

SCHEDULE 12

Collation of information and criteria for aggregating data and calculating statistical parameters

PART 1

Information to be submitted to the Commission

2. The Scottish Ministers shall also ensure that the following information is collated—
 - (a) for ozone, nitrogen dioxide, oxides of nitrogen and the sums of ozone and nitrogen dioxide (added as parts per billion and expressed in $\mu\text{g}/\text{m}^3$ ozone) the maximum, 99.9th, 98th and 50th percentiles and annual average and number of valid data from hourly series; and
 - (b) the maximum, 98th and 50th percentile and annual average from a series of daily 8-hour ozone maxima.
