## EXPLANATORY NOTE

*(This note is not part of the Regulations)*

These regulations provide for arrangements for the provision of general ophthalmic services under the National Health Service in Scotland, and for the preparation and maintenance by each Health Board in Scotland of an Ophthalmic List. The regulations define general ophthalmic services under the NHS in Scotland, and provide for a new eye examination. They supersede and revoke

the National Health Service (General Ophthalmic Services) (Scotland) Regulations 1986 (“the 1986 Regulations”).

These regulations are consequential on the coming into force of amendments made by the Smoking, Health and Social Care (Scotland) Act 2005 (“the 2005 Act”) to the sections of the National Health Service (Scotland) Act 1978 (“the 1978 Act”) dealing with general ophthalmic services and the disqualification of practitioners.

Those provisions of the 2005 Act were commenced on 1st April] 2006 by the Smoking, Health and Social Care (Scotland) Act 2005 (Commencement No. 4) Order 2006 (S.S.I. 2006/ ).

The changes to the 1978 Act made by the 2005 Act include changes to the structure and content of the Ophthalmic List, the introduction of free eye examinations and sight tests under the National Health Service in Scotland, powers and duties for the NHS Tribunal to enquire into representations that a practitioner meets a third condition for disqualification (which are referred to in Act as “unsuitability cases”) and changes to the way in which effect is to be given in Scotland to disciplinary decisions in England, Wales or Northern Ireland which correspond to decisions which can be made by the NHS Tribunal in Scotland. These regulations make provision consequential upon these changes.

Part I of these regulations makes general provisions for the purpose of these regulations.

Regulation 2 defines the terms used in the regulations.

Part II of the regulations consolidates the provisions of the 1986 regulations relating to qualifications which a doctor must possess for the purposes of general ophthalmic services.

Part III of the regulations makes provisions for the Ophthalmic List which is to be prepared and maintained by each Health Board.

Regulation 6 provides that each Health Board is to prepare and maintain an Ophthalmic List, which will be divided into 2 parts. The first part will contain the names and other details of ophthalmic medical practitioners and opticians who have undertaken to provide general ophthalmic services under arrangements with the Health Board in terms of the regulations.

The second part will contain the names and other details of ophthalmic medical practitioners and opticians who are approved by the Health Board to assist in the provision of such services.

In terms of regulation 2(1) an “ophthalmic medical practitioner” means a registered medical practitioner whose qualifications have been approved in accordance with Part II of the regulations as being prescribed qualifications. An “optician” means an ophthalmic optician, which is defined in section 108(1) of the 1978 Act as a person registered in the Register of Optometrists maintained under section 7 of the Opticians Act 1989, or a body corporate registered in the Register of bodies corporate maintained under section 9 of that Act to carry on business as an optometrist.

Regulation 6(5) provides that (subject to regulation 26(8) (transitional provisions)), an ophthalmic medical practitioner or optician may not provide general ophthalmic services in the area of the Health Board unless that person's name is included in the first part of the Ophthalmic List of that Health Board, and an ophthalmic medical practitioner or optician may not assist in the provision of general ophthalmic services in the area of a Health Board unless that person's name is included in the first or second part of that Health Board's Ophthalmic List.

Regulation 7 sets out the requirements and procedure for making an application for inclusion in an Ophthalmic List, and for the notification of any changes in the information provided. Paragraphs (7) to (10) contain provisions for applications by opticians in training. Regulation 7 also sets out the procedure to be followed by a Health Board in considering an application.

Regulation 7(5) provides that where information disclosed by, provided to, or the investigations carried out by the Health Board in terms of regulation 7 lead the Board to consider that there may be grounds for referral to the NHS Tribunal, then the Board may refer the matter to the Tribunal.

Regulation 8 sets out mandatory grounds for refusal to include an ophthalmic medical practitioner or optician in an Ophthalmic List.

Regulation 9 set out circumstances in which a Health Board may defer a decision on an application to include an ophthalmic medical practitioner or optician in the Ophthalmic List, and the procedure to be followed.
