ANIMALS

ANIMAL HEALTH

**The Avian Influenza and Influenza of Avian
Origin in Mammals (Scotland) Order 2006**

Made - - - - 7th June 2006

Coming into force 1st July 2006

**THE AVIAN INFLUENZA AND INFLUENZA OF AVIAN
ORIGIN IN MAMMALS (SCOTLAND) ORDER 2006**

PART 1

Introduction

1. Citation, commencement and extent
2. Interpretation
3. Scope of the Act and of this Order
4. Declarations, licences, notices and designations under this Order
5. Controlled zones

PART 2

Preventive measures

6. Measures to reduce the risk of the transmission of avian influenza
7. Surveillance for avian influenza

PART 3

Measures on suspicion of avian influenza

8. Disapplication of measures to regulated places
9. Notification procedures and precautions to be taken where avian influenza is suspected
10. Notice of restrictions where avian influenza is suspected on premises
11. Derogations from restrictions applicable at suspect premises
12. Veterinary inquiries and sampling

Status: Point in time view as at 01/07/2006.

Changes to legislation: There are currently no known outstanding effects for the The Avian Influenza and Influenza of Avian Origin in Mammals (Scotland) Order 2006. (See end of Document for details)

13. Measures to minimise the risk of the spread of avian influenza from suspect premises
14. Restrictions where avian influenza is suspected in transit
15. Measures in a temporary movement restriction zone
- 16.— Additional restrictions at suspect premises
17. Declaration of a temporary control zone around the suspect premises

PART 4

Measures on confirmation of highly pathogenic avian influenza at premises other than regulated places

18. Disapplication of measures to regulated places
19. Confirmation of highly pathogenic avian influenza
20. Restrictions on confirmation of highly pathogenic avian influenza
21. Tracing of meat and eggs from infected premises
22. Measures when poultry meat and eggs have been traced
23. Veterinary inquiry at infected premises
24. Identification of contact premises
25. Restrictions at contact premises
26. Declaration of protection, surveillance and restricted zones
27. Size of zones
28. Measures in protection zones
29. Measures in surveillance zones
30. Restrictions on trade in things from areas where measures have been disapplied
31. Alternative measures where avian influenza is confirmed at a hatchery or in other captive birds on special category premises
32. Measures in restricted zones
33. Additional measures in protection, surveillance and restricted zones
34. Ending of protection, surveillance and restricted zones

PART 5

Measures on suspicion or confirmation of highly pathogenic avian influenza in regulated places and vehicles

35. Veterinary measures at slaughterhouses
36. Veterinary measures where avian influenza is suspected or confirmed in vehicles
37. Killing of birds in slaughterhouses
38. Poultry meat and by-products in slaughterhouses where disease is suspected or confirmed
39. Measures at border inspection posts
40. Measures if avian influenza is suspected or confirmed in a vehicle
41. Disposal or removal of things which may be contaminated
42. Cleansing and disinfection of regulated places and vehicles
43. Reintroduction of poultry and other captive birds
44. Measures at other premises

PART 6

Measures on confirmation of low pathogenic avian influenza

45. Confirmation of low pathogenic avian influenza
46. Measures when low pathogenic avian influenza is confirmed

47. Movement of eggs from premises where low pathogenic avian influenza is confirmed
48. Veterinary surveillance of poultry
49. Veterinary surveillance of birds
50. Tracing of poultry and eggs
51. Identification of contact premises
52. Restrictions at contact premises
53. Declaration of a low pathogenic avian influenza restricted zone
54. Size of zones
55. Measures in low pathogenic avian influenza restricted zones

PART 7

Measures to reduce the risk of the spread of influenza viruses of avian origin to other species

56. Tests on animals at premises where avian influenza is confirmed
57. Killing of mammals
58. Movements off the premises
59. Measures at other premises
60. Additional measures to control the spread of virus in mammals

PART 8

General measures on suspicion or confirmation of avian influenza

61. Treatment, labelling and movement of meat from poultry from a protection zone
62. Poultry and eggs moved to premises outside controlled zones other than for slaughter
63. Records at premises to which things are moved
64. Egg processing plants
65. Cleansing, disinfection and treatment
66. Restocking premises
67. Surveillance at restocked commercial poultry premises
68. Additional measures at restocked commercial poultry premises
69. Measures at other restocked premises
70. Designation of premises to which things may be moved
71. Duty to provide reasonable assistance
72. Provision of information
73. Records of movements authorised by general licence
74. Retention and production of records
75. Duty to comply with declarations, licences, notices and designations
76. Costs of compliance
77. Killing of birds and destruction of things which may be contaminated
78. Duty of the local authority to erect signs

PART 9

Inspection, enforcement, offences, amendments and revocations

79. Redirection of mammals, birds and eggs in transit
80. Change of occupation of premises under restriction
81. Veterinary investigations
82. General powers of inspectors
83. Powers of inspectors in case of default
84. Offences by bodies corporate etc

Status: Point in time view as at 01/07/2006.

Changes to legislation: There are currently no known outstanding effects for the The Avian Influenza and Influenza of Avian Origin in Mammals (Scotland) Order 2006. (See end of Document for details)

85. Ignorance of restriction or requirement
 86. Enforcement
 87. Revocations and amendments
- Signature

SCHEDULE 1 Measures where avian influenza is suspected on premises

1. Record of poultry, other captive birds and mammals
2. Housing or isolation of poultry and other captive birds
3. Prohibition on movement of poultry and other captive birds to and from the premises
4. Prohibition on the removal of other things liable to transmit avian influenza
5. Prohibition on movement of persons, mammals and vehicles to and from the premises
6. Restrictions on the movement of eggs
7. A person moving eggs under paragraph 6(a) must ensure that—...
8. No person shall tamper with a seal attached under paragraph...
9. Disinfection at entrances and exits

SCHEDULE 2 Additional measures on premises where highly pathogenic avian influenza is confirmed

1. Killing and seizure
2. Measures to minimise the risk of spread of avian influenza to wild birds
3. Disposal of carcasses and eggs
4. Tracing
5. Cleansing and disinfection
6. Restocking

SCHEDULE 3 Cleansing and disinfection of premises other than regulated places and of any thing (including any vehicle) on those premises

PART 1 General procedures for cleansing, disinfection and treatment

1. A person carrying out cleansing, disinfection and treatment (including measures...
2. A person using a disinfectant or degreasing agent under this...
3. A person cleansing and disinfecting under this Order must ensure...
4. A person washing with liquids applied under pressure must avoid...
5. A person who has cleansed and disinfected part of any...
6. A person carrying out a cleansing or disinfecting procedure must...
7. A person who makes such a record must keep it...

PART 2 Specific procedures for the cleansing and disinfecting of infected premises

1. This Part applies to the cleansing and disinfecting of infected...
2. Preliminary cleansing and disinfecting
3. A person carrying out a cleansing or disinfection procedure must...
4. Following killing— (a) carcasses must be sprayed with disinfectant;
5. Final cleansing and disinfecting
6. All surfaces must be subjected to the following procedures—

PART 3 Disinfection of contaminated litter, manure and slurry

1. Manure and used bedding must— (a) be steam treated at...
2. Slurry must be stored for at least 60 days after...
3. Manure, litter and bedding which may be contaminated may, if...

4. The transport of such manure, litter or bedding must be...
 SCHEDULE 4 Measures in a protection zone
1. Record keeping and duty to inform the Scottish Ministers of birds' change in health
2. The occupier of any such premises must keep a record...
3. Every person who is engaged in the transport or marketing...
4. The records referred to in paragraphs 2 and 3 must...
5. Paragraphs 1 and 3 do not apply to—
6. The occupier of any premises in the protection zone must...
7. Isolation of poultry and other captive birds
8. If birds are kept isolated but not housed, the occupier...
9. Disposal of carcasses
10. Biosecurity measures
11. Litter, poultry manure and slurry
12. Gatherings of poultry
13. Release of game
14. Restrictions on the movement of mammals, birds, eggs, poultry meat and carcasses
15. Subject to paragraph 16, no person shall move any poultry,...
16. Poultry and eggs may be transported through the protection zone...
17. The movements referred to in paragraph 15(a) are the following—...
18. Requirements for the transport of poultry from premises in the zone for immediate slaughter at a designated slaughterhouse
19. Requirements for the movement of poultry meat from poultry sent to a designated slaughterhouse from premises within the zone
20. Requirements for the movement of poultry to a slaughterhouse within the zone from premises outside the zone
21. Requirements for the movement of day old chicks hatched from eggs produced in the zone or from eggs which had contact with such eggs
22. Requirements for the movement of day old chicks hatched from eggs originating outside the zone
23. Requirements for the movement of ready to lay poultry
24. Requirements for the movement of hatching eggs from the zone to a designated hatchery or a designated laboratory or institute for use for scientific, diagnostic or pharmaceutical purposes
25. Requirements for the movement of table eggs to a packing centre
26. Requirements at slaughterhouses
27. Requirements for poultry meat
28. Poultry meat from poultry originating outside the zone is subject...
29. Cleansing and disinfection of vehicles
30. A person who enters or leaves premises by vehicle must...
31. Access to prohibited places
32. Veterinary surveillance
 SCHEDULE 5 Measures in Surveillance Zones
1. Record keeping and duty to inform the Scottish Ministers of birds' change in health
2. The occupier of any such premises must keep a record...
3. Every person who is engaged in the transport or marketing...
4. The records referred to in paragraphs (2) and (3) must...
5. Paragraphs 1 and 3 do not apply to—
6. The occupier of any premises in the surveillance zone must...
7. Restrictions on the movement of poultry, other captive birds and mammals onto and off premises

Status: Point in time view as at 01/07/2006.

Changes to legislation: There are currently no known outstanding effects for the The Avian Influenza and Influenza of Avian Origin in Mammals (Scotland) Order 2006. (See end of Document for details)

8. Biosecurity measures
9. Litter, poultry manure and slurry
10. Gatherings of poultry
11. Release of game
12. Restrictions on the movement of poultry and eggs within the surveillance zone
13. Paragraph 12 does not apply to the retail distribution of...
14. A veterinary inspector must not grant a licence under paragraph...
15. A veterinary inspector may license the transport of poultry from...
16. Restrictions on the movement of poultry and eggs out of the surveillance zone
17. Paragraph 16 does not apply to the retail distribution of...
18. Requirements for the transport of poultry from premises in the surveillance zone for immediate slaughter at a designated slaughterhouse
19. Requirements for the movement of day-old chicks hatched from eggs produced within the surveillance zone or from eggs which have had contact with such eggs
20. Requirements for the movement of day-old chicks hatched from eggs originating outside the protection and surveillance zones
21. Requirements for the movement of hatching eggs from the zone to a designated hatchery, or to a designated laboratory or institute for use for scientific, diagnostic or pharmaceutical purposes
22. Requirements for the movement of table eggs to a packing centre
23. Requirements for the movement of table eggs to premises for the manufacture of egg products
24. Cleansing and disinfection of vehicles
25. A person who enters or leaves premises by vehicle must,...

SCHEDULE 6

PART 1 Measures on premises where low pathogenic avian influenza is confirmed

1. Record of poultry, other captive birds and mammals
2. Housing or isolation of poultry and other captive birds
3. Prohibition on movement of poultry and other captive birds to and from the premises
4. Movement of poultry or other captive bird to a slaughterhouse
5. No person shall remove the seal on a vehicle transporting...
6. Any person who transports any bird or any thing which...
7. Prohibition on the movement of people, mammals and vehicles and equipment to and from premises
8. Restrictions on the movement of eggs
9. Disposal of carcasses
10. Disposal of hatching eggs
11. A veterinary inspector may direct, on special category premises, that...
12. Tracing of hatching eggs and of poultry from such eggs
13. Manure, slurry and bedding
14. Cleansing and disinfection
15. Other material which may be contaminated
16. Killing and seizure
17. Disinfection at entrances and exits

PART 2 Criteria to be considered by the Scottish Ministers before permitting movements from premises where low pathogenic avian influenza has been confirmed

18. The criteria to be considered by the Scottish Ministers before...
 - SCHEDULE 7 Measures in a low pathogenic avian influenza restricted zone
 1. Restrictions on the movement of poultry, other captive birds and mammals onto and off premises
 2. Biosecurity measures
 3. Litter, poultry manure and slurry
 4. Gatherings of poultry
 5. Release of game
 6. Restrictions on the movement of poultry, other captive birds and eggs within the zone
 7. Restrictions on the movement of poultry, other captive birds and eggs out of the zone
 8. Paragraphs 6 and 7 do not apply to the retail...
 9. Requirements for the movement of hatching eggs from the zone to a designated hatchery or a designated laboratory or institute for use for scientific, diagnostic or pharmaceutical purposes
 10. Carcases
 11. Cleansing and disinfection of vehicles
- Explanatory Note

Status:

Point in time view as at 01/07/2006.

Changes to legislation:

There are currently no known outstanding effects for the The Avian Influenza and Influenza of Avian Origin in Mammals (Scotland) Order 2006.
