

## SCHEDULE 1

### Construction and design of centres

## PART 2

### EC collection centre or domestic collection centre

The EC collection or domestic collection centre must–

- (a) have–
  - (i) bovine animal housing, including isolation facilities that have no direct communication with the normal bovine animal housing;
  - (ii) semen collection facilities, including a separate room for the cleaning and disinfection or sterilisation of equipment;
  - (iii) facilities where semen may be processed, which need not be on the same site; and
  - (iv) a semen quarantine room, which need not be on the same site;
- (b) be constructed or isolated so that contact with livestock outside the centre is prevented;
- (c) be constructed so that the bovine animal housing and the semen collection and processing facilities and the semen quarantine room can be readily cleaned and disinfected; and
- (d) be so designed that the bovine animal housing is separated from the processing facilities and both are separated from the semen quarantine room.
