

SCHEDULE 2

MONITORING

PART 4

MACRO-ALGAE AND MARINE PHYTOPLANKTON

7. Where any bathing water profile indicates a tendency for proliferation of macro-algae or marine phytoplankton, SEPA must carry out such investigations at that bathing water as are necessary to—

- (a) determine whether such proliferation constitutes a health risk to bathers; and
- (b) allow adequate management measures to be put in place in accordance with regulation 15.

Changes to legislation:

There are currently no known outstanding effects for the The Bathing Waters (Scotland) Regulations 2008, Paragraph 7.
