inoculations
4. Once the agar has set, each agar plate shall be...
5. Samples with colonies of *Enterobacteriaceae*
6. After counting the colonies, characteristic colonies shall be taken at...
7. Examination of subcultures
8. If not all of the colonies prove to be Enterobacteriaceae,...
9. Controls
10. A 10 gram portion of the rendered animal protein shall...
11. One colony of Escherichia coli shall be placed in 10...
12. This is then treated and examined in the same way...

SCHEDULE 3 Remote Areas

1. The area of the Argyll and Bute Council, excluding the...
2. The area of Comhairle nan Eilan Siar.
3. The area of the Highland Council, excluding the Parishes of...
4. In the area of North Ayrshire Council, the parishes of...
5. The area of the Orkney Islands Council.
6. In the area of the Perthshire and Kinross Council, the...
7. The area of the Shetland Islands Council.

SCHEDULE 4 Transitional Provisions

PART 1 Intra-species recycling ban for fish

PART 2 Collection, transport and disposal of former
foodstuffs of animal origin

1. (1) The Scottish Ministers shall be the competent authority for...
2. For the purposes of Article 1(1) of Regulation (EC) 813/2003,...
3. Where former foodstuffs are mixed with Category 1 or Category...
4. Where former foodstuffs are sent for disposal in an approved...
5. Any person who fails to comply with any instructions given...
6. In this Part, “former foodstuffs” does not include waste from...

PART 3 Used cooking oil in animal feed

1. Scope
2. This Part is confined to used cooking oil which–
3. Approvals
4. The approval shall specify– (a) the name of the operator...
5. (1) Approval shall be suspended immediately if the conditions under...

6. General obligations
7. Used cooking oil shall be– (a) collected by an approved...
8. Collection and transportation of used cooking oil
9. Approved premises and the operation of blending premises
10. (1) Before mixing with other oil, operators of blending premises...
11. Approved premises
12. Operators' own checks
13. (1) The operator of approved blending premises shall carry out...
14. (1) The operator shall record the results of the checks...
15. Hygiene requirements in approved premises
16. Specification for used cooking oil for use in animal feed
17. Commercial documents
18. Records
19. List of premises

PART 4 Mammalian blood

1. By way of derogation from Annex VII, Chapter II, paragraph...
2. The Scottish Ministers may approve the use of processing methods...
3. (1) Approval shall be suspended immediately if the conditions under...
4. The approval shall only be granted if the operator was...
5. All other relevant provisions of the Community Regulation must be...

PART 5 Oleochemical plants using rendered fats from category 2 and 3 materials

1. General obligations
2. (1) Approval shall be suspended immediately if the conditions under...
3. The approval shall only be granted to premises and facilities...
4. Specific requirements

PART 6 Low capacity incineration or co-incineration plants which do not incinerate or co-incinerate specified risk materials or carcasses containing them

1. By way of derogation from Article 12(3) of the Community...
2. (1) Approval shall be suspended immediately if the conditions under...
3. The approval shall only be granted to incinerators that were...
4. The operator shall take all necessary measures to ensure that–...
5. In the case of a breakdown or malfunction, the operator...

SCHEDULE 5 Amendments

PART 1 Amendments to the TSE (Scotland) Regulations 2002

1. The TSE (Scotland) Regulations 2002 are amended in accordance with...
2. In regulation 3 (interpretation), for the definition of “ABPO approved”...
3. At the end of regulation 13 (mammalian meat and bone...
4. In regulations 16(2)(b), 17(3)(a) and (b) and 20(1)(c), for “ABPO...
5. Immediately after regulation 34, there is inserted– Mixing specified risk...
6. For regulation 40 (consignment of specified risk material after removal...
7. For Schedule 5 (Application of Part IV of the Regulations...

PART 2 Consequential Amendments

Animal By-Products (Identification) Regulations 1995

1. (1) The Animal By-Products (Identification) Regulations 1995 are amended in...

Status: This is the original version (as it was originally made).

Pollution Prevention and Control (Scotland) Regulations 2000

2. In the definition of “exempt activity” in Section 6.8 of...

Rendering (Fluid Treatment) (Scotland) Order 2001

3. In the definition of “animal by-products” in article 2 (interpretation)...

Products of Animal Origin (Third Country Imports) (Scotland) Regulations 2002

4. In the Products of Animal Origin (Third Country Imports) (Scotland)...

Poultry Breeding Flock and Hatcheries and Animal By-Products (Fees) (Scotland) Order 2002

5. In the Poultry Breeding Flock and Hatcheries and Animal By-Products...

SCHEDULE 6 Revocations
